Foreword

On behalf of my colleagues in the SFD Board of Directors, it gives me great pleasure to introduce the annual report of the Saudi Fund for Development for the year 2017. This report indicates the SFD contributions and activities to finance the development projects and programs in the developing countries. In additions, it points out the approved Saudi export program activities through its Saudi Expert Program.

The continuous lending and financing transactions made by SFD during this year clearly reflect the interest of the Saudi Government in supporting the development process in the developing countries by contributing to the financing of infrastructure projects to achieve the desired development in these countries and to improve the standard of living of their peoples. It also contributes to enhancing and supporting the relationship between Saudi Arabia and other countries by providing finance and guarantee to exporters of national goods and services to the public and private sectors in those countries.

In its efforts to support the development process in the developing countries, SFD contributed to the financing of 30 development projects and programs in 2017 in 23 developing countries with a total amount of SR. 3936 million. The Fund has, since its inception up to date, financed 635 projects and programs in Africa, Asia and Other Regions of the world with a total amount exceeding SR. 55047 million.

It is noteworthy that the Fund has started its development activities in the Kingdom of Swaziland this year. Thus, the number of countries that the Fund contributes to the financing of their projects reached 83 countries.

As part of its efforts to support national exports, the Fund has approved 6 national non-oil export-financing transactions in 2017 with a total value of SR. 1330 million. Thus, the number of national non-oil export financing transactions approved by the Fund since the inception of the program activity in 2000 until the end of 2017 reached 168 transactions with a total value of SR. 28700 million. With regard to the Saudi export program activities, the total number of documents issued by the program since its inception until the end of this year reached to 64 national export guarantee documents with a total value of SR. 27500 million.

The figures and statistics included in this report reflect the progress of the Fund`s efforts, year after year, to underline the attention and interest of the Custodian of the Two Holy Mosques and His Highness the Crown Prince to support development efforts in the developing countries and strengthen the Kingdom`s economic relations with other countries.

In conclusion, I would like to thank the Custodian of the Two Holy Mosques and His Crown Prince for their generous support to the Fund and its various activities.

Allah is the Arbiter of Success

Ahmed Bin Aqeel Al Khatib
Chairman of the Board
Saudi Fund for Development

Saudi Fund for Development (SFD) in Brief

Foundation:

The Saudi Fund for Development was founded by virtue of Royal Decree No. M/48, issued on 01/09/1974, and it commenced operations on 01/03/1975.

Objectives:

As defined in its charter, the Fund's main objectives are to participate in financing development projects in the developing countries by granting them the necessary loans, technical aids necessary for financing studies and institutional support and financing and guaranteeing the national non-crude oil exports.

Management and Organization:

The Fund is a general institution and legal entity of an independent financial status. It is managed by a six member Board of Directors. The Fund's Vice Chairman, the Managing Director, assumes the executive authority and he is responsible for the implementation of the Board's decisions.

Capital:

The Fund has commenced its activity with a capital of ten thousand million Saudi Riyals provided by the Saudi government. This capital had then been increased in three phases to reach thirty one thousand million Saudi Riyals.

Scope of Activities:

First: Financing of Development Projects

The Fund contributes to these projects by providing soft loans. Its activity is not geographically restricted, and it also deals directly with the governments of the developing countries in order to participate in financing priority development projects. The Fund provides financing priority to the least developed and low-income countries.

Second: Export Credit and Insurance

The fund's mission through the Saudi Export Program is to provide financing and guaranteeing national non-crude oil export.

Statutory Framework:

The Fund's charter includes the basic regulations for providing development loans and financing and guaranteeing national exports.

First: Development Loans for Financing Development Projects

The Following conditions have to be met to obtain the SFD's loan:

- A. The project to be financed in the recipient country should be proved economically or socially feasible.
- B. The funding of the entire project for which the loan is provided should be available.
- C. The loan should be disbursed and repaid in Saudi Riyal.
- D. The loan amount granted to any project should neither exceed 5% of the Fund's capital.
- E. The total loan amount granted to any country in one time should neither exceed 10% of the Fund's capital.

Second: Export Credit and Insurance

For financing and insuring exports, the Fund takes into consideration the following conditions:

- A. The eligible national commodities and services as well as the added value should be as follows:

- 1 They can be subsumed under the industrially processed products, including the downstream petroleum sector products, industrial and agricultural goods, and the exported services and turnkey projects.
- 2. The local added value to the commodities and services to be exported should be equivalent to but not less than 25%.
 - B. Coverage Percentage and Finance Term:
 - 1. The Fund's financing percentage may reach up to 100% of the export transaction value according to the kind of exports, nature of transaction and the commercial and political risks involved.
 - 2 The financing terms vary from one to twelve years.
 - 3. The coverage percentage of the exports guarantee and insurance service is 90% of the total unpaid value of the exports.
 - C. The Accepted Currency:
 - The Saudi Riyal or US Dollar is approved as the official currency in all Program's transactions.
 - D. The Required Guarantees for Loan Finance:
 - The Program fulfills the needed guarantees to secure the Fund's rights based on the nature of the transaction, its risks and the legal entity of its involved parties.

