Foreword

It gives me great pleasure to introduce the annual report of the Saudi Fund for Development (SFD) during the fiscal year 2019. The SFD efforts is a part of the Saudi Government's care, year after year, in supporting the development process in the developing countries by contributing to the financing of infrastructure projects to achieve the desired development in these countries and to improve the standard of living of their peoples.

In its efforts to support the development process in the developing countries, in 2019 SFD contributed to financing of 24 development projects and programs in 16 developing countries with a total amount exceeding SR 3294 million. The Fund has, since its inception up to date, signed 714 loan agreements to finance projects and programs in 83 countries in Africa, Asia and Other Regions of the world with a total amount exceeding SR 67594 million.

In supporting the economic relations between the Kingdom and the brother and friendly countries, SFD during this fiscal year approved 6 national non-oil export financing transactions with a total value of SR 1841 million. Thus, the number of national non-oil export financing transactions approved by the SFD since the inception of this program activity in 2001 to this year reached 293 transactions with a total value of SR 81441 million. With regard to the Saudi Export Program activities, the total number of policies issued by the program since its inception until the end of 2019 amounted to 310 national export guarantee policies with a total value of SR 33933 million.

The figures and statistics included in this report reflect the progress of the SFD's efforts, year after year, to underline the attention and interest of the Custodian of the Two Holy Mosques and His Highness the Crown Prince to support development efforts at the international level, especially in the developing countries and strengthen the Kingdom's economic relations with other countries.

Ahmed bin Aqeel Al Khatib
Chairman of the Board
Saudi Fund for Development

Saudi Fund for Development (SFD) in Brief

Foundation:

The Saudi Fund for Development was founded by virtue of Royal Decree No. M/48, issued on 01/09/1974, and it commenced operations on 01/03/1975.

Management and Organization:

The SFD is a general institution and legal entity of an independent financial status. It is managed by a six member Board of Directors. The SFD's Vice Chairman, the Managing Director, assumes the executive authority and he is responsible for the implementation of the Board's decisions.

Objectives:

As defined in its charter, the SFD's main objectives are to participate in financing development projects in the developing countries by granting them the necessary loans, and the necessary technical assistance necessary for financing studies and institutional support, and financing and guaranteeing the national non-crude oil exports.

Capital:

The SFD has commenced its activity with a capital of ten thousand million Saudi Riyals provided by the Saudi government. This capital had then been increased in three phases to reach thirty one thousand million Saudi Riyals.

Statutory Framework: The SFD's charter includes the basic regulations for providing development loans and financing and guaranteeing national exports.

First: Development Loans for Financing Development Projects

The Following conditions have to be met to obtain the SFD's loan:

- The project to be financed in the recipient country should be proved economically or socially feasible.
- The funding of the entire project for which the loan is provided should be available.
- The loan should be disbursed and repaid in Saudi Riyal.
- The loan amount granted to any project should neither exceed 5% of the SFD's capital.
- The total loan amounts granted to any country in one time should neither exceed 10% of the SFD's capital.

Second: Export Credit and Insurance

For financing and insuring exports, the SFD takes into consideration the following conditions:

- The eligible national commodities and services as well as the added value should be as follows:
 - They can be subsumed under the industrially processed products, including the downstream petroleum sector products, industrial and agricultural goods, and the exported services and turnkey projects.
 - The local added value to the commodities and services to be exported should be equivalent to but not less than 25%.
- Coverage Percentage and Finance Term:
 - The SFD's financing percentage may reach up to 100% of the export transaction value according to the kind of exports, nature of transaction and the commercial and political risks involved.
 - The financing terms vary from one to twelve years.
 - The coverage percentage of the exports guarantee and insurance service is 90% of the total unpaid value of the exports.
- The Accepted Currency:

The Saudi Riyal or US Dollar is approved as the official currency in all Program's transactions.
- The Required Guarantees for Loan Finance:

The Program fulfills the needed guarantees to secure the SFD's rights based on the nature of transaction, its risks and the legal entity of its involved parties.

Scope of Activities

First Financing of Development Projects

The SFD contributes to these projects by providing soft loans. Its activity is not geographically restricted, and it also deals directly with the governments of the developing countries in order to participate in financing priority development projects. The SFD provides financing priority to the least developed and low-income countries.

Second Export Credit and Insurance

The SFD is financing and guaranteeing the national non-crude oil exports through the Saudi Export program (SEP).

In the presence of HRH Prince Abdulaziz bin Saud bin Nayef Al Saud, the Minister of Interior, H. E. Mr. Ahmed Al-Khatib, Chairman of the Board of Directors of SFD, signed a memorandum of understanding with the Republic of the Maldives.

Main office of Saudi Fund for Development in Riyadh, KSA

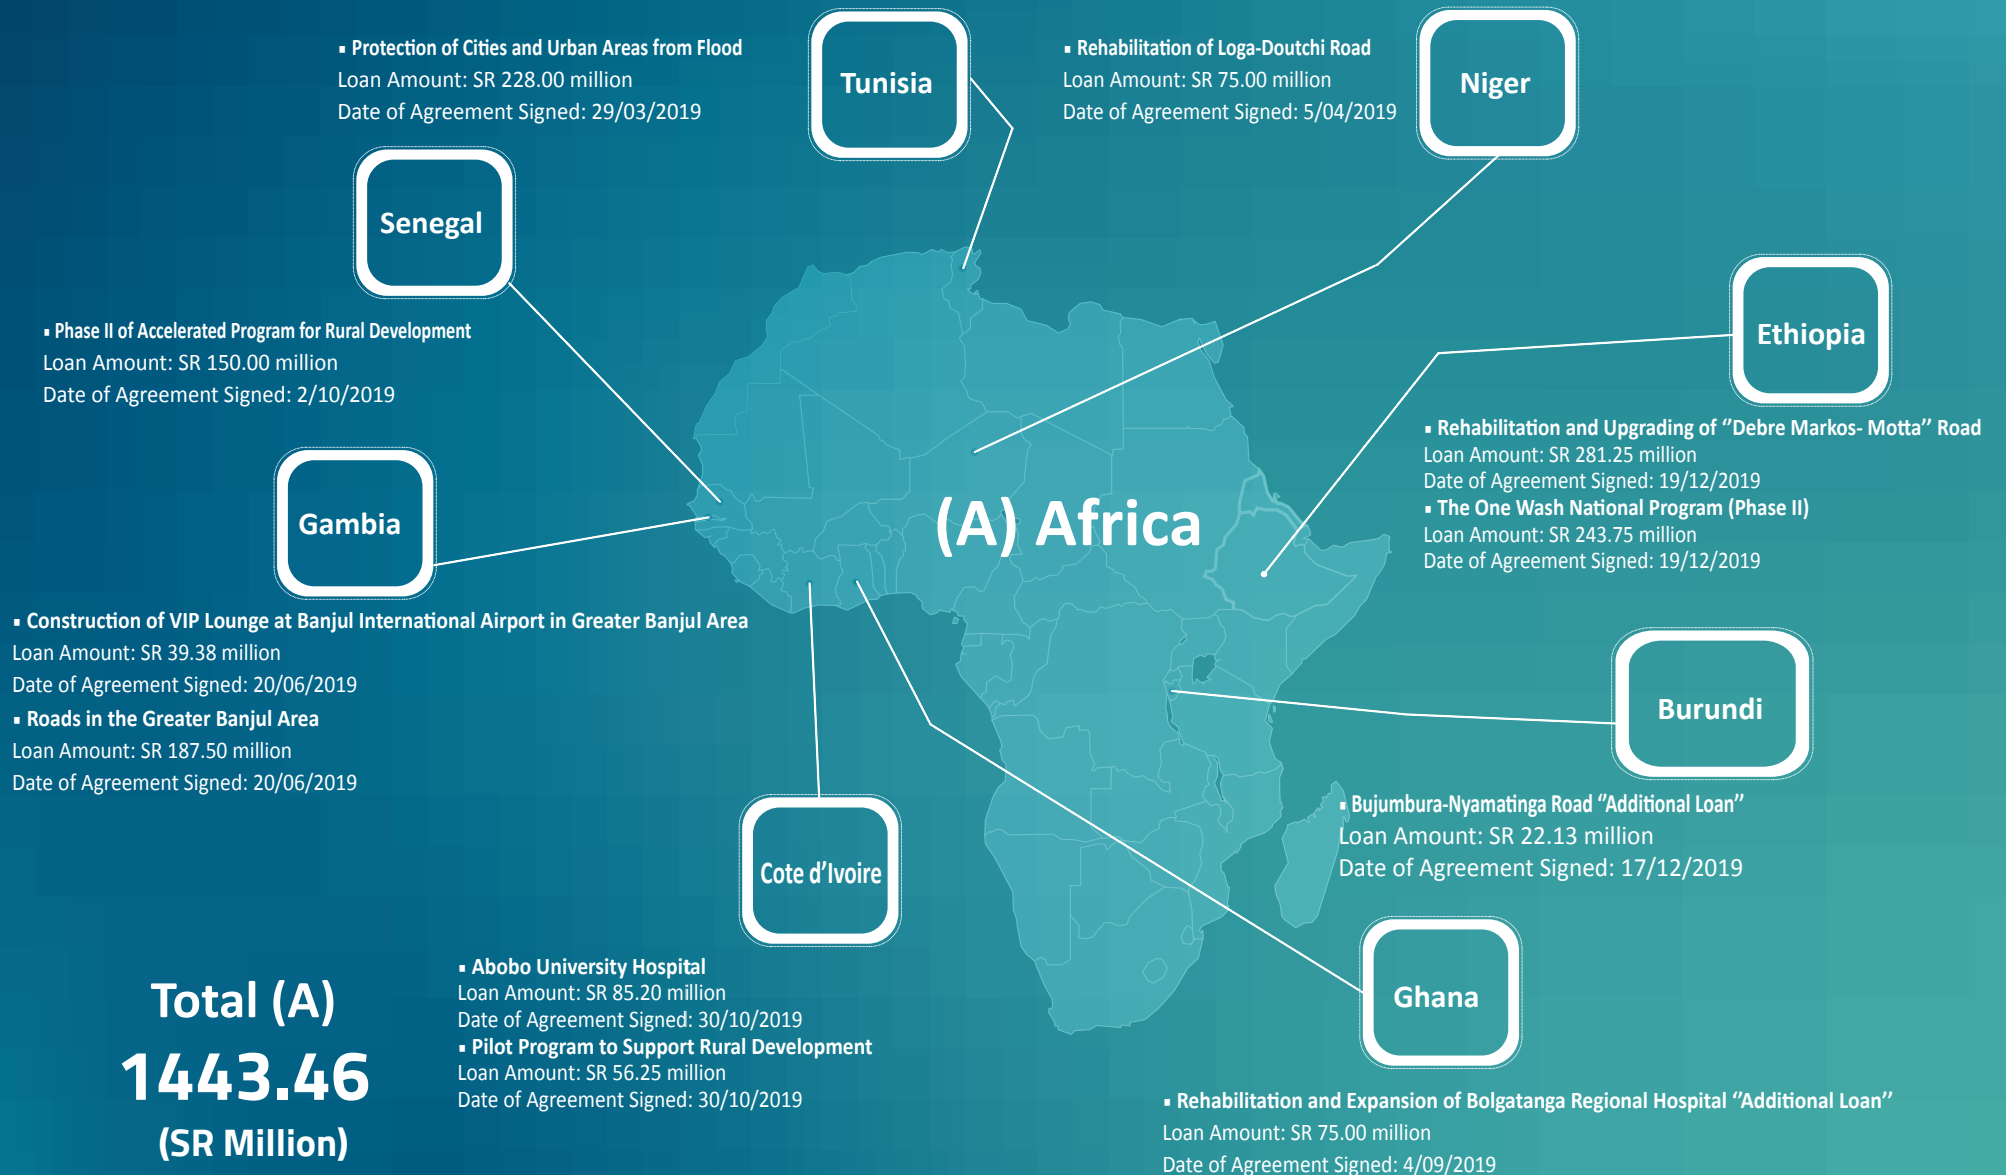

Chapter One

Development Activities during the Fiscal Year (2019)

1. Signed Loan Agreements

In continuation of the Fund's efforts to support development projects in developing countries to enhance the international development process, the Fund signed 24 loan agreements during the fiscal year 1440/1441 AH (2019 AD) with 16 developing countries, with a total value of 3294.47 million riyals, in order to contribute to financing 24 development projects and programs. Of these, 11 projects and development programs in the African continent with a total value of 1443.46 million riyals, including two additional loans, and 13 developmental projects and programs in the Asian continent with a total value of 1851.01 million riyals, and this is evident in the following drawing:

2. Sectorial Distribution of Signed Loan Agreements

During 2019, the SFD continued its activity in supporting the development projects in a number of economic and social sectors of high priority in the development plans and programs in a number of developing countries in Africa, and Asia. The social infrastructure sector has received the largest share in terms of the number of projects and amount, where, the SFD financed 12 development projects at a total value of SR 1737.46 million, representing 52.73% of the total contributions, including 5 projects in education, 5 other projects in health and 2 projects in water and sewerage sector. Followed by the transportation and communication sectors with

financed 7 projects, at a total value of SA 916.51 million, representing 27.82% of the total amount, of which 6 projects were in roads and 1 project in airports. While the SFD financed other sectors and financial support through 4 financing operations, including 2 projects in Tunisia and Senegal and 2 programs in Nepal and Cote d'Ivoire, at a total value of SR 546.75 million, representing 16.60% of the total contributions. The SFD financed 1 project in agriculture at a total value of SA 93.75 million, representing 2.85% of the total contributions provided for this year, as illustrated in the following drawing:

Social Infrastructure

Transport	No. of Projects	Amount (SR Million)	% of the Total Amount
Roads	6	877.13	26.62
Airports	1	39.38	1.20

3. Signed Projects

SFD
المندوق السعودي للتنمية
Saudi Fund for Development

SFD Signed a loan agreement with the Republic of Nepal

Project Name Rehabilitation and Upgrading of “Debre Markos- Motta” Road

Total Cost

SR 302.63 million

SFD Contribution

SR 281.25 million

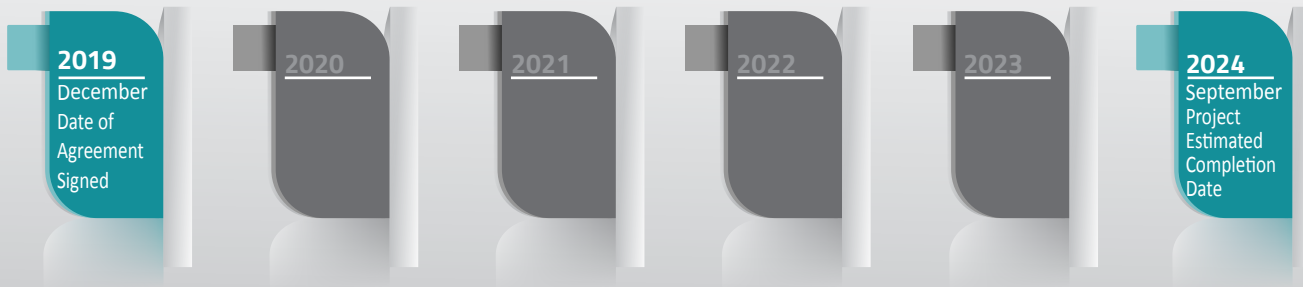

Executing Agency

Ethiopian Roads Authority (E.R.A)

Ethiopia

Project Description and Objectives

The project aims to construct a road with a length of about 118.4 km, which is considered within the framework of the government program, to develop the transport sector in general and the national roads network in particular. In addition to expand and integrate the regional roads network. The project consists of constructing road linking between the cities; Debre Markos and Motta, It includes the land acquisition, logistical support and covering the operation expenses for a period of 4 years.

Project Name The One Wash National Program (Phase II)

Total Cost

SR 24600.00 million

SFD Contribution

SR 243.75 million

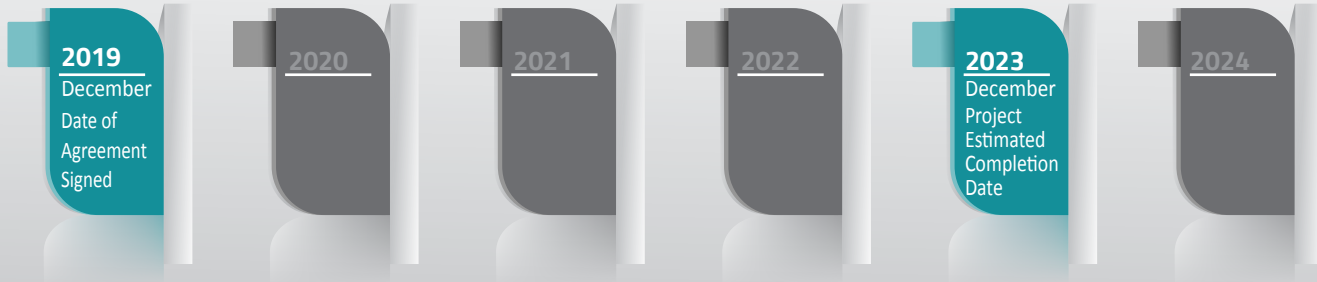

Executing Agency

Ministry of Water, Irrigation and Energy

Ethiopia
Project Description and Objectives

The program aims to contribute to improve health standards of rural and urban residents by providing sustainable water supply and sewage network and adopting good health practices. The program consists of the provision of water supply and sewage network to rural areas, urban areas and governmental institutions. It also covers the program management, capacity building and enhancement capacities to adapt to climate conditions.

Project Name Bujumbura-Nyamatinga Road (Additional Loan)

Total Cost

SR 48.75 million

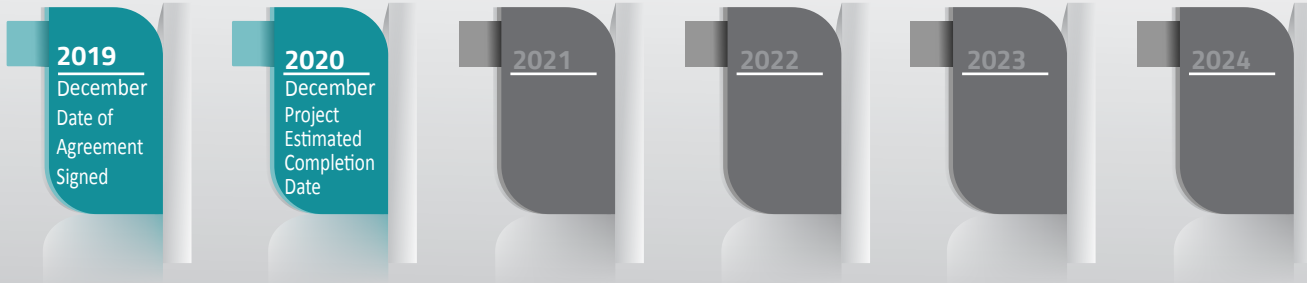

SFD Contribution

SR 22.13 million

Executing Agency

Ministry of Transport, Public Works,
Rehabilitation and Land Development

Burundi
Project Description and Objectives

The project aims to improve means of movement on the part linking between the airport and entrance of Bujumbura, raise capacity of the road, improve level of traffic safety and expand the existing road to become a two-way road linking the northern entrance of Bujumbura to the airport within the capital city development plan by 2045. This plan aims to make the capital an economic and tourism hub in Great Lakes Region. The project consists of expanding part of the road that is being implemented and co-financed by the Saudi Fund for Development and converting it into a two-way road with a length of 5.3 km and two lanes in each direction with a width of 7 meters, and providing public lighting poles for the road.

Project Name Protection of Cities and Urban Areas from Flood

Tunisia
Project Description and Objectives

Total Cost

SR 228.00 million

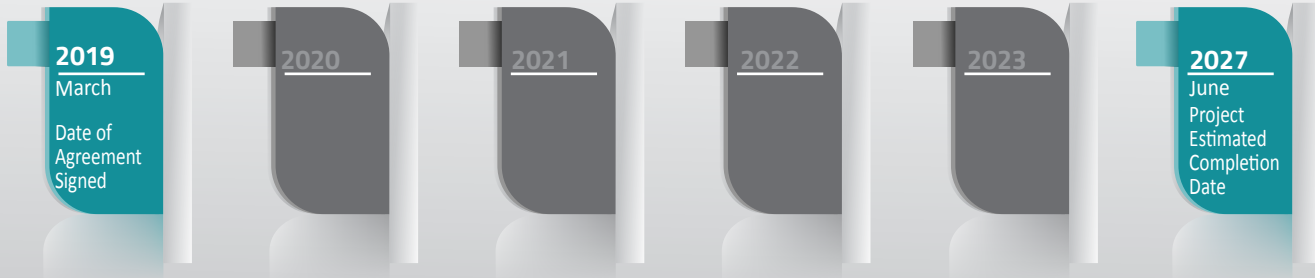

SFD Contribution

SR 228.00 million

Executing Agency

Ministry of Equipment, Housing and Territorial Development

The project aims to protect the cities and urban areas from flooding, by rehabilitate and construct reinforced concrete channels of different sizes, rehabilitate rainwater collection basins, establish a ditch in the northern and eastern region of Greater Tunisia, rehabilitate and construct water facilities in Gabes Valley, Qarab Valley, Roerich Valley, Al Zeer Valley, and Al Khaleej Valley and rehabilitate the roads and green areas. The project includes the excavation and backfilling works and removal of old installations. The project also includes provision of consulting services, preparation of studies and engineering designs, and supervision of implementation.

Project Name Construction of VIP Lounge at Banjul International Airport in Greater Banjul Area

Total Cost

SR 39.38 million

SFD Contribution

SR 39.38 million

Executing Agency

Gambia civil Aviation Authority

Gambia
Project Description and Objectives

The project aims to provide the necessary infrastructure to host high-level delegations, including kings and presidents of states, design the building in an effective manner to ensure its readiness to issue all necessary documents and badges to delegations upon their arrival and to establish a permanent center for future conferences. The project includes the establishment of reception halls, meeting rooms, press and media rooms, service buildings and facilities. It covers the necessary electricity, water, sanitation, furniture and consulting services.

2019 June Date of Agreement Signed	2020	2021 June Project Estimated Completion Date	2022	2023	2024
---	-------------	--	-------------	-------------	-------------

Project Name Roads in The Greater Banjul Area

Total Cost

SR 187.50 million

SFD Contribution

SR 187.50 million

Executing Agency

Minister of Transport, Works and Infrastructure

Gambia

Project Description and Objectives

The project aims to construct major and alternative roads with a total length of 50 km in order to contribute to reduce traffic congestion in Greater Banjul Region, to accommodate the large numbers that will arrive during the Organisation of Islamic Cooperation Summit. The project includes the construction and rehabilitation of foundations, pavement, water drainage installations, safety necessities, barriers, lighting, as well as walkways and parking lots.

Project Name Accelerated Program for Rural Development (Phase II)

Senegal
Project Description and Objectives

Total Cost

SR 2062.50 million

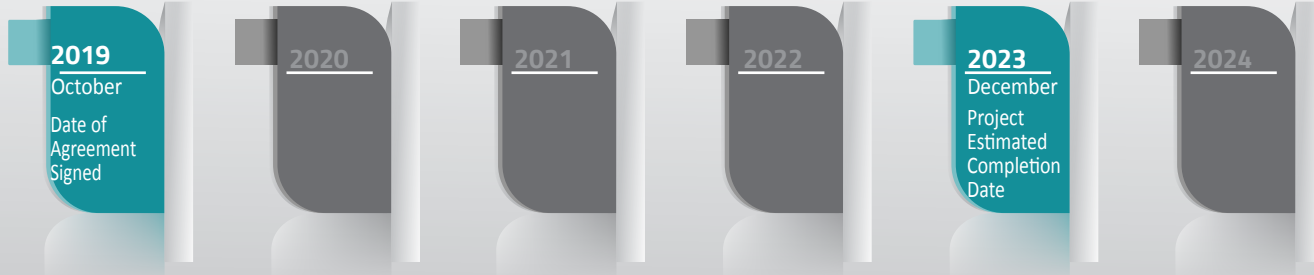

SFD Contribution

SR 150.00 million

Executing Agency

Accelerated Program For Rural Development

The project seeks to strengthen and improve the level of basic infrastructure in rural areas through constructing 210 km rural roads to break the isolation of 180 villages with an estimated population of 89,000 individuals. The project supplies electricity to 50 villages of estimated population of about 20,000 individuals. In addition, the project includes supporting agricultural transformation and increasing productivity in the agricultural field through purchasing 15 agricultural equipments, establishing agricultural transformation sites in 50 villages, organizing trainings for women in some agricultural industries. It supplies many villages with clean water, through digging 10 wells, establishing 10 water storage towers and constructing and equipping 20 health centers.

Project Name Rehabilitation and Expansion of Bolgatanga Regional Hospital (Additional Loan)

Ghana
Project Description and Objectives

Total Cost

SR 75.00 million

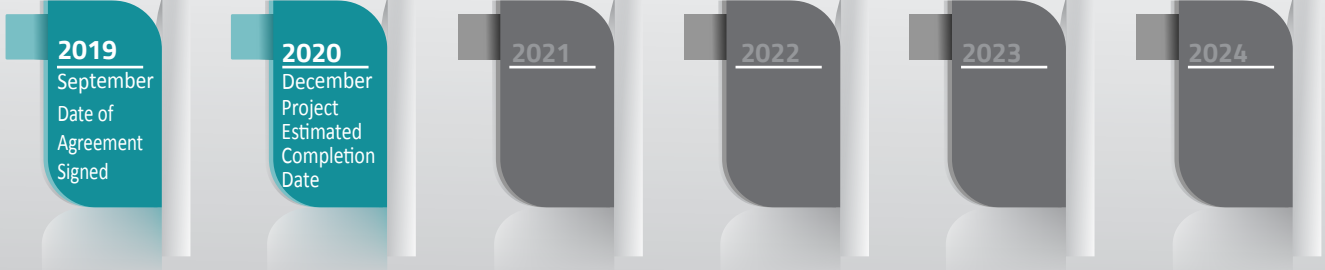

SFD Contribution

SR 75.00 million

Executing Agency

Ministry of Health

The project of rehabilitation and expansion of Bolgatanga Regional Hospital aims to increase the hospital's capacity, upgrade and diversify main health care services to meet health care needs and develop public health care in the Upper East Region of Ghana, which is currently considered one of the regions receiving the least health services in the Republic of Ghana. The project consists of two phases, the first phase includes land acquisition to expand the hospital, construction of an administration building and doctor housing building, completion of maternity complex, restoration of internal roads, rain drainage and rehabilitation of electricity, water and sanitation networks. The financing includes the provision of some medical equipments and furniture necessary for the first phase In addition, prepare a number of doctors and technicians via training courses. The second phase includes the construction of a dental and public health unit, pharmacy, psychiatric unit, radiology department, surgery department, blood bank unit, accident and emergency unit, construction and furnishing of examination unit and central sterilization unit, rehabilitation of wards for women, delivery, general medicine, children, chest and orthopedics. The project also includes the provision of consulting services and supervision of phase II implementation.