Chapter One

Development Activities during the Year 2017

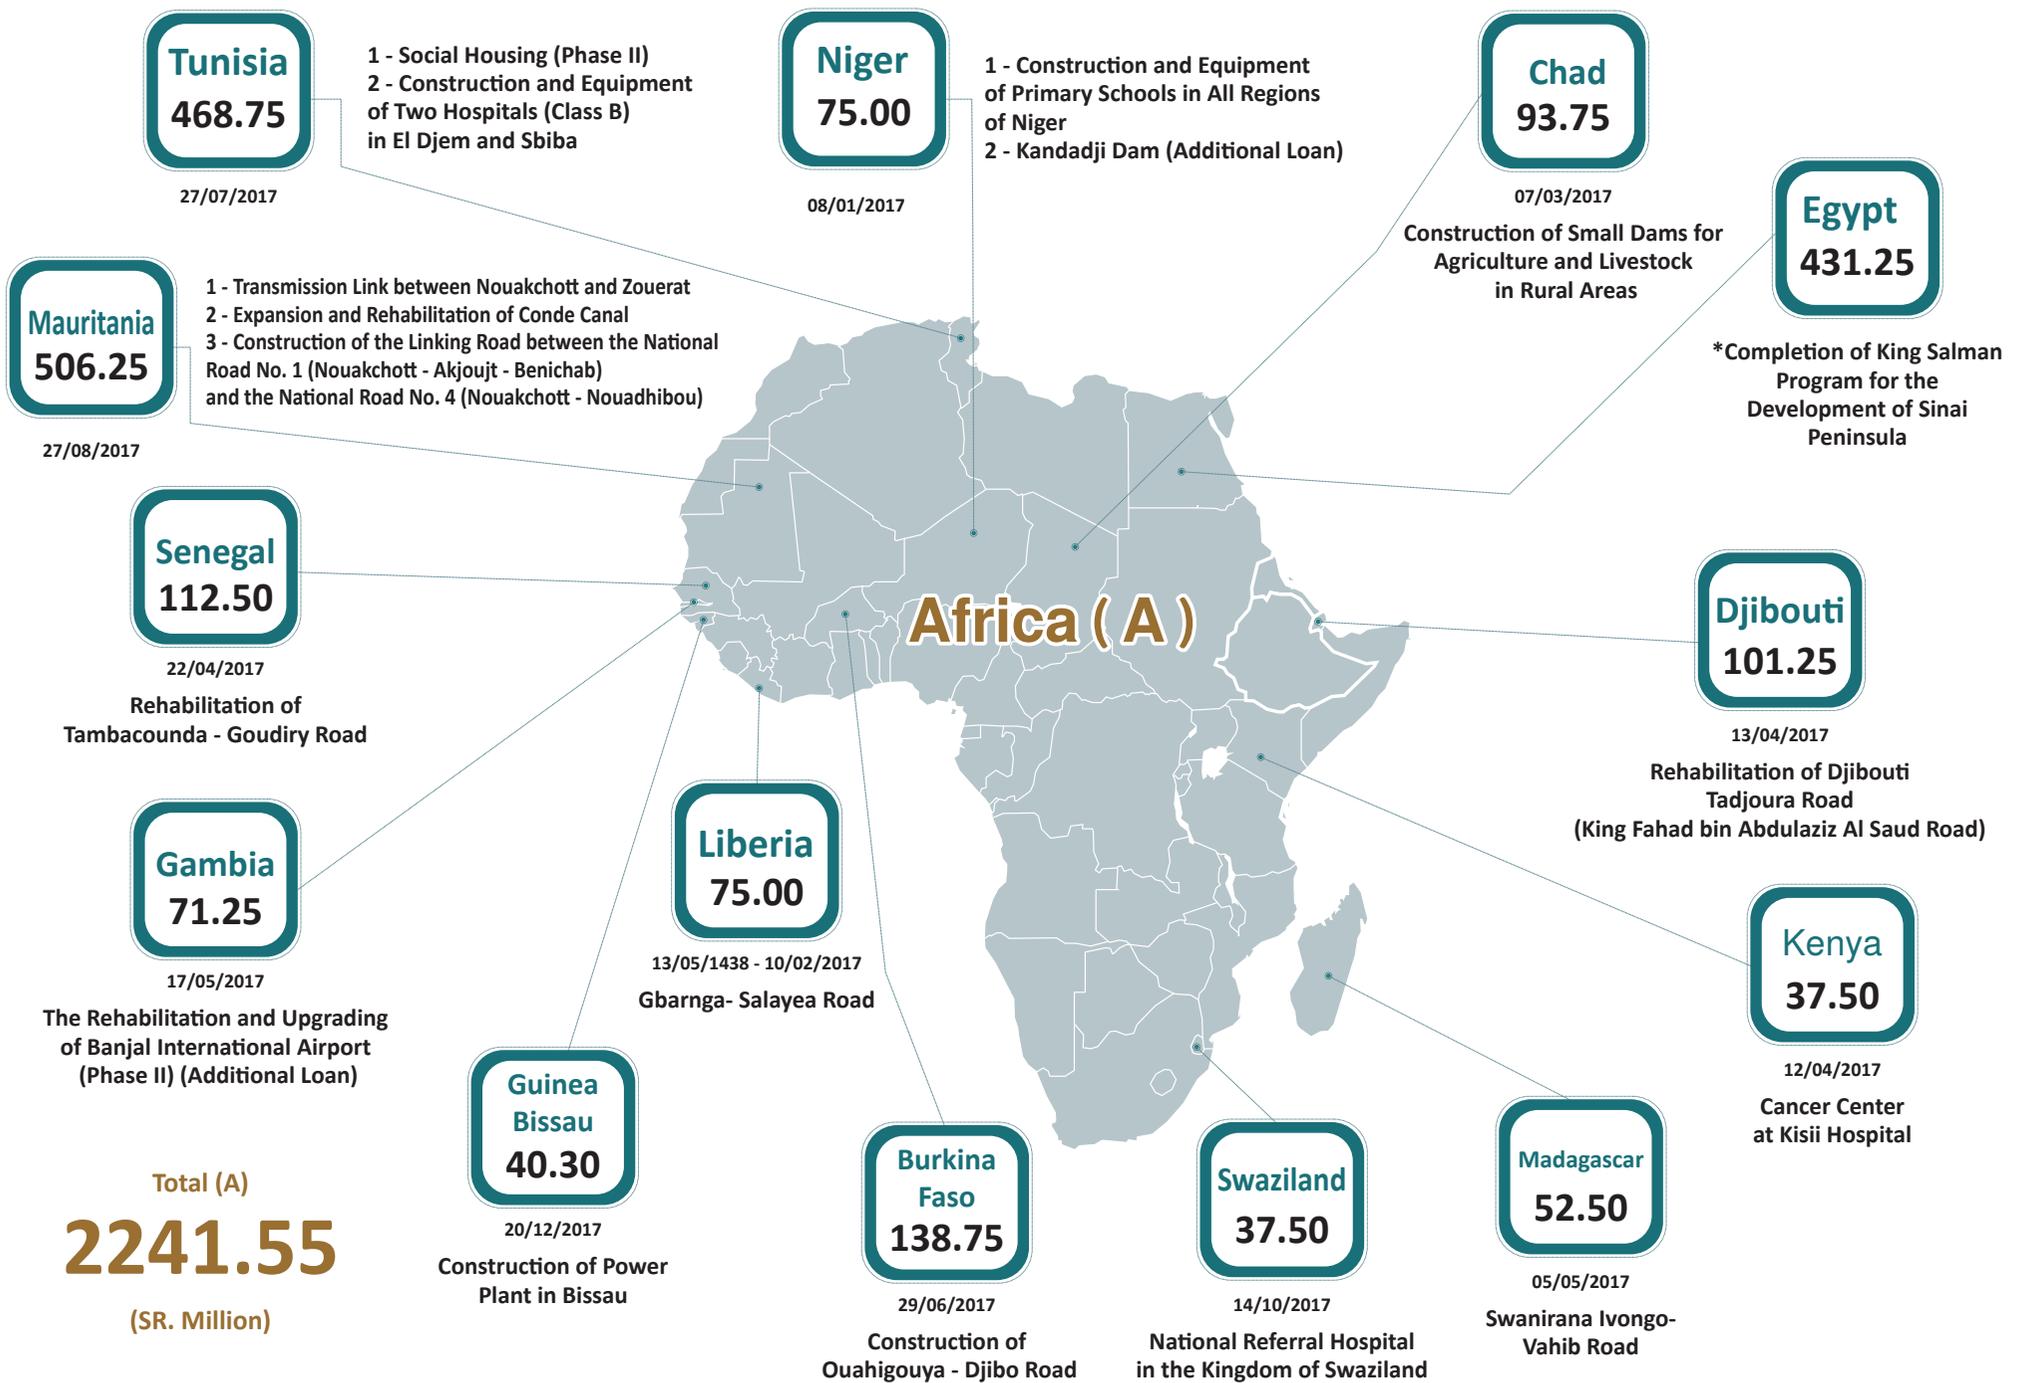

1. Signed Loan Agreements

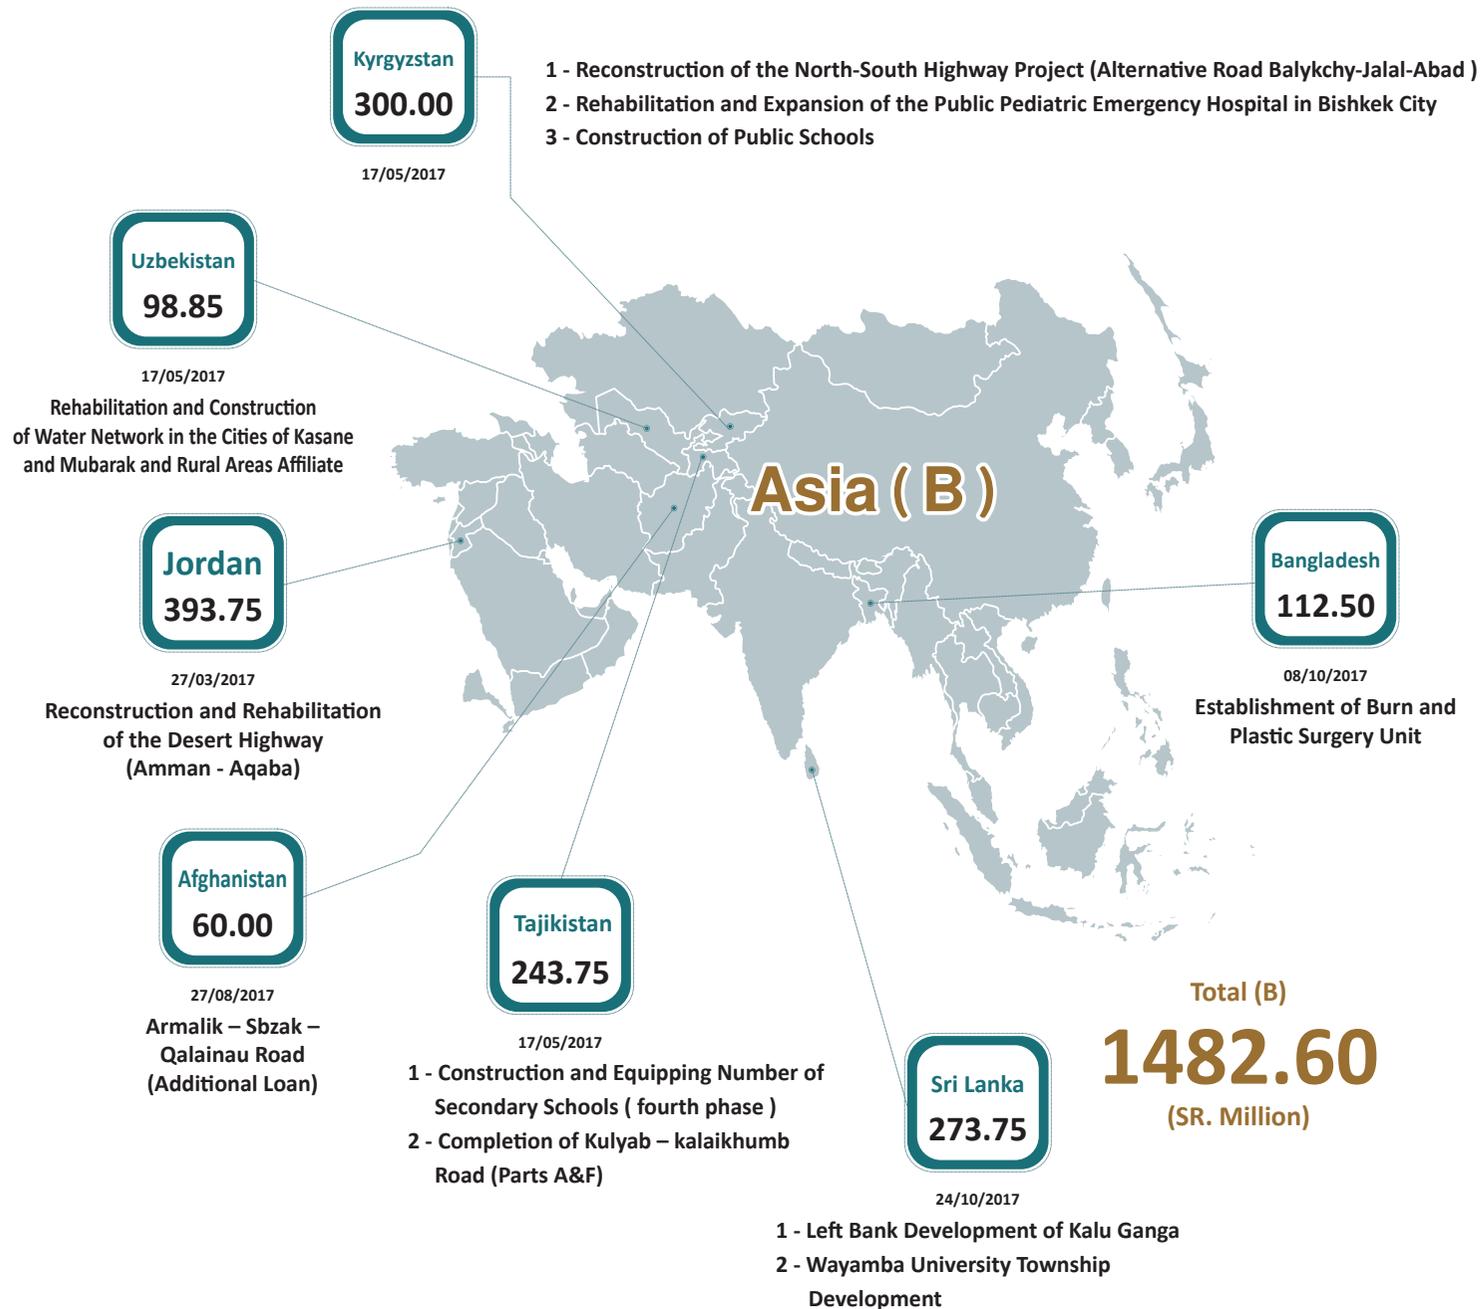

In its continued efforts to support the development projects in the developing countries and to enhance the march of international development, the Fund has signed 30 loan agreements in 2017 with 22 developing countries at a total value of SR. 3505.40 million to contribute to finance 30

development projects and programs; including 17 development projects and programs in Africa at a total value of SR. 2241.55 million, 11 projects and programs in Asia at a total value of SR. 1482.60 million. This is in addition to finance two projects and programs in Other Regions of the world at a total value of SR. 212.50 million. It is worth noting that the Fund extended its lending transactions during 2017 to include the financing of projects in the Kingdom of Swaziland in Africa. Accordingly, the number of countries benefiting from the Fund's activities reached 83 countries.

Eng. Yousef bin Ibrahim Al Bassam, Vice-Chairman and Managing Director signing agreements with the Mauritanian Minister of Economy and Finance

Other Regions (C)

2. Sectorial Distribution of Signed Loan Agreements

During 2017, the Fund continued its activity in supporting the development projects in a number of economic and social sectors of high priority in the development plans and programs in number of developing countries in Africa, Asia and Other Regions of the world. The largest share of the financing was allocated to the social infrastructure and transportation and communication sectors, where the Fund financed 12 projects in the social infrastructure sector at a total value of SR. 1635.10 million, representing 41.54% of the total contributions, including 5 projects in health, 4 projects in education, 2 projects in housing and urban development and 1 project in water and sewer. The Fund also financed 12 projects in the transportation and communication sector, including 2 additional loans at a total value of SR. 1430.25 million, representing 36.33% of the total contribution provided for this year, including 11 road projects and one airport project. The agriculture sector came at the next place, where the Fund financed 4 projects of which one project was financed by an additional loan at a total value of SR. 456.00 million, representing 11.58% of the total contributions. The Fund contributed an amount of SR. 415.30 million, representing 10.55% of the total contributions to finance 2 development projects in the energy sector, as illustrated in the following table:

Table No. (1-1)

(SR. Million)

Sector	No. of Projects	Amount	% of the total
A. Transportation and Communication	12	1430.25	36.33
1. Transportation			
- Roads	11	1359.00	34.52
- Railways	-	-	-
- Sea ports	-	-	-

1- Water and Sewer	1	98.85	2.51
2- Education	4	667.50	16.96
3- Health	5	450.00	11.43
4- Housing and Urban Development	2	418.75	10.64
E. Industry and Mining	-	-	-
F. Other Sectors	-	-	-
Total	30	3936.65	100.00

* The amounts allocated to King Salman program for the Development of the Sinai Peninsula were added without indicating the number of projects mentioned earlier.

3. Projects Financed

Signing a loan agreement between the Fund and the Hashemite Kingdom of Jordan

"In support of the development process in Republic of Niger, the Fund contributed to the financing of 11 development projects and programs with a total value exceeded SR. 412 million to finance projects in agriculture, road, education and health sectors. In addition, the fund supports the economic development programs."

Niger

Project Description and Objectives:

The project aims to support the education sector in the Republic of Niger and raise the quality of the training programs in order to contribute to achieving the education and training sub-program in the rural areas through the construction of 200 primary schools. Each school shall contain two classrooms with a capacity of 40 to 50 students, equivalent to 400 classrooms, as well as a principal office, teacher offices and toilets. The project consists of civil works, equipment, provides schools with modern means of education, furniture and textbooks. The project also includes the provision of advisory services, review of detailed studies, preparation of tender documents and supervision of the project implementation.

Project Name	
Construction and Equipment of Primary Schools in All Regions of Niger	
Total costs	SR. 555.00 million
SFD Contribution	SR. 37.50 million
Date Agreement Signed	08/01/2017
Project Estimated Completion Date	End of 2018
Executing Agency	Infrastructure and School Equipment Directorate - Ministry of National Education

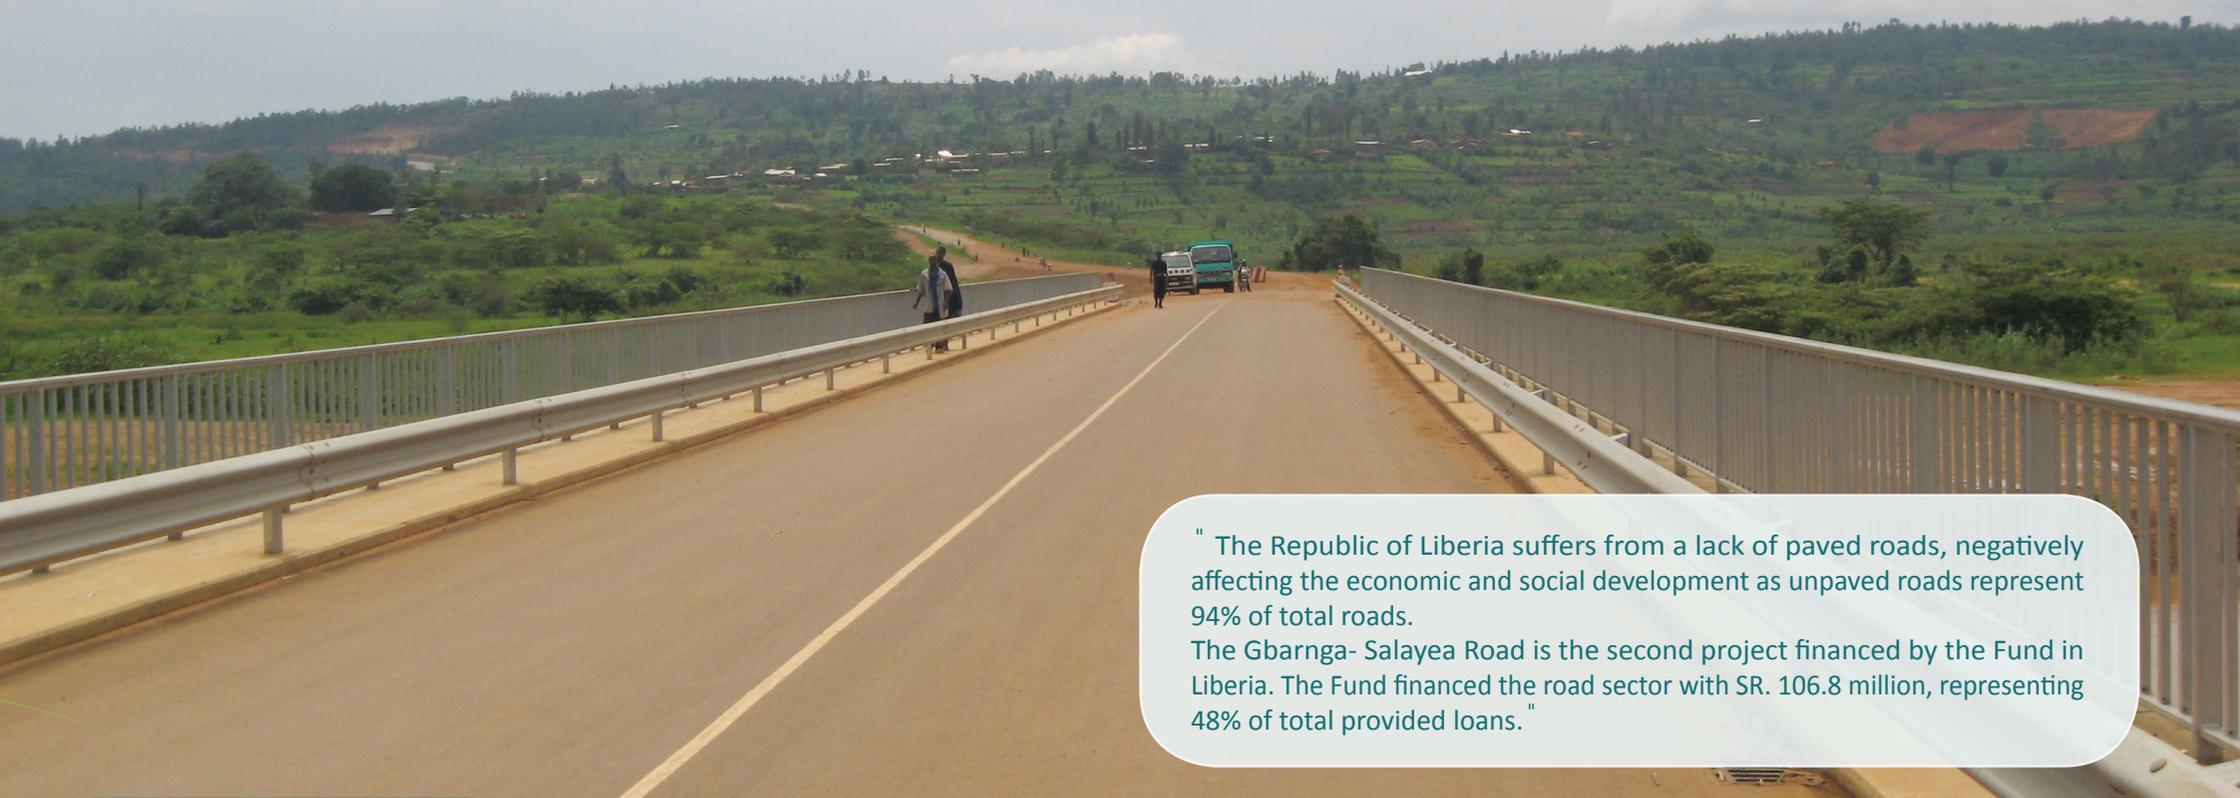

Niger

Project Description and Objectives:

The project aims to contribute to improving and maintaining the environment of the Niger River, achieving the agricultural development and food security and generating electricity. The project will reduce the poverty and create jobs in the country through the construction of a dam near Kandaji village, 187 km northwest of the capital, Niamey. The project consists of the preparatory works that include the construction of the administration buildings and sections and the river diversion, establishment of a barrier close to the dam site and construction of an earth dam of 8.40 km long and 26 meters high with a water storage capacity of 1.56 billion cubic meters. It also contains the construction of flood disposal facilities, power plant, drinking water outlet, irrigation water outlet, boat passage, power line for transportation and road to the dam. The finance provided by the Fund also covers the construction of a power plant containing a power line for transportation and stations for part 3, along with the development of environmental and social programs, including deforestation, exploitation of forests, resettlement of the inhabitants of the area and reclamation of 2000 hectares of agricultural land. It includes the provision of advisory services, financial and legal auditing and establishment of a project management unit.

Project Name Kandadji Dam (Additional Loan)

Total costs	SR. 3900.00 million
SFD Contribution	SR. 37.50 million
Date Agreement Signed	08/01/2017
Project Estimated Completion Date	End of 2019
Executing Agency	High Commission for the Development of the Niger Valley

" The Republic of Liberia suffers from a lack of paved roads, negatively affecting the economic and social development as unpaved roads represent 94% of total roads. The Gbarnga- Salayea Road is the second project financed by the Fund in Liberia. The Fund financed the road sector with SR. 106.8 million, representing 48% of total provided loans."

Liberia

Project Description and Objectives:

The project aims to develop the transportation sector in the Republic of Liberia by constructing Gbarnga - Salaya Road. The road is 81 km long and 7.5 meters wide, with two shoulders with a width of 1.5 meters on each side. The project also contains the construction of drainage facilities, bridges, security and safety means and cargo weight station. It consists of civil works and consultancy services related to the road construction and supervision of implementation, as well as, land acquisition and expropriation of the facilities and farms located on the road. In addition, the project also includes supporting the project execution unit by providing equipment and mechanisms, including cars and computers, operating expenses throughout the project implementation period.

Project Name
Gbarnga- Salayea Road

Total costs	SR. 356.62 million
SFD Contribution	SR. 75.00 million
Date Agreement Signed	10/02/2017
Project Estimated Completion Date	Mid of 2019
Executing Agency	Infrastructure Execution Unit - Ministry of Public Works

"The Fund has contributed to the financing of 5 development projects and programs in the Republic of Chad. These projects covered several development sectors, including roads, education and agriculture, as well as financing the economic development programs with a total amount of SR. 357 million."

Chad

Project Description and Objectives:

The project aims to support and enhance the role of agricultural sector in the rural areas in the Republic of Chad to avoid the movement of small farmers and cattle breeders to cities to seek of livelihood opportunities. This can be achieved by constructing a number of small dams allocated to cultivate land and water the cattle. It also aims to achieve food security in the rural areas by depending on non-seasonal rains to benefit from such rains to produce agricultural crops and breed cattle. The project consists of civil works that include construction of small dams, drilling and equipment of open wells, reclamation of lands. The project also includes the construction of 14 small dams and drilling of 30 open wells for cultivation and 30 open wells for watering cattle. It also includes the completion of dam protection works from drifting, reclamation of 1200 hectares of agricultural lands, construction of warehouses for the agricultural supplies and materials, animal pens and slaughters and cattle selling markets. In addition, the project covers the provision of advisory services and institutional support for the project execution unit.

Project Name

Construction of Small Dams for Agriculture and Livestock in Rural Areas

Total costs	SR. 187.50 million
SFD Contribution	SR. 93.75 million
Date Agreement Signed	07/03/2017
Project Estimated Completion Date	End of 2021
Executing Agency	General Directorate of Rural Engineering and Irrigation Water - Ministry of Production, Irrigation and Agricultural Equipment

"The projects financed by the Fund in the Republic of Kenya are 12 development projects and programs in the water and sewer, road, energy, agriculture, health sectors. The Fund contributed an amount of SR. 537 million."

Kenya

Project Description and Objectives:

The project aims to provide specialized medical services to diagnose and treat the cancer to residents of Kisii province in particular, and the south - western part of Kenya and neighboring residents in the border areas in Tanzania and Uganda in general. The project also aims to reduce the mortality rate caused by cancer, costs of treatment and expenses of accessing to the cancer centers in Nairobi and outside the country. The Project consists of civil works related to the construction of the multi-floor main hospital on an area of 5000 square meters and linking the new building with the existing hospital services, including roads, water and sewer, gas, electricity, telephone, landscape and parking lots. The project also covers the provision of medical equipment and devices, including modern radiotherapy equipment and accessories and provision of medical furniture, including monitoring devices of hypnotherapy and intensive care units and non-medical furniture. It also includes furnishing offices of doctors, technicians, nurses, administration offices, library and waiting rooms. The Fund's finance covers training courses of medical and technical staff, provision of electricity and an alternative control system at the power outage. In addition, the Fund's finance also includes providing support to the project execution unit, advisory services and supervision of project implementation.

Project Name	
Cancer Center at Kisii Hospital	
Total costs	SR. 85.50 million
SFD Contribution	SR. 37.50 million
Date Agreement Signed	12/04/2017
Project Estimated Completion Date	April 2020
Executing Agency	Ministry of Health

"The total amount of loans granted by the Fund to the Republic of Djibouti exceeded SR. 581 million in order to contribute to the financing of a number of development projects and programs in transportation and communications, education, water, housing and urban development sectors. The Fund also supports the economic and social development programs to raise the level of development in the country."

Djibouti

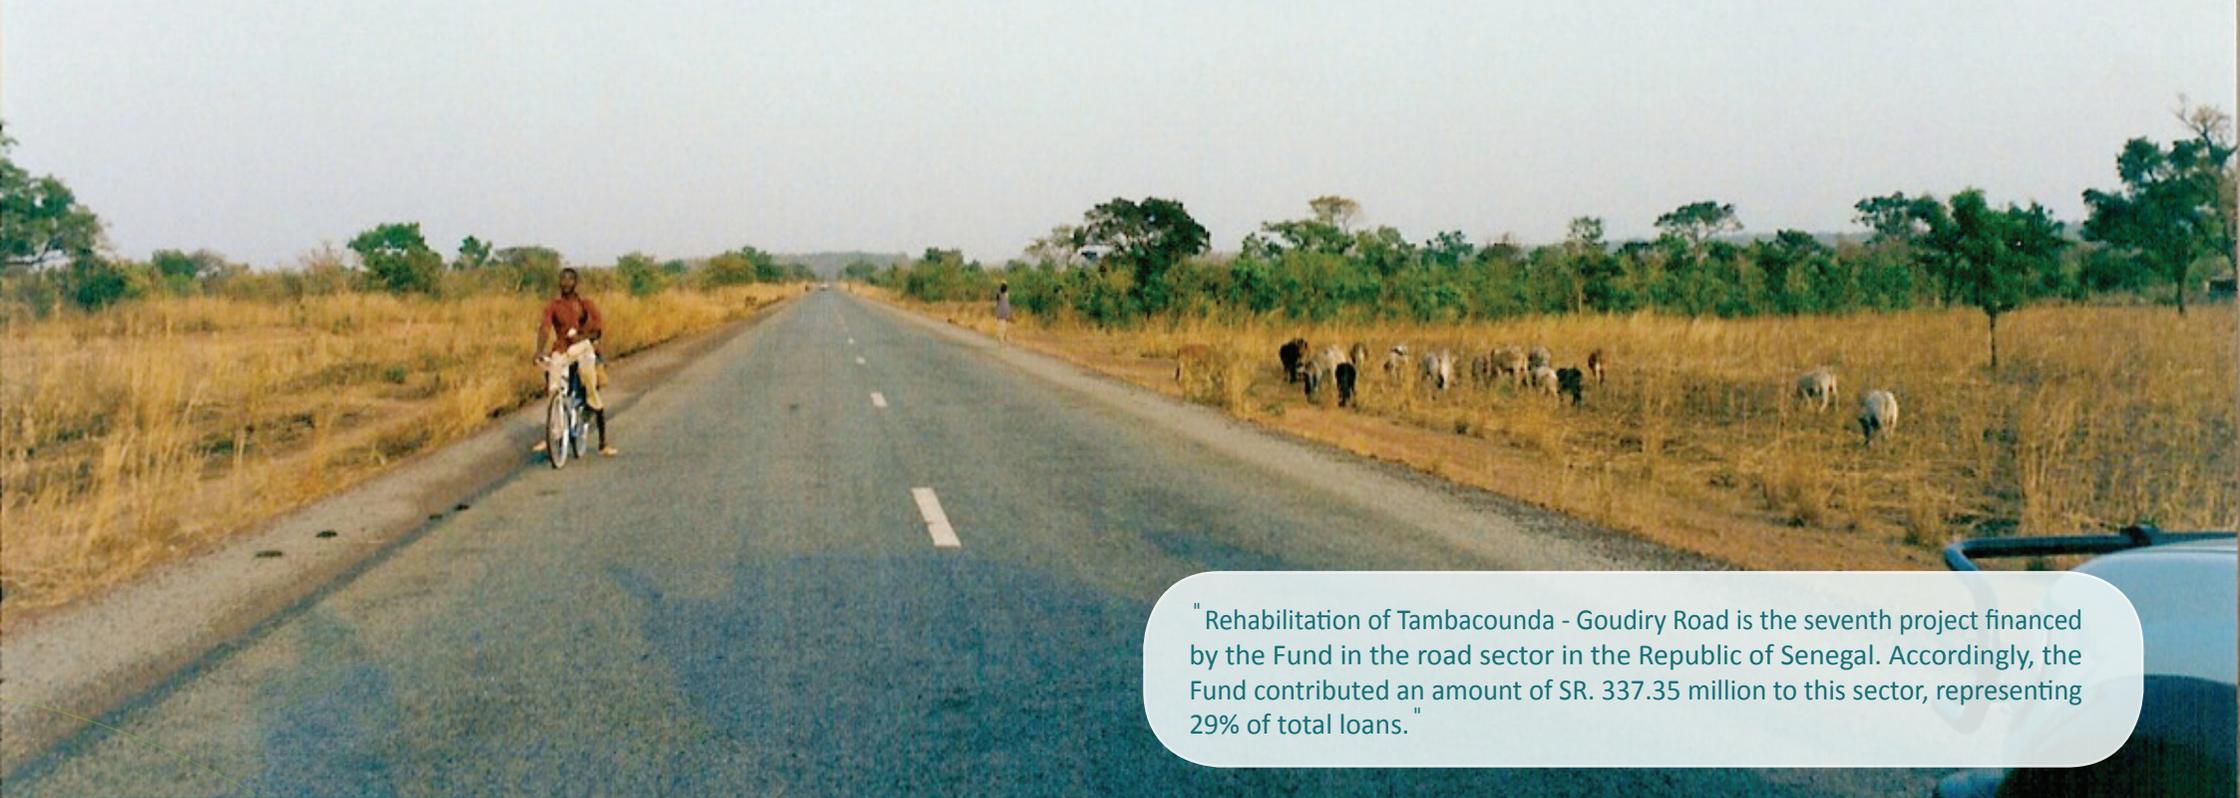

Project Description and Objectives:

The project aims to develop the transportation sector in the Republic of Djibouti. It is intended to improve efficiency and safety on Djibouti-Tadjoura Road (King Fahd bin Abdulaziz Al Saud Road) which is 151 KM long. It also aims to rehabilitate some parts of the road damaged by rocks falling from foothills and landslides caused by floods that ravaged the country in 2015. The project contributes to reducing the accidents caused by current poor conditions of the road and raising rate of its use by small cars and trucks. The project consists of civil works, including re-pavement of damage parts, rehabilitation of 397 drainage canals along the road, implementation of concrete protection works and erection of road safety barriers, road signs, iron barriers for water drainage canals that protect from floods and road safety barriers to prevent falling rocks. The project also includes the provision of advisory services, including review of designs, preparation of tender documents and supervision of the project implementation.

Project Name

Rehabilitation of Djibouti and Tadjoura Road (King Fahd bin Abdulaziz Al Saud Road)

Total costs	SR. 101.25 million
SFD Contribution	SR. 101.25 million
Date Agreement Signed	13/04/2017
Project Estimated Completion Date	End of 2019
Executing Agency	Djibouti Road Agency - Ministry of Equipment &Transport

"Rehabilitation of Tambacounda - Goudiry Road is the seventh project financed by the Fund in the road sector in the Republic of Senegal. Accordingly, the Fund contributed an amount of SR. 337.35 million to this sector, representing 29% of total loans."

Senegal

Project Description and Objectives:

The project aims to support the transportation sector in the Republic of Senegal by completing the pavement of the national road No. 1 (Tambacounda - Goudiry-Kedira-Bakel). Due to its strategic location, the road is a vital hub and enhances trade exchange with neighboring countries, including Mali, Burkina Faso and Niger. The project will contribute to the development and reduction of poverty in the eastern part of the country. In addition, it improves the level of national road network services by declining the time spent on the road and reducing the cost of transportation. The project consists of civil works related to the rehabilitation and pavement of the current road with a length of 80 km and width of 7.2 meters. It also includes constructing trails to open up the area, building a boundary wall for schools located on the road to protect students from the risk of accidents, drilling wells to serve the passengers and residents of the region and establishing first aid centers. The Fund's finance also covers the provision of engineering services, including review of designs, preparation of tender documents and supervision of the project implementation.