Project Name Abobo University Hospital

Cote d'Ivoire
Project Description and Objectives

Total Cost

SR 301.64 million

SFD Contribution

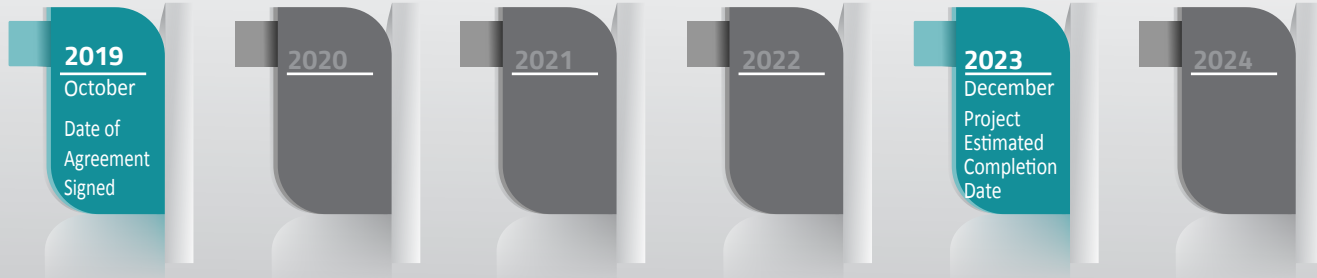

SR 85.20 million

Executing Agency

Ministry of Health and Hygiene

The project aims to construct and equip Abobo University Hospital, dialysis and kidney transplant unit and modern surgical unit. The project consists of the construction of the hospital buildings and facilities on an area of about 49,736 Sqm, a fence of 1,200 meters, water network with a capacity of 100 cubic meters, medical fluid purification plant, and 5 housing buildings. The project also includes the provision of medical equipment, transportation and furniture.

Project Name Pilot Program to Support Rural Development

Total Cost

SR 57.37 million

SFD Contribution

SR 56.25 million

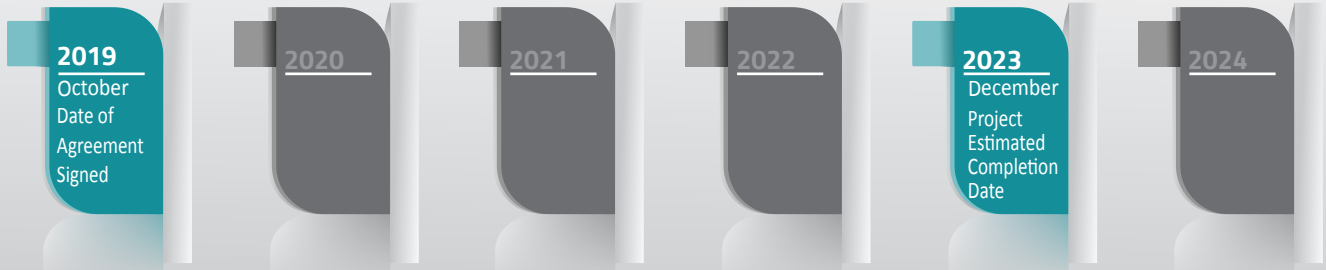

Executing Agency

Ministry of Planning and Development

Cote d'Ivoire

Project Description and Objectives

The project aims to promote the infrastructure in rural and poor areas by implementing the strategy of the National Plan 2016-2020, which sets ambitious plans to develop Côte d'Ivoire by 2020 through comprehensive and sustainable economic transformation process to accelerate development of human capital and prepare the socially citizens. The project includes the construction of 16 integrated health centers in Bounkani and Poro regions, 8 centers in each region, including housing for medical staff, the provision of medical equipment and a medical waste incinerator, and the construction of 16 schools, 8 schools in each region. Each school consists of 6 classrooms, an office and toilets with the necessary equipment, furniture and housing for teachers. The project also includes digging 16 water wells equipped with hand pumps and 6 water tanks, 8 wells and 3 tanks for each region. The project covers the rehabilitation of rural roads, including about 119 km of dirt roads in the two regions.

Project Name Rehabilitation of Loga - Doutchi Road

Niger

Project Description and Objectives

Total Cost

SR 330.75 million

SFD Contribution

SR 75.00 million

Executing Agency

Ministry of Equipment

The project aims to contribute to achieve the development goals in Niger, through breaking the isolation of the project area, improve traffic efficiency and road safety and help transporting agricultural products. In addition, the project contributes to supporting comprehensive agricultural and economic development in the region and eliminating poverty. This is done through construction of 61 km road. It includes water drainage works, safety guidelines and traffic signals.

Project Name Construction of Schools in Different Provinces

Total Cost

SR 187.50 million

SFD Contribution

SR 187.50 million

Executing Agency

Ministry of Public Works and Housing

Jordan

Project Description and Objectives

The project aims to provide educational opportunities with the best international standards, dispense with rented schools and reduce percentage of double shift schools to meet the needs of some areas with a high population density by establishing a number of schools in different provinces. The project also includes the provision of consulting services, preparation of designs and supervision of project implementation.

Indonesia
Project Description and Objectives

Total Cost

SR 243.37 million

SFD Contribution

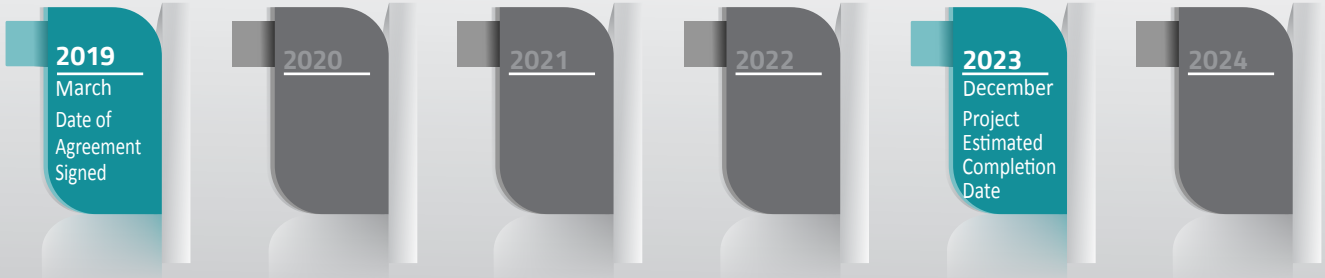

SR 208.50 million

Executing Agency

Ministry of Religious Affairs

The project seeks to increase the university's capacity from 13,000 to approximately 25,000 students. The project includes the construction of Faculty of Engineering building that consists of 3 floors on an area of about 14,000 sqm, Faculty of Pharmacy building that consists of 3 floors on an area of about 7,200 sqm, and Faculty of Medicine building that consists of 3 floors on an area of about 12,000 sqm. Also, the project includes the construction of research and data center building that consists of two floors on an area of about 7,200 sqm, university housing for male and female students, which consists of two independent buildings on an area of about 42,000 sqm and The Center of Islamic Studies building on an area of about 1,600 sqm. In addition, the financing covers the electrical and mechanical works and university furniture, equipment and consultations.

Project Name Development and Upgrading of the State University of Jakarta (Phase II)

Indonesia Project Description and Objectives

Total Cost

SR 143.63 million

SFD Contribution

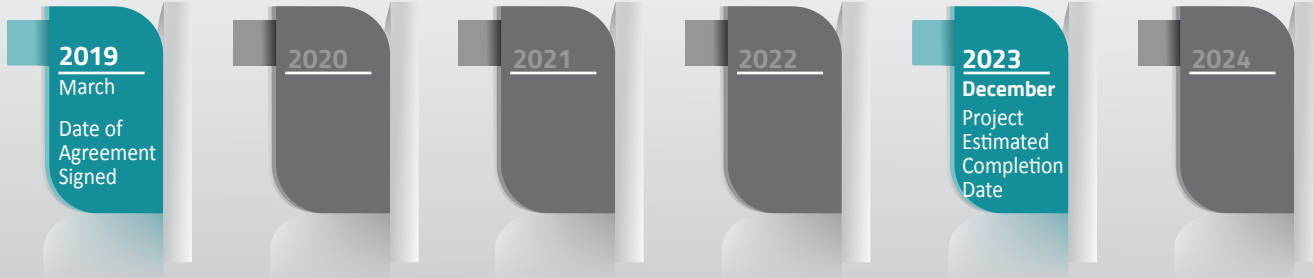

SR 122.63 million

Executing Agency

Ministry of Research, Technology and Higher Education

The project aims to develop the State University of Jakarta - as a high-quality education provider - to become a better continuous education provider. The project also aims to provide the Indonesian people with a better opportunity to access to higher education. The project seeks to increase the capacity of the University from 28,000 to 40,000 students. It includes the construction of four buildings, which consist of 10 floors each, on a total area of 37,000 sqm. It also includes the construction of four floors building, Mosque and Center of Social Development on a total area of 3,800 Sqm, two floors for Mosque and two floors for the Center of Social Development. The project covers the provision of university furniture, equipment for new university buildings, preparation of designs and supervision of the project implementation.

Indonesia
Project Description and Objectives

Total Cost

SR 92.63 million

SFD Contribution

SR 83.63 million

Executing Agency

Directorate General of Resources for Science,
Technology and Higher Education

The project aims to develop health education to meet with local needs and construct a modern and integrated research center by establishing a university hospital at the University of Bengkulu to support the educational and health process and provide health services to the community that meets the needs of patients. The project consists of the construction of the hospital building with a capacity of 120 beds and laboratories on a total area of 19.859 sqm. It also includes the provision of furniture and equipment for the hospital building and laboratory, consulting services, preparation of designs and supervision of implementation.

Project Name Construction of Faculty of Medicine at Sabaragamuwa University

Sri Lanka
Project Description and Objectives

Total Cost

SR 225.00 million

SFD Contribution

SR 187.50 million

Executing Agency

Ministry of City Planning,
Water Supply & Higher Education

The project aims to establish essential infrastructure facilities and provides students with the latest educational facilities (laboratories) that will facilitate the study of medical specialties at the Faculty of Medicine at Sabaragamuwa University in Sri Lanka. Moreover, the new faculty of medicine will provide more opportunities for eligible students at advanced level in the biological sciences to obtain an opportunity to pursue MBBS degree and contribute to government policy on strengthening health care system in Sri Lanka. The project includes the construction of faculty buildings, including the medical education building, library, preliminary diagnostic building, canteen, entertainment area, security center, building of lecturers and professors, in addition to the internal road network, pumps, water and sanitation networks, information technology system, electrical work and male and female students housing. The project covers the purchase of medical and educational laboratory equipment and furniture.

The project aims to support social and economic development and provides health services to Lushan Region after the destruction results from the earthquake in 2013, by reconstructing three hospitals: Yaan People's Hospital in Yucheng, the Chinese Traditional Medicine Hospital in Baoxing and the Chinese Traditional Medicine Hospital in Lushan. The project includes the reconstruction of an admission building with a capacity of 270 beds on an area of 10,389 sqm and an outpatient building and emergency building on an area of 11,081 sqm at Yaan People's Hospital. It also includes the reconstruction of an admission building on an area of 2,452 sqm and an outpatient building on an area of 1,612 sqm and emergency building on an area of 1,478 sqm at the Chinese Traditional Medicine Hospital in Baoxing. The project also includes the reconstruction and equipping of the comprehensive building on an area of 11,791 sqm at the Chinese Traditional Medicine Hospital in Lushan.

Project Name Construction and Equipping of Three Hospitals in Yanbian Prefecture in Jilin Province

China
Project Description and Objectives

Total Cost

SR 390.37 million

SFD Contribution

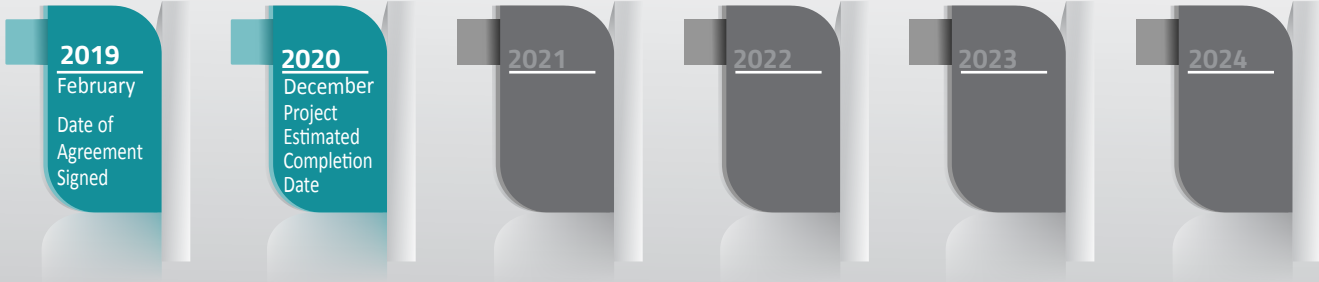

SR 131.25 million

Executing Agency

Health and Family Planning
Commission in Yanbian

The project aims to support social and economic development and provides health services to Yanbian Prefecture in Jilin Province, through the construction and equipping of three hospitals, Yanbian Hospital 2, Yanbian Korean Medical Hospital and Yanbian Children’s Hospital. The project will contribute to alleviate the suffering of the population and provide advanced health services. The project includes the construction and equipping of Yanbian Hospital 2, which consists of 350 beds admission building, an outpatient and emergency building on an area of 43,546 sqm. It includes the construction and equipping of Yanbian Korean Medical Hospital, which consists of a 250 beds admission building, an outpatient building on an area of 19,744 sqm. The project also includes the construction and equipping of Yanbian Children’s Hospital, which consists of a 220 beds admission building on an area of 26,544 sqm. In addition, it provides the necessary medical equipment for the hospitals .

Project Name Development of Water and Irrigation Sources in Khatlon

Tajikistan
Project Description and Objectives

Total Cost

SR 200.66 million

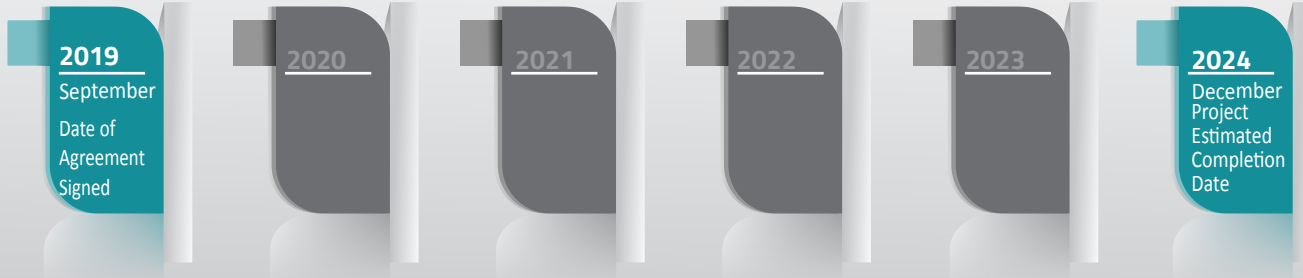

SFD Contribution

SR 93.75 million

Executing Agency

Agency for Land Reclamation and Irrigation at the Ministry of Energy and Water Resources

The project aims to improve the living conditions of the rural residents in Southern Khatlon Region, by constructing and rehabilitating the infrastructure of irrigation and pumping stations on an area of 17,00 hectares. The project includes the reclamation of 7,000 hectares of agricultural land that are not currently being utilized due to lack of irrigation system. It also includes the rehabilitation and development of drinking water supply networks and ensures the sustainable operation of the networks. The project consists of several parts, the first part is the establishment and development of irrigation and drainage networks and including the construction and rehabilitation of tanks and concrete channels, digging of wells and installation of water supply pipes. The second part includes the rehabilitation of rural water supply and sanitation networks in rural areas and Kangurt, and provision of equipment for pumping stations, The project includes the provision of consulting services, preparation of designs and supervision of implementation.

Project Name Development of Water and Sanitation Networks in Rural Areas

Kyrgyzstan
Project Description and Objectives

Total Cost

SR 225.00 million

SFD Contribution

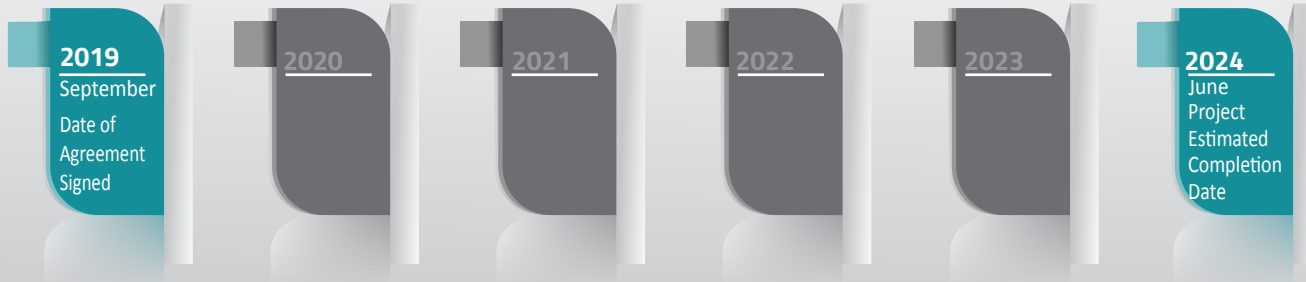

SR 112.50 million

Executing Agency

Community Development and Investment Agency

The project aims to develop water and sanitation networks in approximately 70 villages across the Batken and Talas Regions to serve about 146,000 residents of the two regions. The project consists of the construction and rehabilitation of the existing water networks and increase the production capacity by digging 50 wells to bring groundwater, building pumping stations, constructing a number of water tanks with a capacity of 600 cubic meters to be connected to home water supply networks, social facilities and hospitals with a total length of 840 km. It also includes the establishment of sanitation networks. The project covers the acquisition of land, provision of devices and equipment, supply of operation and maintenance equipment, training, institutional support and project management.

Project Name Construction and Rehabilitation of the Issyk-Kul Ring Road

Total Cost

SR 480.00 million

SFD Contribution

SR 131.25 million

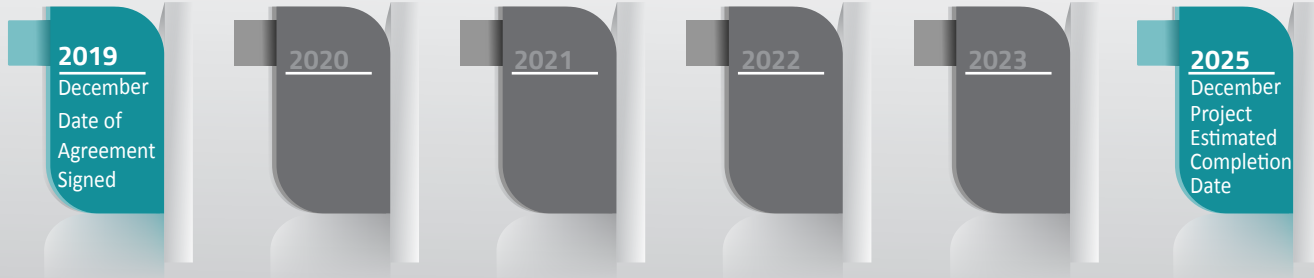

Executing Agency

Ministry of Transport and Roads

Kyrgyzstan

Project Description and Objectives

The project aims to improve and develop land link between Issyk-Kul Lake in the north and the remaining regions in the country by reconstructing and rehabilitating Issyk-Kul Ring Road. This road is important to raise the level of economic and social development, facilitate movement of people and goods in areas through which the road passes, support tourism inside the country and abroad. Issyk-Kul Lake is the second largest lake in the world and one of the most important tourist areas in Kyrgyzstan. In addition, the project creates many jobs as the project will be used by more than 220,000 residents of villages through which the road passes. The project consists of the construction and rehabilitation of 80.5 km.

Project Name Program of Reconstruction of Housing, Educational and Health Facilities Affected By Earthquake

Total Cost

SR 21532.50 million

SFD Contribution

SR 112.50 million

Executing Agency

National Reconstruction Authority

Nepal
Project Description and Objectives

The project aims to reconstruction a number of houses and educational and health facilities that were totally or partially destroyed by the earthquake. The project consists of the reconstruction of about 818,000 houses distributed over 31 affected areas. It also includes the reconstruction of 8,680 educational facilities distributed over 14 affected areas and 544 health facilities distributed over 14 affected areas.

4. Co-financing of Signed Loan Agreements

During 2019, the SFD co-financed 9 development projects and programs, including 1 additional loans, in 7 developing countries in collaboration with a number of financing agencies. The total contributions of the SFD to finance these projects was SR 1018.57 million. illustrated in the Following Drawing:

A. Africa

	 Co-financer & their Contributions	 SFD Contribution	 Total Cost	 Project Name
 Senegal	Government of Senegal: USD 3.72 million	150.00 (SR Million)	2062.50 (SR Million)	Phase II of Accelerated Program for Rural Development
Cote d'Ivoire	Government of Cote d'Ivoire: USD 23.62 million Arab Bank for Economic :Development in Africa USD 50.00 million	85.20 (SR Million)	301.64 (SR Million)	Abobo University Hospital
	Government of Cote d'Ivoire: USD 300,000	56.25 (SR Million)	57.37 (SR Million)	Pilot Program to Support Rural Development
Burundi	Arab Bank for Economic Development in Africa: USD 7.00 million	22.12 (SR Million)	48.75 (SR Million)	Bujumbura-Nyamatinga Road (Additional loan)
Total		313.57 (SR Million)	2470.26 (SR Million)

Chapter Two

Development Activities Up to End of 2019

SFD Cumulative Contributions

Since its inception in 1975 until the end of 2019, the SFD had provided 714 development loans to finance 680 development projects and programs for the benefit of 83 developing countries worldwide. In addition, the SFD contributed to the signing of two financing agreements with the International Development Association (IDA), with a total amount of SR 905.01 million, to bring the total amount provided by the SFD to SR. 67594.83 million, as illustrated in the following graph:

* The reason that the number of signed loan agreements exceeds the number of programs and projects, is that some projects received more than one loan.

Geographical Distribution of Total Number and Amount of SFD Projects

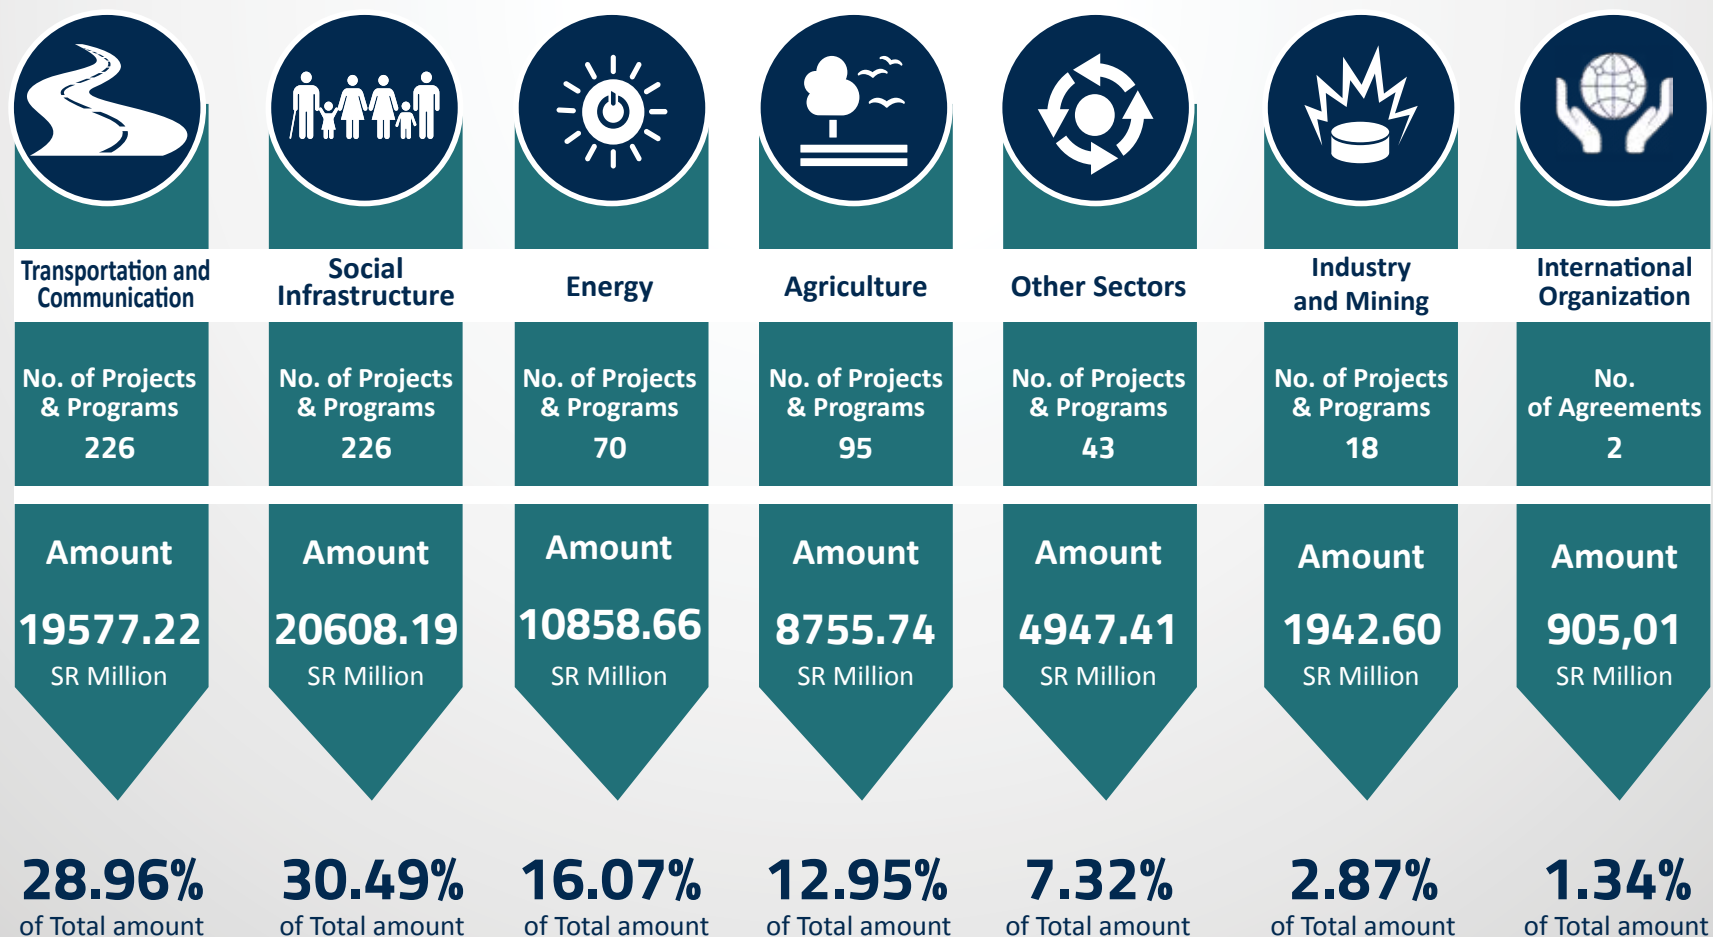

The SFD's development policy focuses on geographically distributing its loans to the poorest and least developed countries. Based on this principle, the SFD devoted its developmental activity to Africa and Asia due to the low economic and developmental level, in addition to the increasing rates of population growth and unemployment and the reduced rates of income. Accordingly, the SFD contributed to the financing of 398 development projects and programs in 46 African countries with a total amount of SR 38128.11 million. In addition, the SFD contributed to the financing of 259 development projects and programs in 29 Asian countries with a total amount of SR 27014.27 million. When it comes to Other Regions, the SFD contributed to the financing of 21 development projects and programs totaling SR 1547.44 million, from which 8 countries around the world benefited, it is worth to mention that, the SFD signed two financing agreements with the International Development Association (IDA), for a total amount of SR 905.01 million, as illustrated in the following drawing.