Project Name

Rehabilitation of Tambacounda - Goudiry Road

Total costs	SR. 215.62 million
SFD Contribution	SR. 112.50 million
Date Agreement Signed	22/04/2017
Project Estimated Completion Date	End of 2020
Executing Agency	Road Work and Management Authority - Ministry of Infrastructure, Land Transport and the Opening up .

"The Fund's contributions exceeded the borders of the African and Asian countries to reach Other Regions of the world. The Fund provided 5 development projects to the Republic of Cuba. These projects concentrated on the social infrastructure sector, including health, water and sewer and housing. The contributions exceeded SR. 557 million."

Cuba

Project Description and Objectives:

The project aims to enhance and improve the living conditions of the residents of the Old City of Havana through the construction and rehabilitation of number of houses, buildings, historical and social centers, and provision of public services and communication services. The project consists of civil works, including the construction and rehabilitation of 26 residential complexes comprising 368 housing units, rehabilitation of 4 educational and cultural buildings, provision and update of information and communication system which includes the expansion of the information networks of the Old City of Havana, provision of construction equipment required for construction and rehabilitation works related to the project execution.

Project Name

Rehabilitation and Construction of Number of Social Projects in Old City of Havana

Total costs	SR. 550.00 million
SFD Contribution	SR. 100.00 million
Date Agreement Signed	04/05/2017
Project Estimated Completion Date	End of 2020
Executing Agency	The Historian Office of Old Havana

"The Fund has continued its activities to finance and support the development of the Republic of Madagascar through the financing of the Swanirana Ivongo-Vahib Road Project. This project is the third in the road sector. Accordingly, the Fund contributions provided to this sector exceeded SR. 129 million, representing 70% of the total loans."

Madagascar

Project Description and Objectives:

The project aims to develop the transportation sector in the Republic of Madagascar, in order to lift the isolation of remote areas and connect them to administrative and economic centers, improve the efficiency of traffic and road safety, facilitate the movement of the rural residents to urban areas, contribute to the transfer of the agricultural products and facilitate access to educational and health services, positively reflecting to the development in the country. The project consists of civil works related to the construction of paved road. The road is 75.6 km long and 6 meters wide. It has shoulders of 1.25 meters wide. In addition, the project includes the construction of 7 bridges with a length of 920 meters. The Fund's finance also includes supporting the project execution unit by providing four 4x4 vehicles, office equipment, computers and land acquisition. The finance covers the provision of engineering and consultancy services, including preparation and updating of technical and environmental studies, preparation of the tender document and supervision of work execution.

Project Name	
Swanirana Ivongo - Vahib Road	
Total costs	SR. 314.44 million
SFD Contribution	SR. 52.50 million
Date Agreement Signed	05/05/2017
Project Estimated Completion Date	Mid of 2019
Executing Agency	Madagascar Road Authority - Ministry of Public Works

"Rehabilitation of Vlora River Road is the third project financed by the Fund in the road sector in the Republic of Albania. Accordingly, the Fund contributed an amount of SR. 251.25 million to this sector."

Albania

Project Description and Objectives:

The project aims to develop the transportation sector in the Republic of Albania in order to support the economic and social development in the Vlora Region which is located in the south of the country to contribute to the improvement of passengers and goods transport services, reduce the time and costs of travel between regions and improve traffic efficiency and road safety. The project consists of civil works, including the reconstruction and rehabilitation of the existing 94 km Vlora-Peshkepi-Qeparo road connected to Leven-Tepelene international road through Selenice city and expansion of such road to include a 3.5-meter track in each direction. In addition, the project includes the reconstruction and rehabilitation of the existing bridges, construction of number of new bridges, rehabilitation of water drainage facilities and provision of safety requirements, pedestrian signs and lighting. The finance covers the provision of advisory services, including review of designs and preparation of tender documents and supervision of the project implementation.

Project Name	
Rehabilitation of Vlora River Road	
Total costs	SR. 270.00 million
SFD Contribution	SR. 112.50 million
Date Agreement Signed	10/05/2017
Project Estimated Completion Date	End of 2020
Executing Agency	Albanian Development Fund

"The Hashemite Kingdom of Jordan has received significant support from the Fund to finance the priority development projects and programs. The Fund has contributed to the financing of 20 development projects and programs, including transportation and communication, energy, water, sanitation, education, health, agriculture and industry and mining sectors with an amount of more than SR. 1777 million."

Jordan

Project Description and Objectives:

The project aims to develop the road sector in the Hashemite Kingdom of Jordan through the reconstruction and rehabilitation of the existing desert highway, one of the main international roads in the country. The highway length is 330 km starting from the capital, Amman, passing through Al Karak, Tifiyah and Ma`an governorates and reaching Aqaba city. The project consists of civil works, including the reconstruction and rehabilitation of the highway starting from Queen Alia Airport road intersection through Dabbat Hanout towards Aqaba city. The highway is 302 km long and has two lanes in each direction of 3.7 meters wide each. It has an external shoulder of 2.4 meters wide, an inner shoulder of 1.2 meters and a median strip of 8.5 meters wide in each direction. In addition, the project also includes the repair of foundation layers, re-pavement, erection of metal and concrete barriers and traffic safety signs and construction of pedestrian bridges and rain drainage system. The Fund`s finance also covers the provision of advisory services, including review of designs, preparation of tender documents and supervision of the project implementation.

Project Name

Reconstruction and Rehabilitation of the Desert Highway (Amman - Aqaba)

Total costs	SR. 820.00 million
SFD Contribution	SR. 393.75 million
Date Agreement Signed	27/03/2017
Project Estimated Completion Date	End of 2020
Executing Agency	Ministry of Public Works and Housing

“As an extension of the Fund efforts to support the transportation and social infrastructure sectors in the Republic of Tajikistan, the Fund has provided two development loans this year with a total value of SR. 243.75 million to support roads and education. Accordingly, the total number of projects financed by the Fund is 10 projects with a total value exceeded SR. 557 million.”

Tajikistan

Project Description and Objectives:

The project aims to strengthen and develop the transportation sector in the Republic of Tajikistan through the completion of Kulyab - Kalaikhumb Road which connects the capital, Dushanbe, with the Chinese borders by constructing the 32 km long section connecting Kulyab with Shurabad and the 26 km section connecting shkev city with Kalaikhumb city. The project will contribute to reducing the time and cost of transportation for users of these two roads, increasing trade exchange and jobs opportunities and promoting economic growth in the country. The project consists of civil works related to the construction of two roads with a total length of 58 Km, including the earth works, pavement, construction of bridges and drainage canals and establishment of truck weight stations. The project also includes the provision of future maintenance equipment for the road, support of work implementation follow-up unit and financial audit. The finance covers provision of engineering services, including review of design, preparation of tender documents and supervision of the project implementation.

Project Name	
Completion of Kulyab - Kalaikhumb Road (Parts A&F)	
Total costs	SR. 427.50 million
SFD Contribution	SR. 112.50 million
Date Agreement Signed	17/05/2017
Project Estimated Completion Date	End of 2021
Executing Agency	Ministry of Transport

Tajikistan

Project Description and Objectives:

The project aims to develop and improve public education in the Republic of Tajikistan and to provide the needs of the country for educational buildings to meet the increasing numbers of students through the construction of number of schools in different parts of the country. This project is a part of the phase IV of the Ministry of Education and Science Program that targeting the construction, completion and furnishing of a set schools by 2021. The project consists of civil works, including the construction and completion of number of schools in Khatun and Sugd and their respective areas. The Fund's support includes providing schools with furniture and teaching aids, advisory services, including, preparation of designs and tender documents and supervision of the project implementation.

Project Name

Construction and Equipping Number of Secondary Schools (Fourth Phase)

Total costs	SR. 131.25 million
SFD Contribution	SR. 131.25 million
Date Agreement Signed	17/05/2017
Project Estimated Completion Date	End of 2022
Executing Agency	Ministry of Education and Science

"This year, the Kyrgyz Republic has received 3 projects in the transportation, health and education sectors with a total value of SR. 300 million, as part of the Fund`s efforts to support developing countries in Central Asia."

Kyrgyzstan

Project Description and Objectives:

The project aims to support the transportation sector in the Kyrgyz Republic and to improve and develop the land transport network between the northern and southern regions of the country through the reconstruction and rehabilitation of the North-South Highway connecting Balykchy to Jalal-Abad due to its importance in raising the level of economic and social development, facilitating the movement of people and goods in the regions through which the road passes and reducing the distance between the capital, Bishkek and Osh city in the south of the country. The project consists of civil works, including the rehabilitation of the road part located between " Balykchy and Jalal-Abad " , which is 24 km long, and the establishment of a truck weighing station. The project also includes providing support to the project implementation unit, the financial audit, and advisory services, including review of designs, preparation of tender documents and supervision of the project implementation.

Project Name	
Reconstruction of the North-South Highway (Alternative Road Balykchy-Jalal-Abad)	
Total costs	SR. 162.75 million
SFD Contribution	SR. 75.00 million
Date Agreement Signed	17/05/2017
Project Estimated Completion Date	End of 2018
Executing Agency	Ministry of Transport and Roads

Kyrgyzstan

Project Description and Objectives:

The project aims to develop the health sector in the Kyrgyz Republic and to improve the health services of pediatrics through the construction and equipping of the surgery building in the Pediatric Emergency Hospital in Bishkek city. The project consists of civil works, including the construction of the 5-storey surgery building with a total area of 10.000 square meters, on an area of 20.000 square meters and with a capacity of about 400 beds. The project also includes providing medical and non-medical equipment and furnishings to the surgery building and the advisory services, including the preparation of designs and tender documents and the supervision of the project execution.

Project Name

Rehabilitation and Expansion of the Public Pediatric Emergency Hospital in Bishkek City

Total costs	SR. 112.50 million
SFD Contribution	SR. 112.50 million
Date Agreement Signed	17/05/2017
Project Estimated Completion Date	End of 2019
Executing Agency	Ministry of Health

Kyrgyzstan

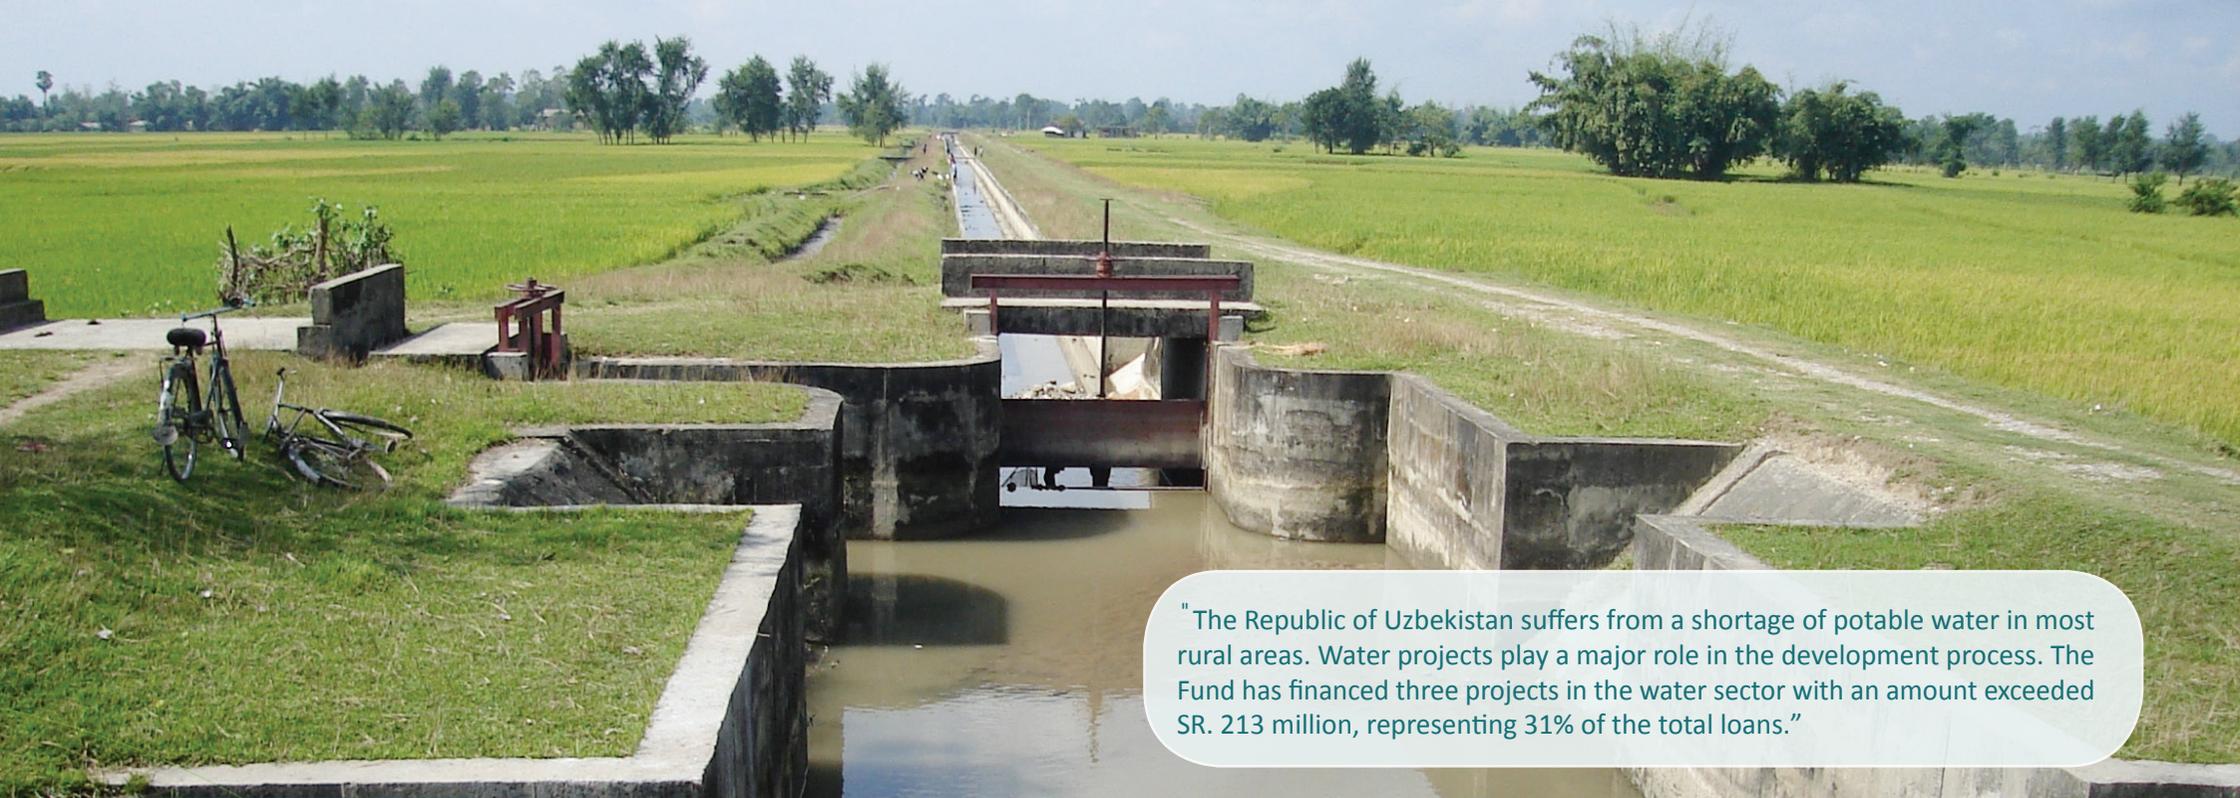

Project Description and Objectives:

The project aims to develop and improve the public education in the Kyrgyz Republic and to provide the needs of the country for educational buildings to meet the increasing numbers of students through the construction of number of schools in different parts of the country. This project is part of the Government's plan to establish and complete number of schools to develop the education sector. The project consists of civil works, including the construction of 16 schools with a capacity of 150 to 550 students. These schools are distributed over most areas of the Republic. The Fund's finance also includes the provision of equipment and furniture for schools and the advisory services, including preparation of designs and tender documents and supervision of project execution.