(SR Million)

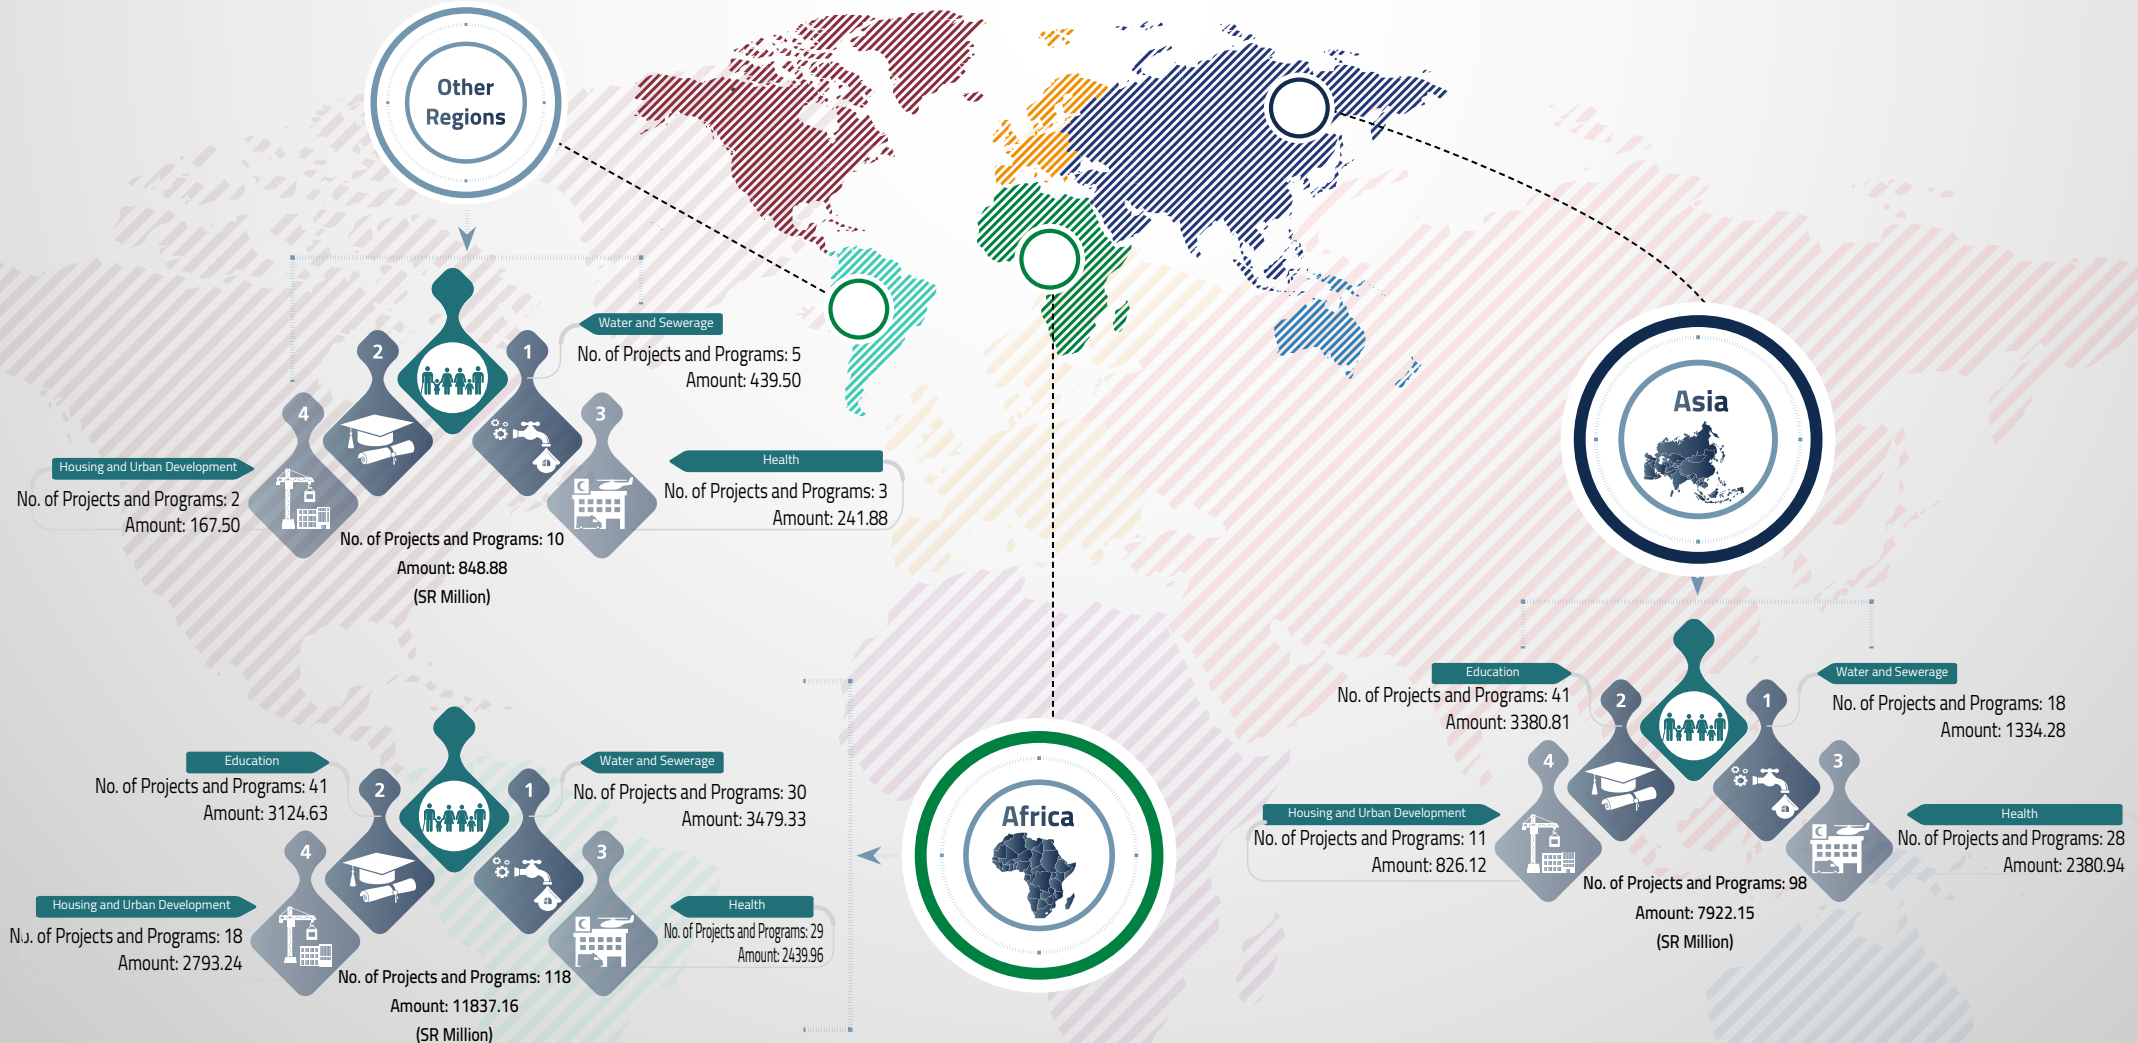

Total	No. of Countries	Projects		Programs		International Organizations			Total Projects and Programs	
		No	Amount	No	Amount	No	No. Agreements	Amount	No	Amount
	83	647	63432.21	31	3257.61	1	2	905.01	680	67594.83