Project Name

Construction of Public Schools

Total costs	SR. 112.50 million
SFD Contribution	SR. 112.50 million
Date Agreement Signed	17/05/2017
Project Estimated Completion Date	End of 2019
Executing Agency	State Agency of Architecture, Construction, Housing and Communal Services

"The Republic of Uzbekistan suffers from a shortage of potable water in most rural areas. Water projects play a major role in the development process. The Fund has financed three projects in the water sector with an amount exceeded SR. 213 million, representing 31% of the total loans."

Uzbekistan

Project Description and Objectives:

The project aims to improve drinking water services in the Republic of Uzbekistan and to improve the living conditions of the residents in Kashkadarya area by re-establishing the water supply system for the regions in Kasane and Mubarak governorates and the rural communities adjacent to the pipes transferring water from the "Underground kitab-shakhrisabz" reservoir. The project also aims to raise water quality by rehabilitating the water network and pumping stations and constructing water distribution canals. This project will contribute to reducing the level of poverty, raising the public health and living standards of the target population, and increasing the supply of drinking water to houses and commercial and industrial facilities from 6.500 cubic meters per day to become a 34.000 cubic meters per day. The project consists of civil works, including rehabilitation of two water supply lines, extension of connection pipes, rehabilitation of water pumping stations and establishment of water distribution networks. The Fund's finance also includes the provision of advisory services and supervision of the project execution.

Project Name

Rehabilitation and Construction of Water Network in the Cities of Kasane and Mubarak and Rural Areas Affiliate

Total costs	SR. 197.66 million
SFD Contribution	SR. 98.85 million
Date Agreement Signed	17/05/2017
Project Estimated Completion Date	End of 2022
Executing Agency	Agency of Communal Services

"This project is an extension to the 3 airport projects financed by the Fund in the Republic of Gambia with a total value of SR. 138.77 million."

Gambia

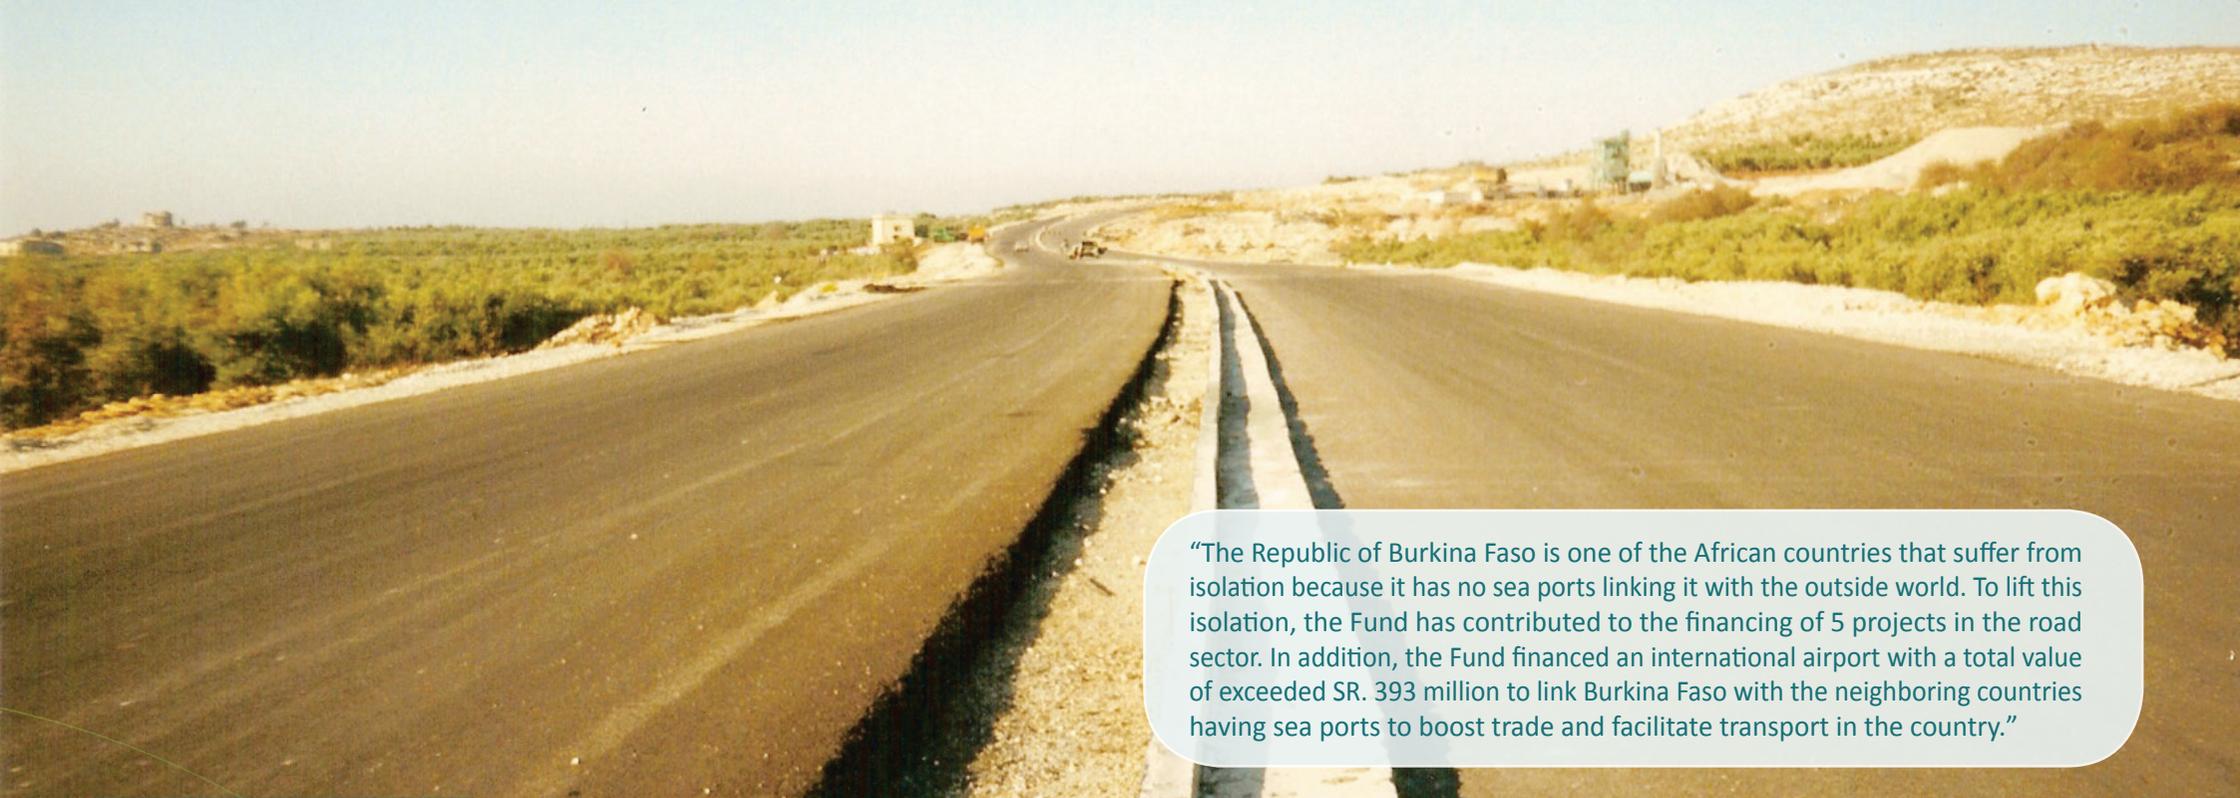

Project Description and Objectives:

The financing of this project is an additional loan to complete the additional works for the Rehabilitation and Upgrading Banjul International Airport Project, which was previously financed by the Fund in 2009, as it is important to upgrade the transport sector in the country. The project consists of civil works related to the renovation and rehabilitation of the airport terminals, including air conditioning systems and luggage transport devices, establishment of an additional office floor in the arrival terminal, rehabilitation of toilets, supply and installation of main terminal furniture, fixtures and signage, supply and installation of passenger registration cabins, preparation of external passage sidewalks surrounding the building and waiting area, restoration of control tower, provision of necessary hardware, improvement of the external interface of the airport lounge and supply and installation of a secondary power supply. The Fund's finance also covers the advisory services, designs and supervision of the project execution.

Project Name

The Rehabilitation and Upgrading Banjul International Airport "Phase II" (Additional Loan)

Total costs	SR. 71.25 million
SFD Contribution	SR. 71.25 million
Date Agreement Signed	17/05/2017
Project Estimated Completion Date	End of 2019
Executing Agency	Civil Aviation Authority

“The Republic of Burkina Faso is one of the African countries that suffer from isolation because it has no sea ports linking it with the outside world. To lift this isolation, the Fund has contributed to the financing of 5 projects in the road sector. In addition, the Fund financed an international airport with a total value of exceeded SR. 393 million to link Burkina Faso with the neighboring countries having sea ports to boost trade and facilitate transport in the country.”

Burkina Faso

Project Description and Objectives:

The project aims to enhance the transportation sector in the Republic of Burkina Faso by constructing a 115 km asphalt road starting from Ouahigouya, passing through Titao and ending at Djibo. The project consists of civil works, including the construction of two-direction road of 7 meters wide each. The road has shoulders of 1.5 meters wide in each direction in the open areas. Each direction is 8 meters wide and has shoulders of 2 meters wide in the cities through which the road passes. The project also includes establishment of two charging centers for road users on the exit of "Ouahigouya" and the entrance to Djibo, construction of rest areas and creation several intersections. The Fund's finance also includes completing the environmental protection works, supporting the project execution unit by providing four 4x4 vehicles, office and computer equipment, training the unit staff and implementing financial and technical audit at the end of works.

Project Name

Construction of Ouahigouya - Djibo Road

Total costs	SR. 306.60 million
SFD Contribution	SR. 138.75 million
Date Agreement Signed	29/06/2017
Project Estimated Completion Date	April 2021
Executing Agency	Ministry of Infrastructure

"The Fund played a prominent role in supporting the economic and social development process in the Republic of Tunisia. The number of projects financed by the Fund are 27 development projects and programs covering all development sectors in the country with an amounts exceeding SR. 3534 million."

Tunisia
Project Description and Objectives:

The project aims to develop the health sector in the Republic of Tunisia and to provide the medical services to reduce the burden on large hospitals and accelerate the reception of patients and emergency cases through the construction of two hospitals of type " B " in the El Djem and Sbiba located in the center of the country. The project consists of civil works, including construction of buildings, installation of electromechanical systems for the medical and administrative departments and clinics, establishment of public service networks, supply and installation of equipment, furniture and medical devices and provision of ambulances. The Fund`s finance also includes the provision of engineering and technical services and advisory services, including preparation of design and tender documents and supervision of the project execution.

Project Name
Construction and Equipment of Two Hospitals (Class B)
in El Djem and Sbiba

Total costs	SR. 174.30 million
SFD Contribution	SR. 150.00 million
Date Agreement Signed	27/07/2017
Project Estimated Completion Date	End of 2021
Executing Agency	Ministry of Health

Tunisia

Project Description and Objectives:

Phase II of this project is an extension of phase I financed by the Fund in 2013. The project at its second phase aims to contribute to the provision of about 20,000 housing units suitable for citizens to raise the standard of living, achieve decent living conditions and ensure their stability by facilitating the access to suitable social housing. The project consists of civil and architectural works related to the construction of buildings, utilities networks and public services, including establishment of social housing and provision of all engineering and technical services. The project also includes the preparation of design and tender documents and the supervision of the project execution.

Project Name Social Housing (Phase II)

Total costs	SR. 370.12 million
SFD Contribution	SR. 318.75 million
Date Agreement Signed	27/07/2017
Project Estimated Completion Date	End of 2021
Executing Agency	Ministry of Equipment, Housing and Territorial Development

“As part of the fund ongoing efforts to support development projects in the Republic of Mauritania, it has contributed 3 development projects in the energy, roads and agriculture sectors with a total amount of SR. 506 million. Accordingly, the number of projects financed by the Fund reaches 15 development projects and programs with a total amount exceeded SR. 2251 million.”

Mauritania

Project Description and Objectives:

The project mainly aims to develop the energy sector in the Republic of Mauritania by extending a 225 KV power line between Nouakchott and Zouerat to supply low-cost electricity to the major mining areas located in “Akjoujt and Zouerat” and the tourist areas in Atar and promote utilization of national resources, including natural gas and solar and wind powers. The project consists of civil works related to the extension of 703 km high and medium voltage lines, the construction of new power substations and the expansion of the existing substations. The Fund’s finance also includes providing engineering services, supervising and reviewing designs, assisting the Electricity Company in analyzing bids and supervising the project execution.