Sectorial Distribution of Total Number and Amount of SFD Projects and Programs

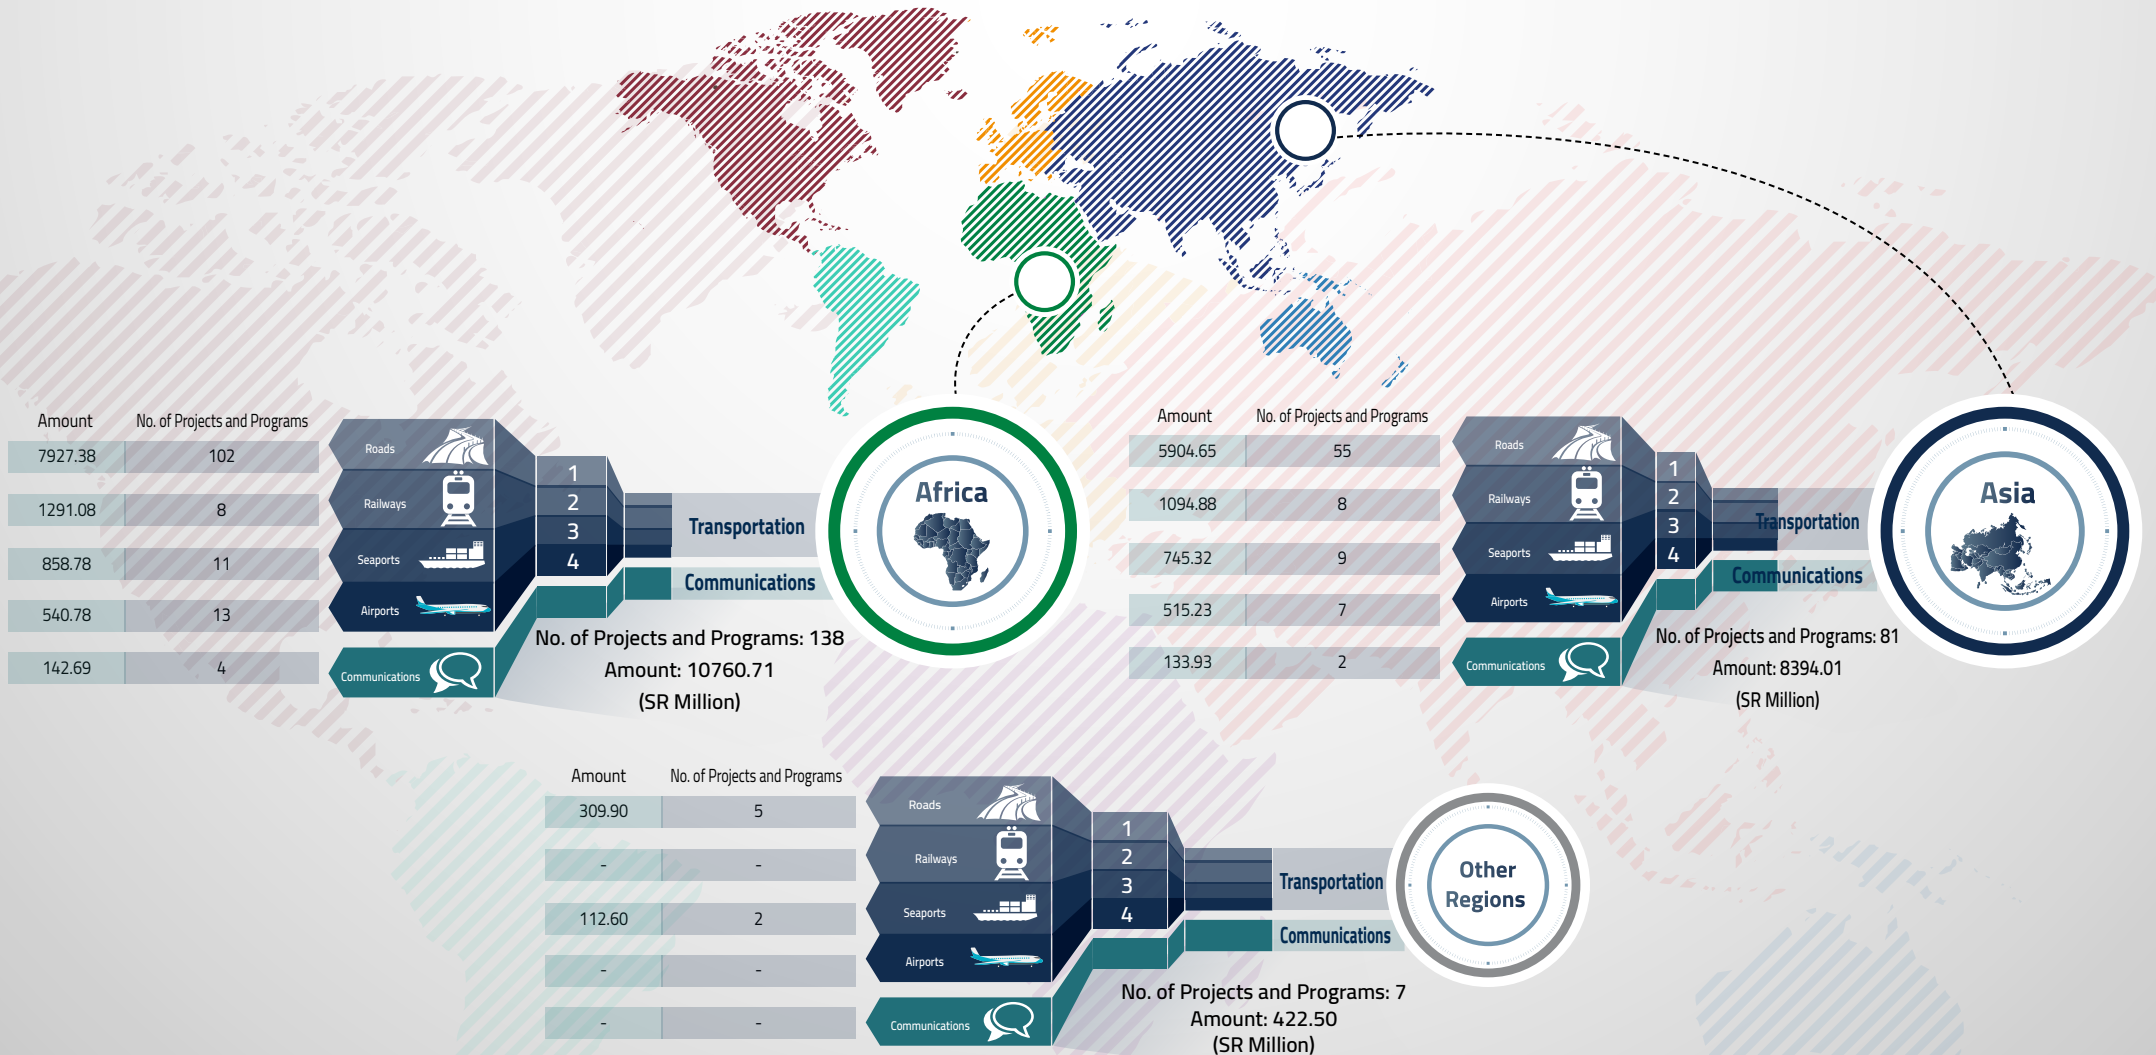

Sectorial and Geographical Distribution of Total Number and Amount of Social Infrastructure Projects

In light of its belief in the importance of supporting projects in the social infrastructure sectors in the developing countries, owing to its role in developing human resource, in addition to increasing efficiency, productivity, improvement of living condition and health of the population. The social infrastructure has topped the list of the sectors financed by the SFD in terms of total loans amounts, which received an amount of SR 20608.19 million, representing 30.49% of the total amount, to finance 226 development projects and programs. It included financing projects in education, health, water and sewerage and housing and urban development, of which African countries received 118 development projects and programs, 98 in Asia and 10 in Other Regions, as illustrated in the following drawing.

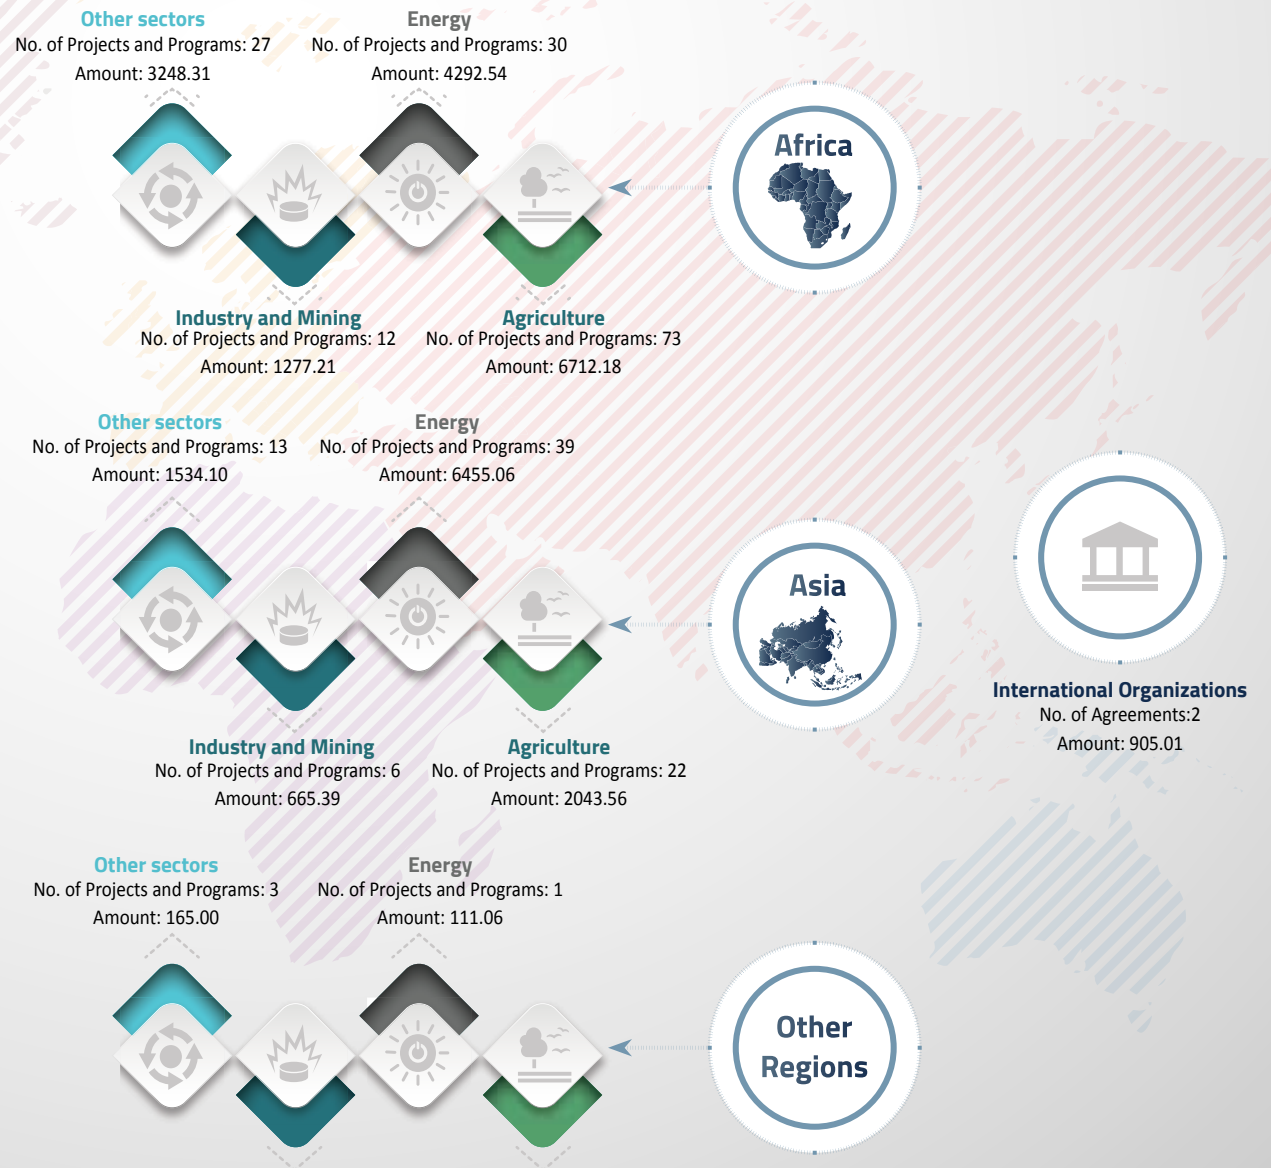

Sectorial and Geographical of Total Number and Amount of Transportation and Communication Projects

In light of its belief in the importance of the transportation and communication sector in the economy of the developing countries, this sector received the greatest share among the beneficiary sectors benefiting from the SFD's loans. The SFD perceived the key role which this sector plays as it links urban areas with rural areas and facilitating the movement of people and goods. The number of development projects and programs financed by the SFD in this sector totaled 226, with a total amount of SR 19577.22 million representing 28.96% of the total amount. African countries received the major share of assistance where the SFD financed 138 development programs and projects, followed by Asia with 81, and 7 in Other Regions worldwide, as illustrated in the following drawing.

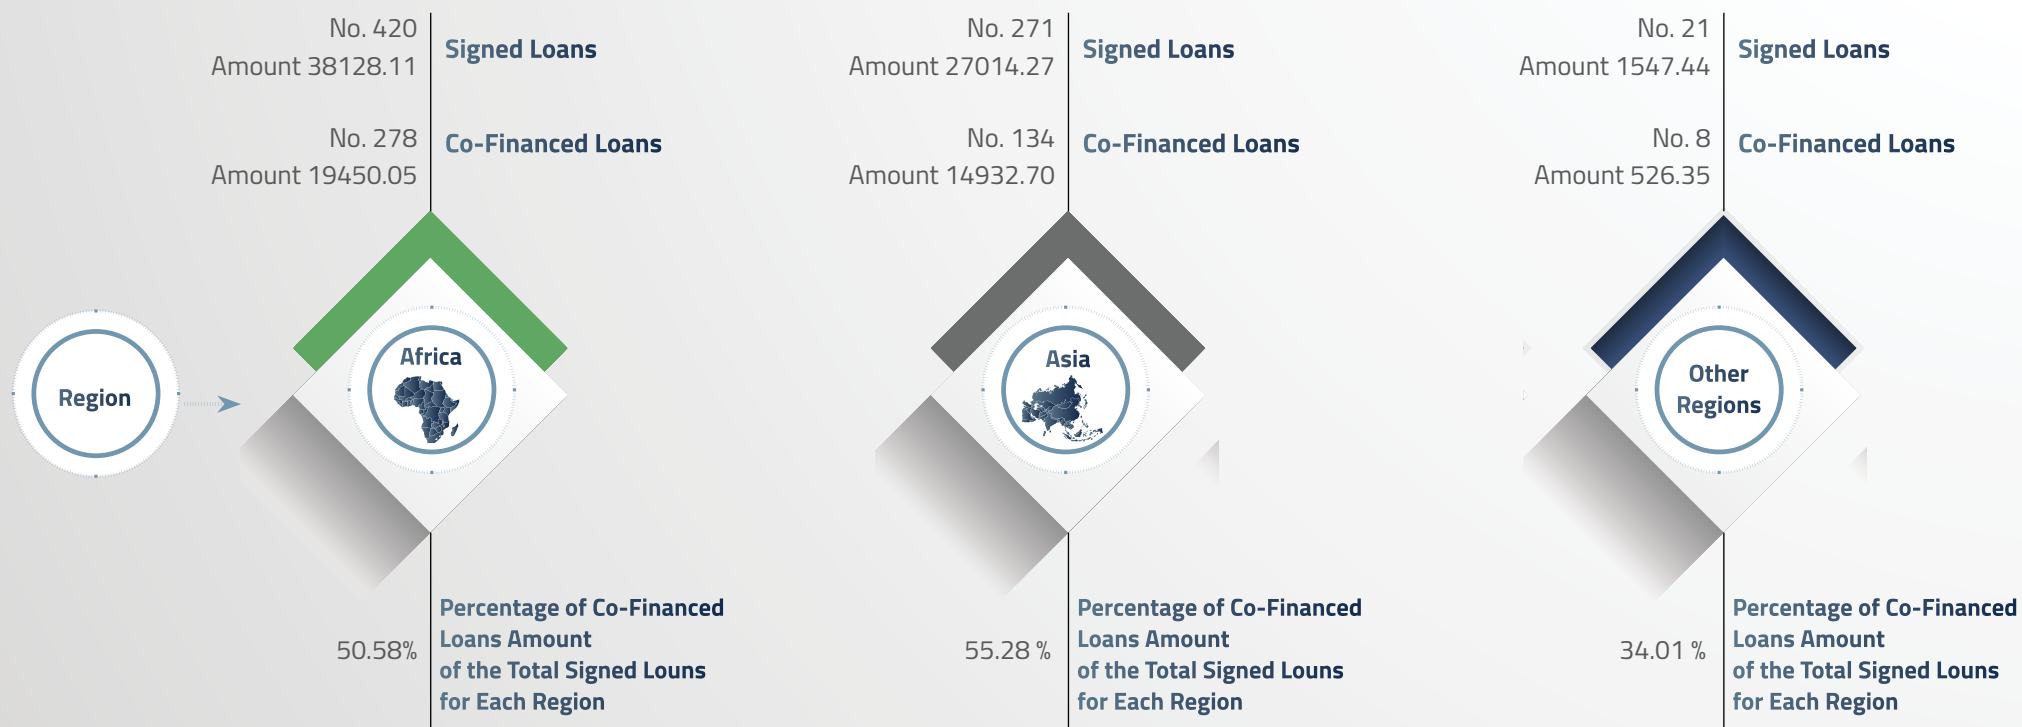

Sectorial and Geographical of Total Number and Amount of Projects in Other Sectors

The SFD allocated part of its contributions to support the productive economic sectors represented in the agriculture, energy, industry and mining sectors as well as a number of other sectors and international organizations. Accordingly, the SFD financed 95 development projects and programs in the agricultural sector, with a total amount of SR 8755.74 million, representing 12.95% of the total amount, 73 of which were in Africa and 22 in Asia. The SFD financed 70 development projects and programs in the energy sector, with a total amount of SR 10858.66 million, representing 16.07% of the total amount of the SFD projects and programs, 30 of which were in Africa, 39 in Asia and 1 in the Other Regions worldwide. In the industry and mining sector, the SFD financed 18 development projects and programs, with a total amount of SR 1942.60 million, representing 2.87% of the total amount, 12 of which in Africa and 6 in Asia. Other sectors received the financing necessary for the execution of 43 development projects and programs, with a total amount of SR 4947.41 million representing 7.32% of the total amount of the SFD projects and programs, with 27 in Africa, 13 in Asia and 3 in Other Regions worldwide. In addition to 2 agreements with the International organization, with a total amount of SR 905.01 million, representing 1.34% of a total amount, as illustrated in the following drawing.

Cumulative Co-financing

The significance of co-financing – which literally means that the SFD participates with more than one financing entity in the financing of a particular project – depends on its ability to provide the financing necessary for the achievement of mega-projects which most probably cannot be executed by an exclusive efforts of only one financing entity or beneficiary country. Currently, project co-financing helps to execute the various projects within the expected timeline. Since the beginning of its activities, the SFD concentrated on such projects - particularly mega-projects in which all relevant parties had an interest - in cooperation with other national, regional and international financing institutions. Until the end of 2019, the total number of loans agreements accomplished within the framework of co-financing projects with other development institutions were 420 loan agreements from the total signed loans agreements - which totaled SR 34909.10 million, representing 51.64% of the total amounts of the signed loans agreements, as illustrated in the following drawing.

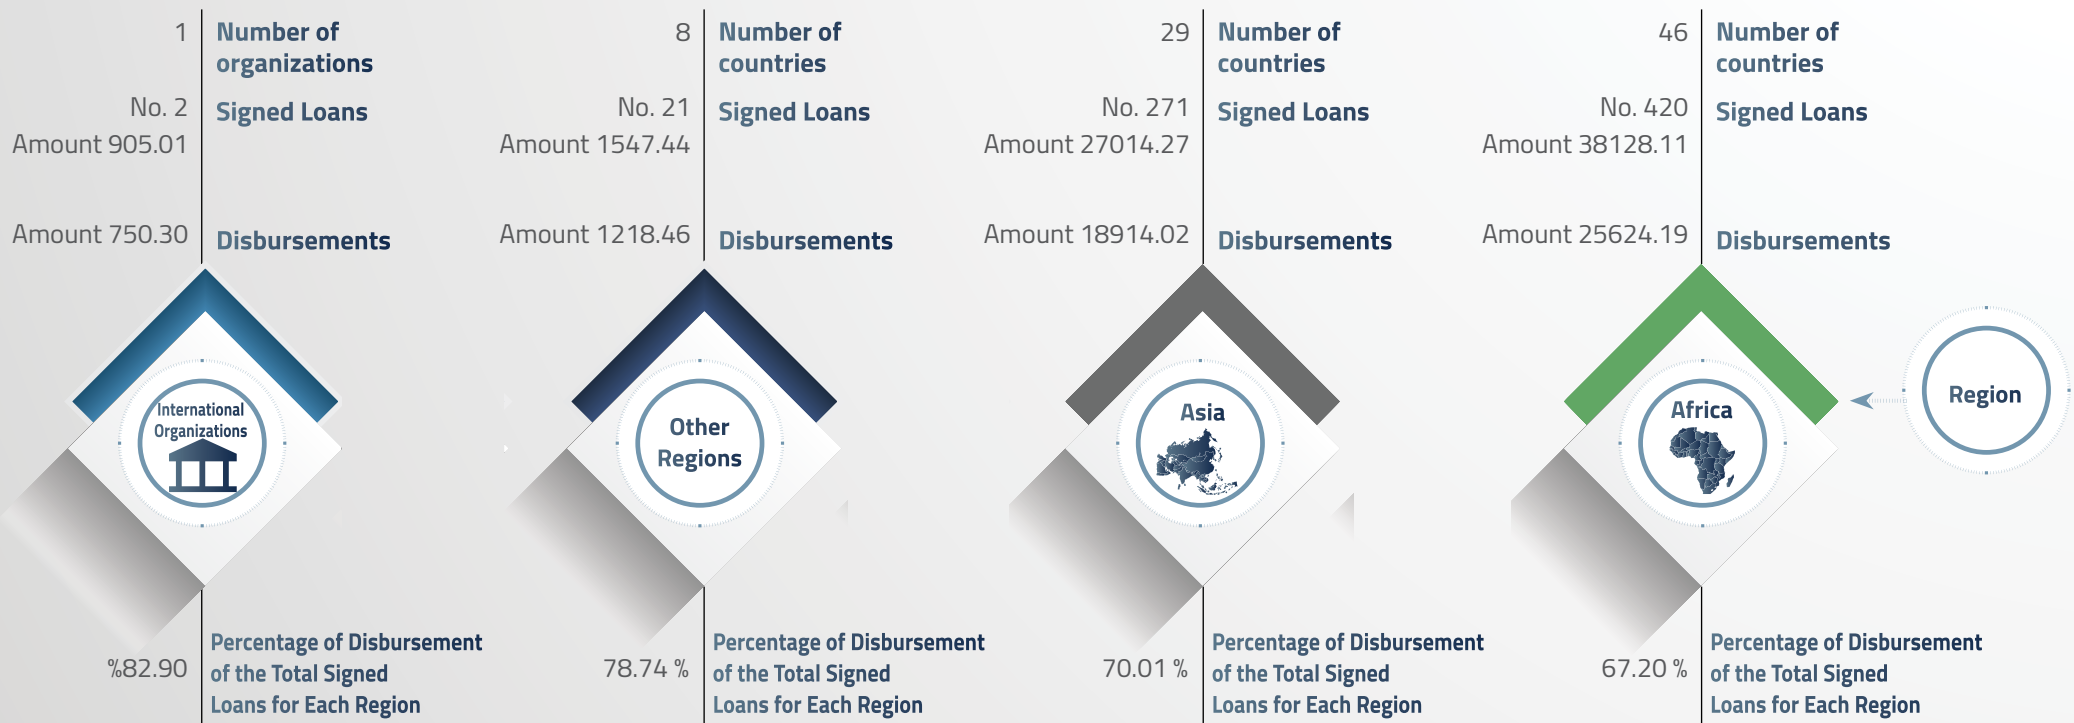

(SR Million)

Total	Signed Loans		Co-Financed Loans		Percentage of Co-Financed Loans Amount of the Total Signed Loans for Each Region
	No.	Amount	No.	Amount	
	714	67594.83	420	34909.10	

Cumulative Disbursements

The “Cumulative Disbursement” represents the total amounts withdrawn from the allocations for the signed loans. Accordingly, the SFD seeks a balance between the projects’ actual needs and the amounts allocated for them, in terms of timing. The SFD ensures that disbursements from the loans agreed upon occur in accordance with the planned schedules in order to guarantee project completion in a timely manner.

The total cumulative disbursements from the loans agreed presented by the SFD from its inception up to the end of 2019 come to SR 46506.97 million, representing 68.80% of the total signed cumulative loan amounts, as illustrated in the following drawing.

(SR Million)

Total	No. of Countries/ Organizations	Signed Loans		Disbursements	Percentage of Disbursement of the Total Signed Loans for Each Region
		No.	Amount		
	84	714	67594.83	46506.97	68.80%

Supporting Renewable Energy

SFD's Efforts in Supporting Renewable Energy

The renewable or alternative energy is one of the most important development sectors that developing countries need in the economic and social development. It is the most appropriate option at the present time, especially with the increasing challenges posed by issues related to climate change and the accompanied increased global warming and the increased emissions of gas and carbon worldwide, which in turn contributes to increasing the impact of natural phenomena such as floods and deaths of aquarium in seas and oceans. Conventional energy is a major contributor to climate change, as it accounts for about 60% of the world's total global warming gas emissions. Since the international community is aware of the importance of renewable energy and its role in reducing carbon emissions worldwide, the SDG 7 "Affordable and Clean Energy" of the 2030 Agenda for Sustainable Development Goals provides for "Ensure universal access to affordable, reliable and modern energy services, increase substantially the share of renewable energy in the global energy, double the global rate of improvement in energy efficiency and enhance international cooperation to facilitate access to clean energy research and technology, including renewable energy, and promote investment in energy infrastructure and clean energy technology by 2030, and expand infrastructure and upgrade technology for supplying modern and sustainable energy services for all in developing countries, in particular least developed countries, small island developing States, and landlocked developing countries". Recognizing the importance of supporting and developing the renewable energy sector, the Saudi Fund for Development contributed, since its inception up to the end of 2019, in financing 15 loan agreements in the renewable energy sector, in 9 developing countries, by establishing and improving 11 dams producing hydroelectric energy, including the diversion of river paths and construction of barriers, dams, and generators to transform hydropower into a source of sustainable, renewable and clean energy. The total loans provided for this purpose amounted to SR 2420.84 million, representing 22.08% of the total contributions allocated to support the energy sector. The total power necessary

in the Republic of Kenya with a total amount of SR 39.96 million. This project aims to build a dam on Tana River which is 35 km away from Kindaruma hydroelectric Station, to generate about 140 MW.

Second: Supporting Renewable Energy Sector in Asia:

SFD has played a significant role in Asia through signing 6 loan agreements for renewable energy in two countries: Pakistan and Nepal, with a total amount of SR 1179.88 million. The renewable energy projects in Asia are as follows:

1. Marsyangdi Hydro – Electric Power Plant Project in Nepal:

The SFD has contributed an amount of SR 45.39 million to finance Marsyangdi Hydro – Electric Power Plant Project in the Republic of Nepal. This project aims to meet demand for hydroelectric power in the capital and the neighbouring cities in the Republic Nepal until 1999 by Building a diversion dam on the Marsyangdi River, which is 110 km away from the west of the capital, Kathmandu.

2. Budhi Ganga Hydro – Electric Power Plant Project in Nepal:

The SFD has granted a loan of SR 112.50 million to finance Budhi Ganga Hydro – Electric Power Plant Project in the Republic of Nepal. This project aims to support the energy sector in the country by increasing electricity generation capacity that helps achieve development goals such as increasing the rate of education, improving health and meeting the necessary needs.

3. Pipri Thermal Power Station Project in the Republic of Pakistan:

The SFD has contributed to finance Pipri Thermal Power Station Project in the Republic of Pakistan, with a total amount of SR 218.92 million. This project aims to strengthen the electric power sector in Karachi Electricity Company LLC by adding a 200 MW generator unit to the Pipri Thermal Power Station. The project also contains the

supply of transmission lines and related facilities.