Project Name

Transmission Link between Nouakchott and Zouérat

Total costs	SR. 1087.50 million
SFD Contribution	SR. 375.00 million
Date Agreement Signed	27/08/2017
Project Estimated Completion Date	End of 2021
Executing Agency	Mauritanian Electricity Company

Mauritania

Project Description and Objectives:

The project aims to develop the transportation sector in the Republic of Mauritania by establishing a road linking the National Road No. 1 with the National Road No. 4 to lift the isolation of the rural areas, facilitate the movement of the residents of the region, ensure their rapid and easy access to major social services such as health and education with a low cost and secure way and reduce the travel time. The project consists of civil works, including the acquisition of land along the road, the construction of 73 km long road with a width of 6 meters, site design, implementation of earthworks, intersections, drainage works, road signs and signboard. provision of the advisory services and supervision of the project execution.

Project Name Construction of the Linking Road between the National Road No. 1 (Nouakchott - Akjoujt - Benichab) And the National Road No. 4 (Nouakchott - Nouadhibou)

Total costs	SR. 93.75 million
SFD Contribution	SR. 93.75 million
Date Agreement Signed	27/08/2017
Project Estimated Completion Date	End of 2020
Executing Agency	General Directorate of Transport Infrastructure - Ministry of Equipment and Transport

Mauritania

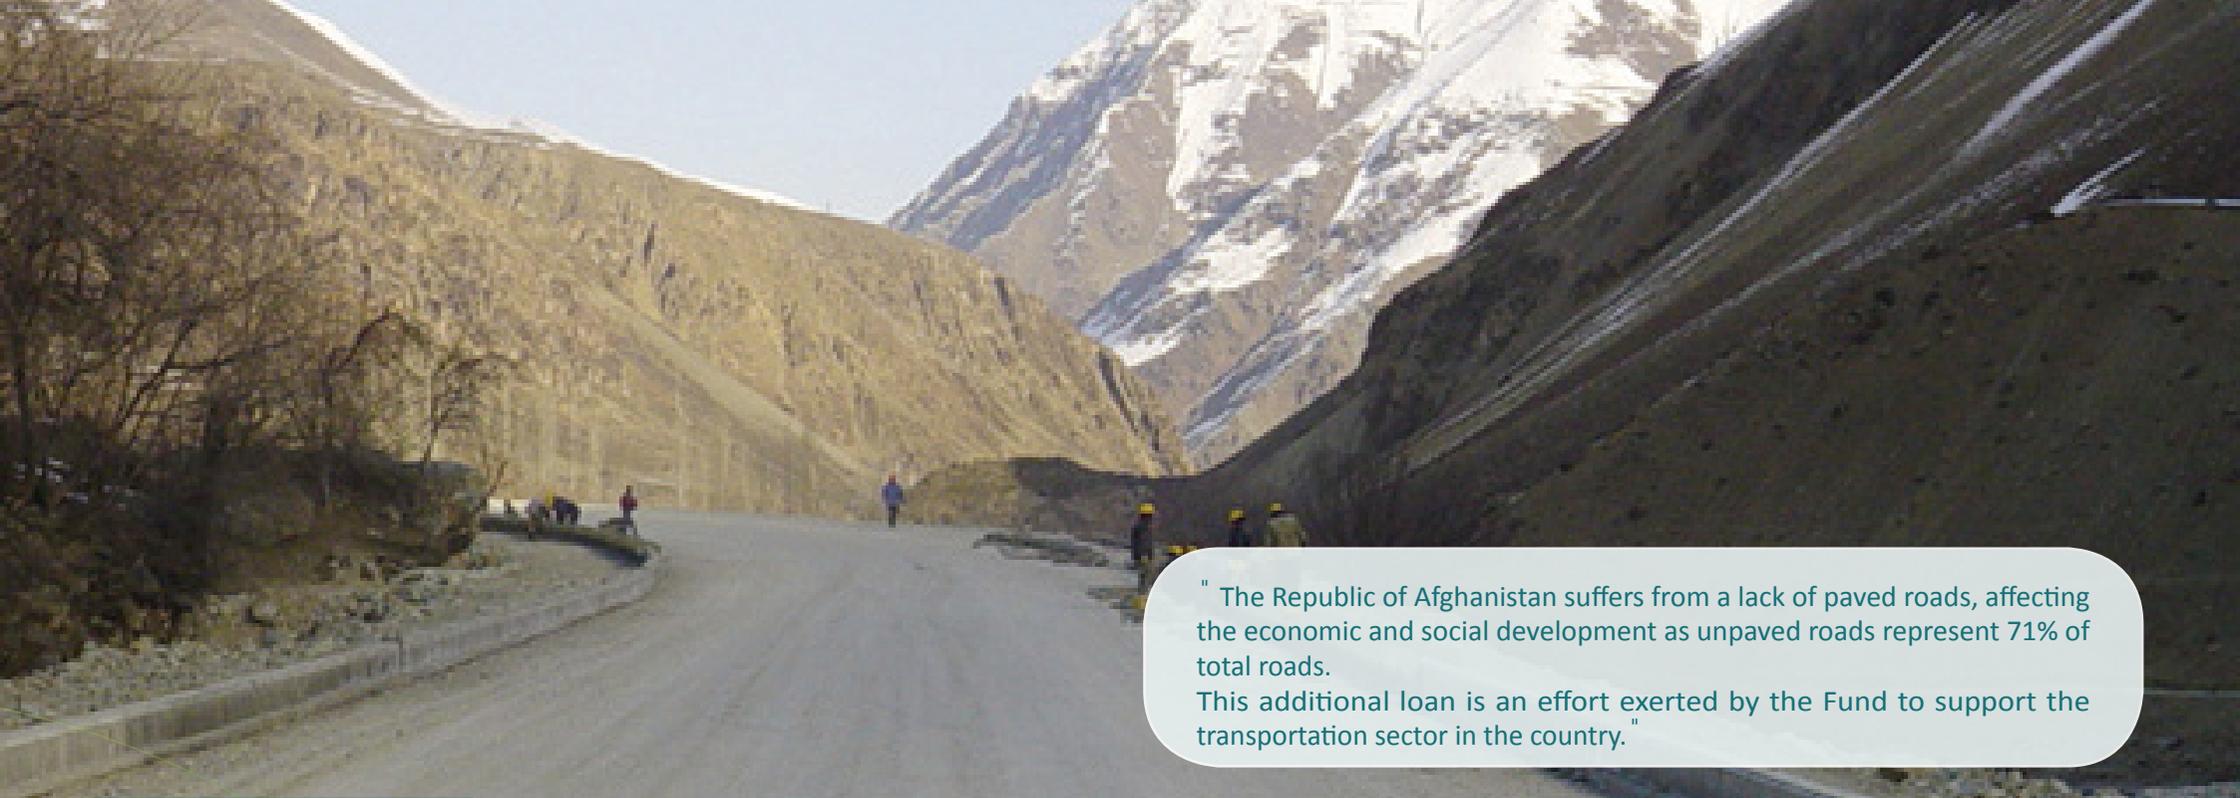

Project Description and Objectives:

The project aims to develop the agricultural sector in the Republic of Mauritania by rehabilitating 36 km of Conde Canal, expanding its section and cleaning it to increase the water flow for agriculture purpose and contribute to increasing agricultural areas, improving agricultural production to increase economic profit, raising the food security, developing the income-generating activities, creating jobs and resettling residents in their areas of origin. The project consists of civil works, including the cleaning of the canal from aquatic plants, removal of solid deposits, expansion of the canal section, establishment of transit corridors. The Fund's finance includes providing the engineering services, supervising the project execution, helping the Department of Agricultural Reclamation in the Ministry of Agriculture in requesting and analyzing bids and supervising the project execution.

Project Name

Expansion and Rehabilitation of Conde Canal

Total costs	SR. 37.50 million
SFD Contribution	SR. 37.50 million
Date Agreement Signed	27/08/2017
Project Estimated Completion Date	End of 2020
Executing Agency	Department of Agricultural Reclamation - Ministry of Agriculture

" The Republic of Afghanistan suffers from a lack of paved roads, affecting the economic and social development as unpaved roads represent 71% of total roads. This additional loan is an effort exerted by the Fund to support the transportation sector in the country."

Afghanistan

Project Description and Objectives:

In 2008, the Fund contributed to the financing of the Armalik - Sbzak - Qalainau Road. The project aims to support economic and social development in the Western Northern areas of Afghanistan. As there is a need for funding to complete this project, the Fund provided an additional loan this year to complete the ring road works by carrying out the remaining works of Armalik - Sbzak - Qalainau road with a length of 83 km. The project consists of the civil works. The Fund`s finance includes the provision of engineering services, including review of designs and supervision of the project implementation.

Project Name

Armalik - Sbzak - Qalainau Road (Additional Loan)

Total costs	SR. 1747.50 million
SFD Contribution	SR. 60.00 million
Date Agreement Signed	27/08/2017
Project Estimated Completion Date	End of 2018
Executing Agency	Ministry of Public Works

"Proportion of total spending on health care in Bangladesh is estimated at 3.4% of the GDP. The health expenditure per capita is estimated at USD 29 per year. To support the efforts of the Bangladeshi government to improve the health sector, the Fund has contributed to the financing of 2 projects in this sector with a total value of SR. 195 million."

Bangladesh

Project Description and Objectives:

The project aims to improve the health sector in the Republic of Bangladesh by constructing and developing "Burn and Plastic Surgery Units" and establishing an information center to conduct specialized research and studies in this field and to communicate and coordinate with the international centers to share information of cases. The project consists of civil works and equipment of Rajshahi Medical College Hospital, Shere-Bangla Medical College Hospital, Sylhet, M.A.G Osmani Medical College Hospital, Rangpur Medical College Hospital and Faridpur Medical College Hospital. The Fund's finance also includes the provision of advisory and engineering services, including review of designs and supervision of the project execution.

Project Name	
Construction of Burn and Pastic Surgery Unit	
Total costs	SR. 240.00 million
SFD Contribution	SR. 112.50 million
Date Agreement Signed	08/10/2017
Project Estimated Completion Date	End of 2021
Executing Agency	Directorate General of Health Services - Ministry of Health and Family Welfare

" This year, the Saudi Fund for Development signed a loan agreement with the Government of the Kingdom of Swaziland with an amount of SR. 37.50 million in order to contribute to supporting the health sector and enhance the health services in the country. Accordingly, the total number of countries lent by the Fund since its inception in 1975 reached 83 countries around the world. "

Swaziland

Project Description and Objectives:

The project aims to support the health sector in the Kingdom of Swaziland by providing comprehensive and sophisticated medical treatment services to meet the demand for third-class health care all over the country and reduce the need to transfer cases for treatment abroad. The project consists of civil works, including construction of new specialized referral hospital located in Elangeni area on the road between Mbabane and Manzini, located 15 KM south of the capital Mbabane, to facilitate access to the hospital from around the country. The total area of the hospital is estimated at 27500 square meters, with capacity of 250 beds in various medical specialties. In addition, the project includes the construction of residential units for doctors and equipment of public service facilities in the hospital. The Fund finance also includes the provision of medical equipment, furniture, advisory services and technical support to the project implementation unit.

Project Name	
National Referral Hospital in the Kingdom of Swaziland	
Total costs	SR. 191.25 million
SFD Contribution	SR. 37.50 million
Date Agreement Signed	14/10/2017
Project Estimated Completion Date	October 2019
Executing Agency	Ministry of Public Works and Transport

“In support of development efforts in the Republic of Sri Lanka, the Fund has financed 12 development projects and programs. The finance covers education, health, agriculture, water, roads and energy projects, with a total value of over SR. 1345 million.”

Sri Lanka

Project Description and Objectives:

The project aims to develop the agricultural sector in the Republic of Sri Lanka through raising the efficiency of the water basins and constructing a large basin to provide potable water and irrigation water throughout the year in the Kinniya and Kantale regions in the Eastern province of the country. The project will contribute to improving the living conditions of the population through development of infrastructure and creation of new jobs in the agricultural sector which will reduce the poverty . The project consists of civil works, including the rehabilitation of the main basin and the existing sub-basins, implementation of the main works of Kalu Ganga basin, construction of water supply systems from the Kalu Ganga basin to thinnara weli agricultural area the development of the new irrigation system in the region and rehabilitation of the existing irrigation system of the neighboring regions. The Fund`s finance also includes the provision of advisory and engineering services and supervision of the project execution.