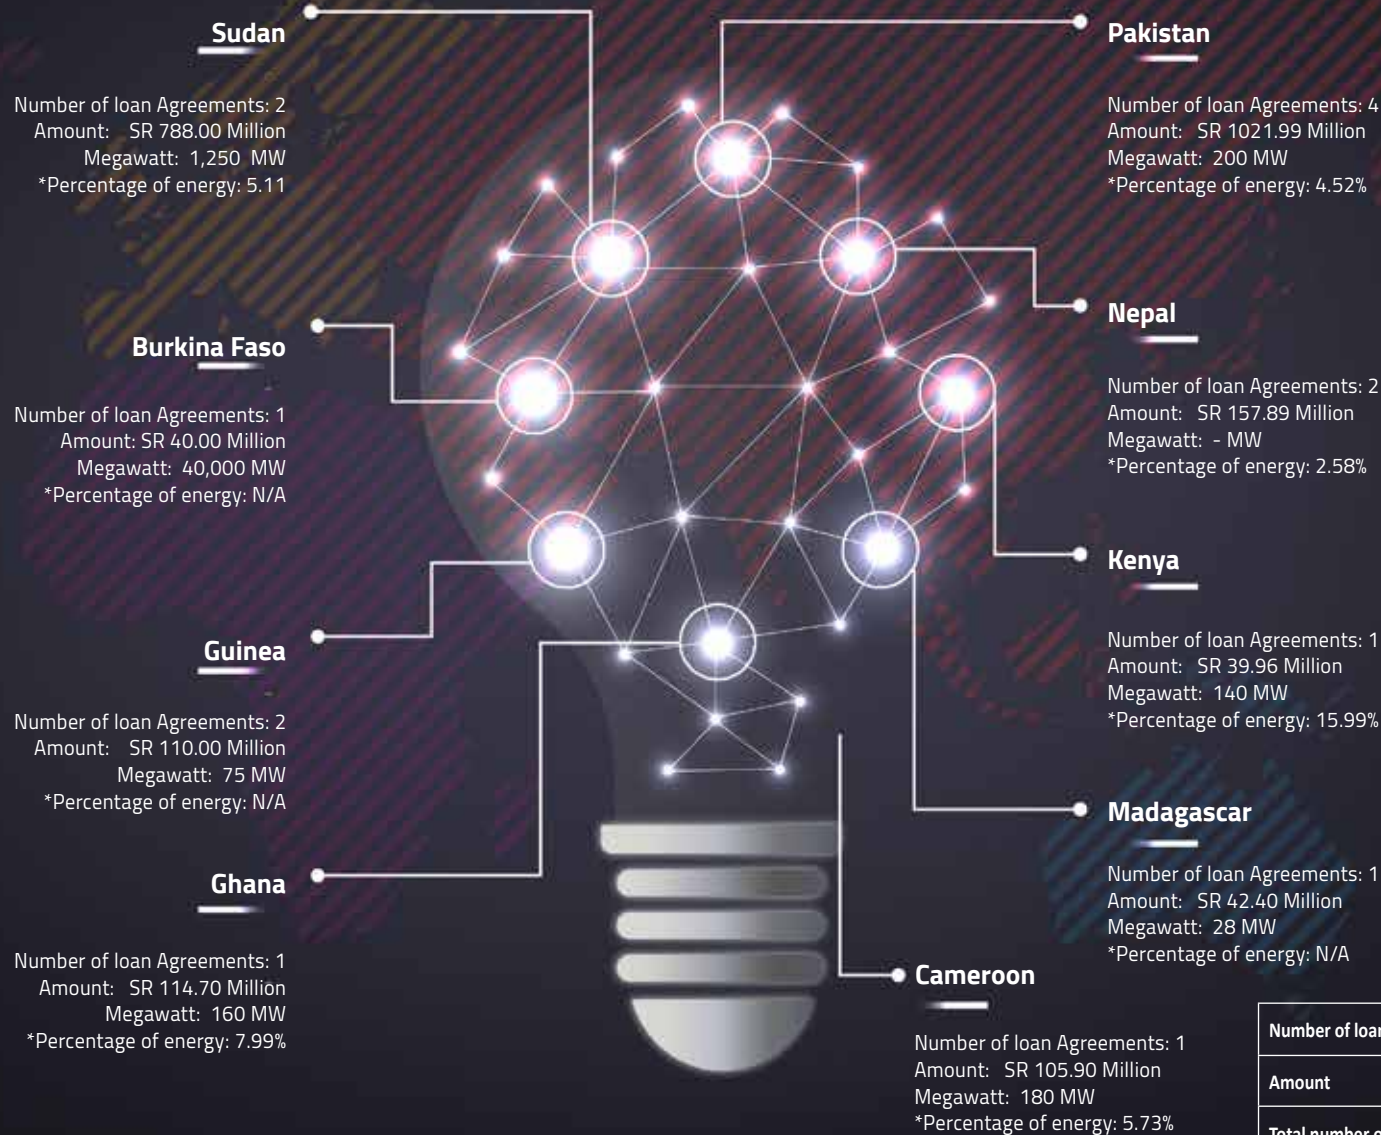

4. Pipri Thermal Power Station Project (Phase II) in the Republic of Pakistan:

The SFD has contributed to the financing Pipri Thermal Power Station Project in the Republic of Pakistan, with a total amount of SR 128.07 million. This Project aims to strengthen the electric power sector in Karachi Electricity company LLC by a 200 MW generator unit to the Pipri Thermal Power station. This Project also contains the supply of transmission lines and related facilities.

5. Neelum Jhelum Hydropower Plant Project in the Republic of Pakistan:

Neelum Jhelum Project in the Republic of Pakistan was financed by the SFD's contribution by signing two loan agreements. One was an additional loan with a total amount of SR 675.00 million. This project aims to meet the increasing demand for electrical power in the Azad Jammu and Kashmir region by establishing Neelum Jhelum Hydropower Plant near Muzaffarabad, the capital of the province by diverting water from Neelum River to power generation station site in Chatter Kalas, south of Muzaffarabad and linking the new plant with Pakistan's National Electricity Network to contribute to overcome the increasing deficit in electric power. The project also contributes to reducing dependence on production of high-price thermal energy, raising the standard of living in the region, improving the economic situation, preserving the environment and providing clean, low-cost energy.

Chapter Three

Saudi Export Program Activities

Saudi Export Program Activities in 2019

The Saudi Export Program (SEP) essentially aims to diversify and develop national non-oil exports, increase their competitiveness, make the Saudi exporters feel more confident to enter new markets and to deal with the national commercial banks by offering credit facilities and guarantees to Saudi exporters and national products. In achieving these targets, the SFD offers financing and guarantee services for national products. The first part of this chapter covers SEP activities to finance national exports through direct financing and credit lines. The second part explores national export guarantee service. Meanwhile, the third part addresses the marketing activities.

تحت رعاية معالي الشيخ محمد بن خليفة آل خليفة
وزير النفط

توقيع اتفاقية تمويل صادرات سعودية المنشأ لصالح الشركة القابضة للنفط والغاز

ملكة البحرين - 20 مارس

SEP continued to provide facilities to national exports through (direct and credit line) financing activities. In this regard, the program approved 6 export transactions of non-crude oil goods at a total value of SR 1841 million. In 2019, SEP also signed 7 export transactions of non-crude oil at a total value of SR 15390 million. Thus, the total number of non-oil national export financing transactions approved by SEP since its inception in 2001 reached 293 transactions at a total value of SR 81441 million, which included 38 countries represented in 5 continents around the world. In addition, they covered the manufacturing, construction, agriculture, mining and financial activities, according to the national classification of economic activities, as illustrated in the following tables:

Second: Guarantee Activity

During the fiscal year 2019, SEP had renewed and signed 17 guarantee policies of Saudi non-oil exports at a total amount exceeding SR 3640 million. Accordingly, the number of guarantee policies issued by SEP since its launch of guarantee services in 2003 until the end of 2019 came to 310 Saudi export cumulative guarantee policies at a total value of SR 33933 million, which included 90 countries represented in 6 continents around the world. The total exported credit limits in favor of these policies reached 9,157. In addition, they covered the manufacturing, agriculture, mining and financial and insurance activities, according to the national classification of economic activities, as illustrated in table No. (3-5).

Third: Marketing Activity

1. Saudi Joint Committees With Friendly Countries:

SEP participated as a representative of the SFD in several joint committees that aim to discuss strengthening economic and trade relations with friendly countries during 2019. These committees are as follows:

Table No. (3-9)

No	Committee Name	Venue
1	Saudi-Austrian Joint Committee	Riyadh
2	Saudi-Argentine Joint Committee	Riyadh
3	Saudi-Zambian Joint Committee	Riyadh
4	Saudi-Bangladesh Joint Committee	Dhaka - Bangladesh
5	Saudi-Albanian Joint Committee	Tirana - Albania
6	Saudi-Azerbaijani Joint Committee	Baku - Azerbaijan
7	Saudi-German Joint Committee	Berlin - Germany

2. Business Council, Forums & Trade Delegations:

SEP participated in joint business councils with a number of friendly countries, which are organized by the Council of Saudi Chambers, in order to introduce the Saudi Exports Program. During 2019, SEP participated in the following business councils:

Table No. (3-10)

No	Activity	Venue
1	Saudi - Omani Business Forum	Riyadh
2	Saudi - Tunisian Business Council	Riyadh
3	Saudi - Egyptian Business Council	Riyadh
4	Saudi - Albanian Business Forum	Riyadh
5	Saudi - Chechen Business Forum	Riyadh
6	Saudi - Uzbek Business Forum	Riyadh
7	Saudi - Philippine Business Forum	Riyadh
8	Saudi - Brazilian Business Forum	Riyadh
9	Saudi - Irish Business Council	Riyadh
10	Saudi - Indonesian Business Council	Jakarta - Indonesia
11	Saudi - Azerbaijani Business Forum	Baku - Azerbaijan
12	Businessmen Delegation to Benin	Porto Novo - Benin
13	Saudi-Vietnamese Businessmen Delegation	Hanoi - Vietnam
14	Saudi - Bulgarian Business Forum	Sofia - Bulgaria
15	Saudi - German Business Forum	Berlin - Germany

3. Areas of Cooperation with Commercial Attaches:

As SEP endeavors to enhance cooperation with foreign commercial attaches in KSA, during 2019, SEP held a number of related meetings, the most notable of which are the following:

i. SEP was visited by:

1- Head of the Commercial Section of the Austrian Embassy, who was accompanied by a representative of ILF Consulting Engineers. SEP gave a brief presentation on the services and facilities provided by SEP, which the company can benefit from. ILF also made an introductory presentation about its field of work and its achievements.

2- Ambassador of the Republic of Zambia to the Kingdom, Mr. Ibrahim Mumba, accompanied by the counselor and Deputy Ambassador, Mr. Hudhaifa Jada. During the meeting with SEP Director-General, H.E. Mr. Abdulmohsen Al Khayal, discussed facilities that can be provided by the Saudi Exports Program to Zambian importers who want to import products from the Kingdom were identified.

3- Ambassador of the Republic of Cuba to the Kingdom, H.E. Mr. Orlando Requeijo Gual. He was received by the SEP Director General. The ambassador's visit aimed to introduce the Saudi Exports Program and the facilities it provides to importers of national goods and services. He discussed the possibility of signing a memorandum of understanding with the SFD to enhance cooperation in the field of exports.

4- Chinese Commercial Attache, Mr. Bai Junior, to identify SEP and the services it provides. They desired to activate the two memoranda of understanding signed with both the Export and Import Bank of China and the China Export & Credit Insurance Corporation (SINOSURE). In addition, they discussed areas of cooperation with Chinese institutions operating in KSA.

5- Ambassador of Ghana to discuss how Ghanaian banks and the private sector can benefit from services provided by SEP to import agricultural equipment.

6- Ambassador of the Republic of Bangladesh to identify SEP and the services it provides.

ii. SEP delegation visited the Ambassador of the Custodian of the Two Holy Mosques to Ghana to discuss how to facilitate communication with Ghanaian entities that may benefit from services provided by SEP.

4- Other Marketing Activities:

1- The Management invited several national companies and factories to visit SEP to introduce the financing facilities it provides and how they can benefit from the

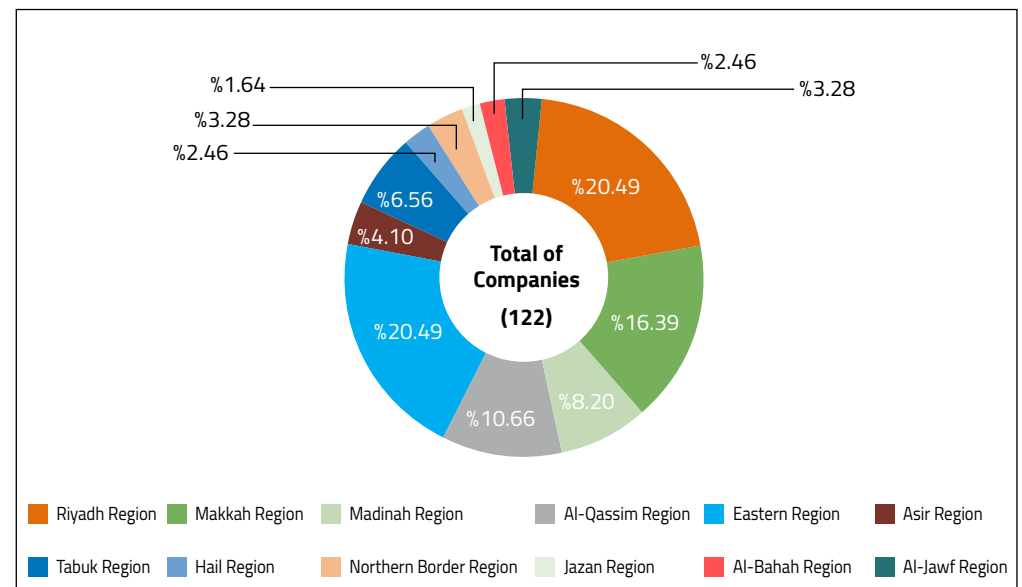

Program.

2- Issue No. (69) of SEP's newsletter was issued. It covers all the activities of SEP during 2019.

3- SEP participated in (19) local and international exhibitions and seminars.

5- Internal Communication With Local Exporters:

A number of national companies, factories and foreign investors (FDIs) in various regions of the Kingdom were communicated in order to introduce the financing and guarantee facilities provided by SEP. The following drawing shows the distribution of companies that were communicated with by regions:

6- Awoun Program For Preparation of Head of Missions

At the invitation of Prince Saud Al-Faisal Institute of Diplomatic Studies, representatives of the Department participated in a panel discussion with the Kingdom's heads of missions to (Hong Kong, Mozambique, Austria, Djibouti and Mauritius) within the Awoun Program to prepare heads of diplomatic missions to work abroad, with the aim to discuss political and economic relations between the Kingdom and the concerned countries and ways to enhance these relations, and how each participant can contribute to them.

Summary of Marketing Activities until the end of 2019

Since establishment, SEP has carried out marketing activities with the purpose of introducing the Program and the financing and guarantee facilities it offers. Among the most prominent of these activities are the following:

1. Saudi Joint Committees with Other Countries

Table No. (3-11)