Project Name

Left Bank Development in Kalu Ganga

Total costs	SR. 337.50 million
SFD Contribution	SR. 168.75 million
Date Agreement Signed	24/10/2017
Project Estimated Completion Date	End of 2020
Executing Agency	Ministry of Irrigation and Water Resources Management

Sri Lanka

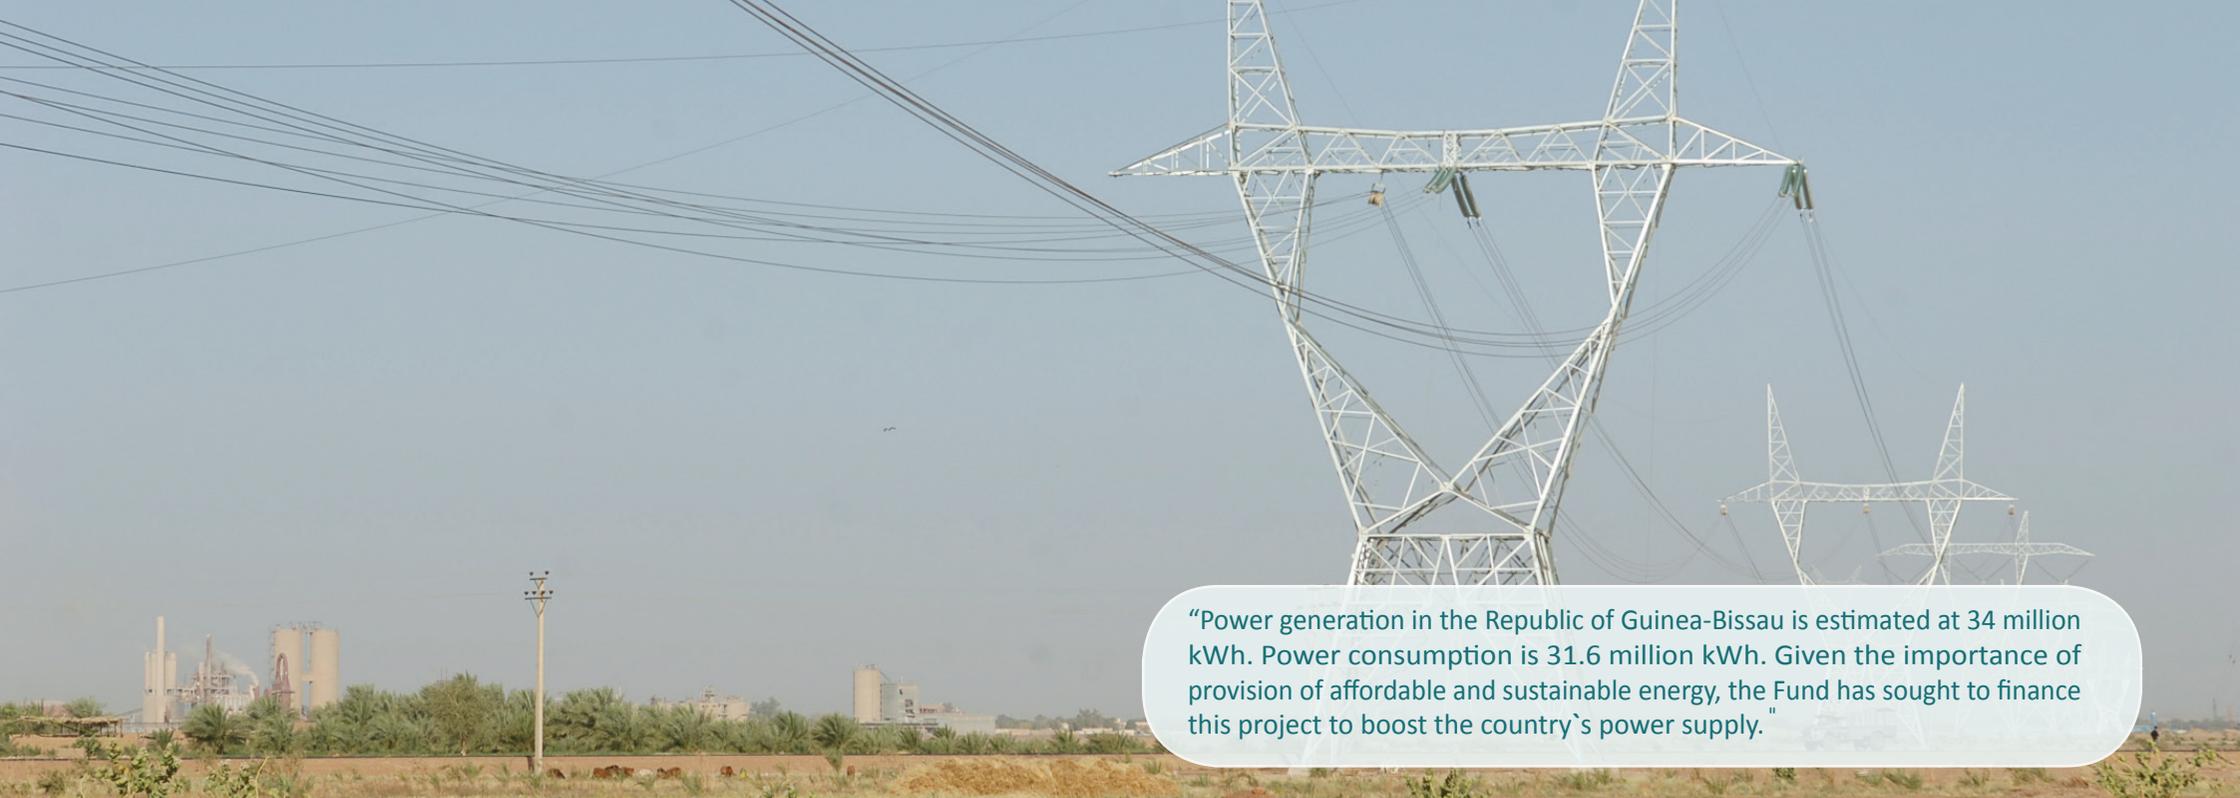

Project Description and Objectives:

The project aims to develop the higher education in the Republic of Sri Lanka. This project is part of Wayamba University Township Development Program. It is one of the latest programs through which the university seeks to enhance its role in providing educational means and opportunities to urban areas by strengthening the higher education systems in the country. The project targets buildings of the Kuliyaipitya campus and buildings of the Makandura campus. The project consists of the civil works, including the construction of buildings of the two campuses on an estimated area of 20,000 square meters, and the residence building of staff and guests and the library building, development of the lake area, establishment of educational service center water treatment plant, rehabilitation of the sewage network, university's main road, lecture room and student center, construction of technology college at Kuliyaipitya campus, including two nanotechnology engineering departments, Vocational Training College and establishment of community partnership for Agricultural Development at Makandura campus. The project also includes the additional works of the University Township's activities and center for Food Technology center for Research and Training, furnishing the laboratory, offices, and providing the furniture, teaching tools, consultancy and engineering services, and supervising the project execution.

Project Name

Wayamba University Township Development

Total costs	SR. 225.00 million
SFD Contribution	SR. 105.00 million
Date Agreement Signed	24/10/2017
Project Estimated Completion Date	End of 2020
Executing Agency	Ministry of Higher Education and Highways

“Power generation in the Republic of Guinea-Bissau is estimated at 34 million kWh. Power consumption is 31.6 million kWh. Given the importance of provision of affordable and sustainable energy, the Fund has sought to finance this project to boost the country’s power supply.”

Guinea Bissau

Project Description and Objectives:

The project aims to develop the energy sector in the Republic of Guinea-Bissau to find an urgent solution to the energy problem in the country, and to ensure its sustainable availability at affordable prices for most consumers by replacing the current sole power plant owned by a foreign private company. This project will help the government to save the amount paid to the foreign company per month. This amount is estimated at about Euro. 250.000 as a fixed amount, in addition to the amount spent in the purchase of fuel. The project also aims to restore the capacity of the Guinea-Bissau Electricity and Water Company by owning assets of a power plant and training its technicians to operate, maintain and manage the power plants. Accordingly, it can rely on the self-capacity to generate power and ensure continuity of power supply to citizens. The project is expected to contribute to improving the company’s income and helping the government achieve its goals to increase the access to electricity in Bissau to reach 80% by 2030. The project consists of civil works, including construction of concrete foundations of the generators, transformers, fuel tanks and control room and supply and installation of generators and accessories. The project also includes the supply and installation of 10 diesel units for generating power with a capacity of 1.6 MW each, electrical equipment to connect the power plant to the electricity grid, provision of auxiliary electrical systems, tanks and technical equipment, operation and maintenance of the plant for a limited period and training of the technical staff on the plant operation. The Fund’s loan also covers providing the engineering services and supporting the project execution unit.

Project Name

Construction of Power Plant in Bissau

Total costs	SR. 83.40 million
SFD Contribution	SR. 40.30 million
Date Agreement Signed	20/12/2017
Project Estimated Completion Date	Mid of 2018
Executing Agency	Ministry of Energy and Industry

Egypt

Project Description and Objectives:

The project aims to complete King Salman Program for the Development of Sinai Peninsula in the Arab Republic of Egypt by financing a number of development projects and programs in various sectors, including roads, agriculture, education, housing and urban development. In the framework of this program the Fund has financed projects in the road sector, as well as projects in the agriculture sector, including reclamation and cultivation of a number of agricultural communities, provision of water for the irrigation, reclamation of agricultural land and construction of a water treatment plant. The program also financed two projects in the education sector and two projects in the housing and urban development sector.

Project Name King Salman Program for the Development of Sinai Peninsula

SFD Contribution	SR. 431.25 million
Project Estimated Completion Date	End of 2019
Executing Agency	Ministry of International Cooperation

4. Co-financing of Signed Loan Agreements

During 2017, the SFD co-financed 14 development projects and programs in 14 developing countries in collaboration with a number of financiers. The total contribution of the SFD to the financing of these projects was SR. 1346.65 million. The following table illustrates the details of these transactions:

Table No. (1-2)

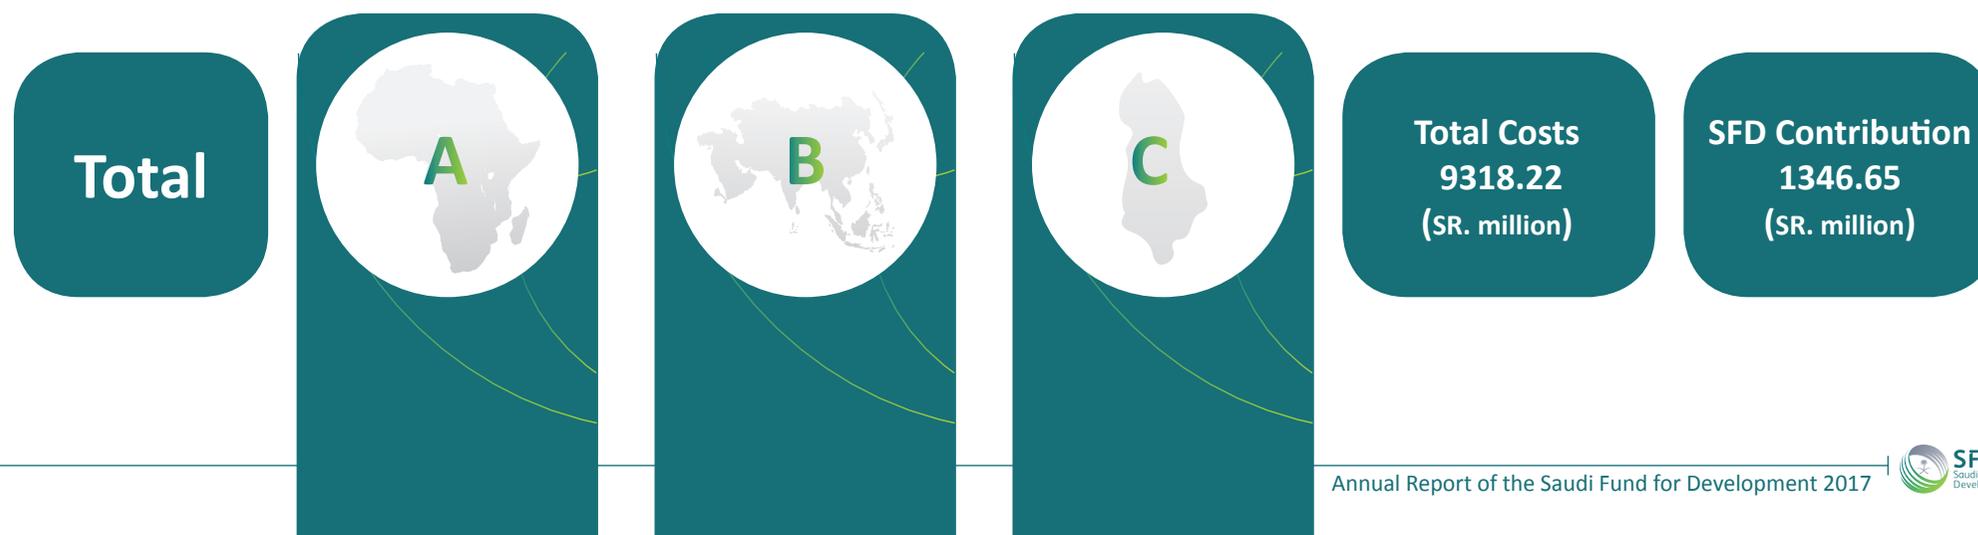

A. Africa	Project Name	Total Cost SR. million	SFD Contribution SR. million	Co-financer & their Contributions

Signing a loan agreement between the Fund and the Republic of Zambia

Chapter Two

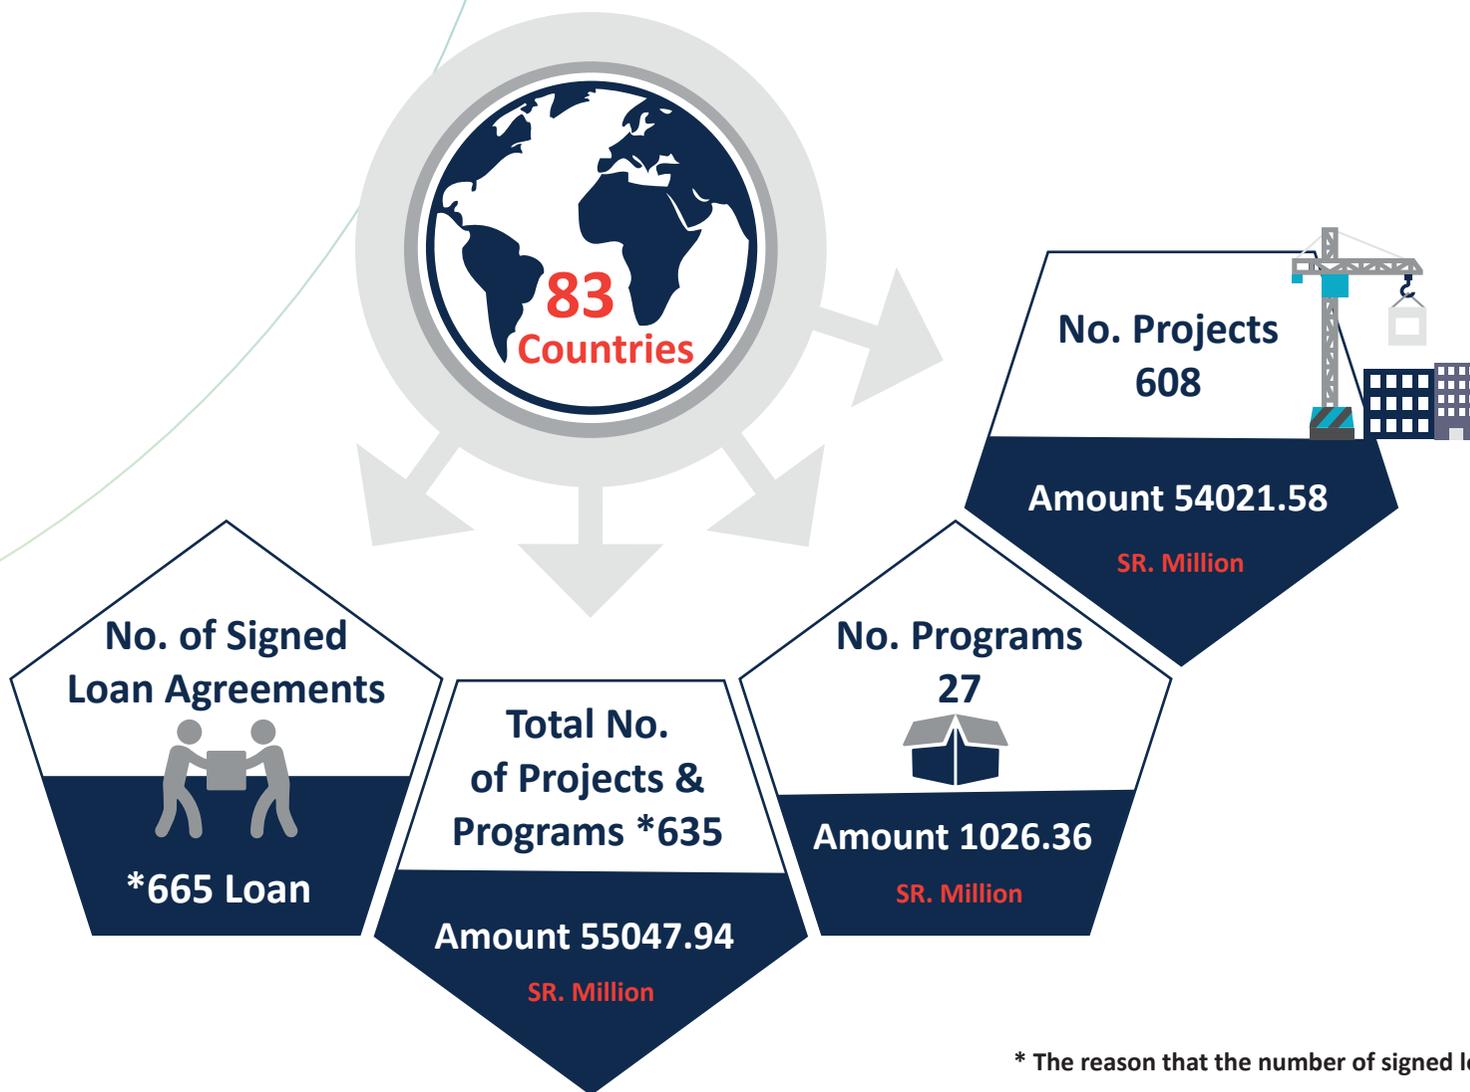

Development Activities
during the Period
1975-2017

SFD Cumulative Contributions

The Fund had, since its inception in 1975 and up to the end of 2017, financed 665 development loans with a total amount of SR. 55,047.94 million; the amount was allocated to finance 635 development projects and programs for the benefit of 83 developing countries worldwide. The projects and programs are illustrated in the following graph:

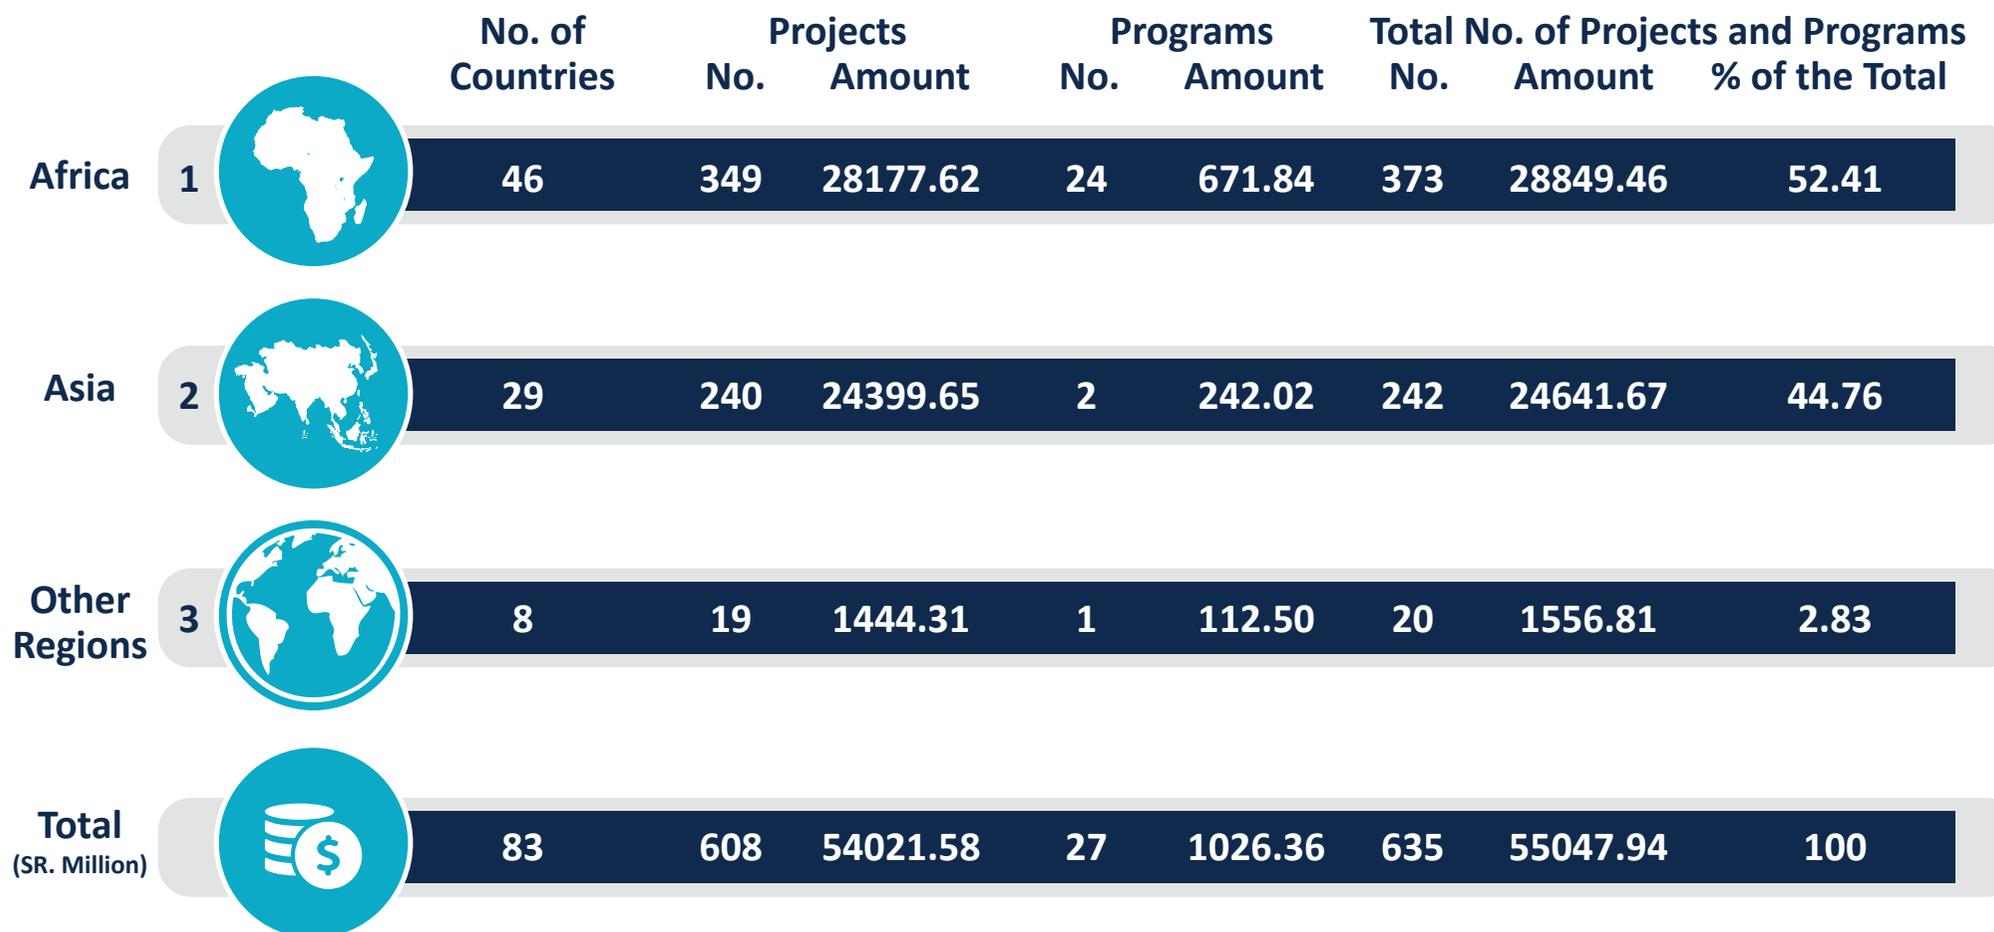

No. of Recipient Countries

* The reason that the number of signed loan agreements exceeds that of projects and programs, is that some projects received more than one loan.

Geographical Distribution of Total Number and Amount of SFD Projects

The Fund's development policy focuses on geographically distribution of its loans to support the poorest and least developed countries. Based on this principle, the Fund directed its developmental activity to Africa and Asia, due to the low economic and developmental level, in addition to the increasing rates of population growth, unemployment and the reduced rates of income. Accordingly, the Fund contributed to the financing of 373 development projects and programs in 46 African countries with a total amount of SR. 28849.46 million. In addition, the Fund contributed to the financing of 242 development projects and programs in 29 Asian countries with a total amount of SR. 24641.67 million. When it comes to Other Regions, the Fund contributed to the financing of 20 development projects and programs totaling SR. 1556.81 million, from which 8 countries around the world benefited, as illustrated in the following graph:

Sectorial Distribution of Total Number and Amount of SFD Projects

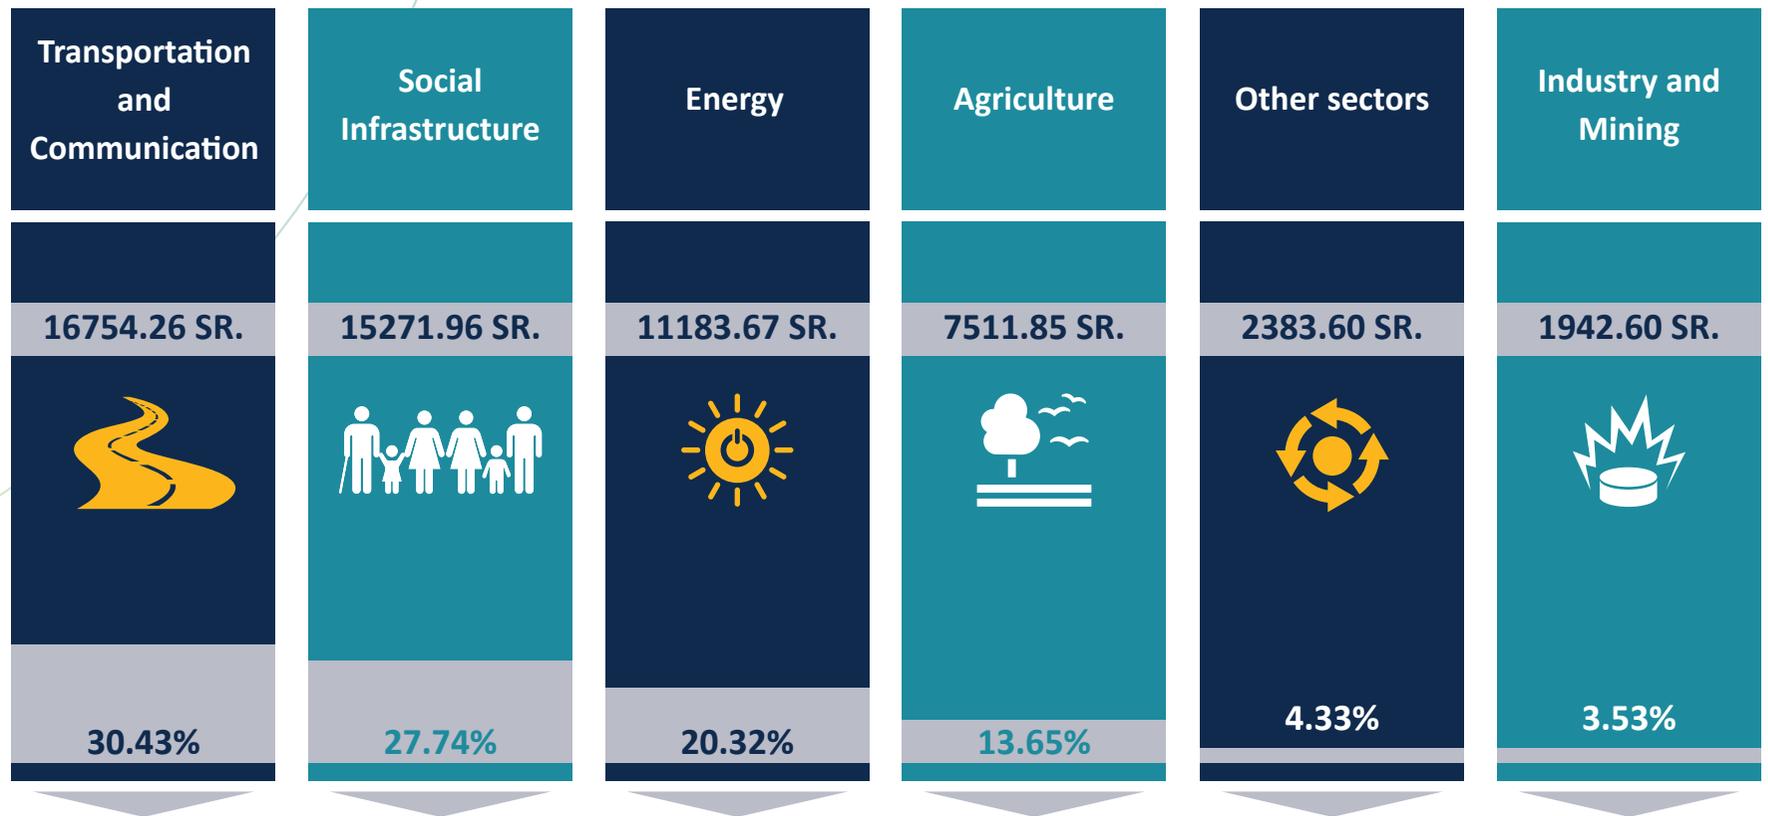

The Fund seeks to provide the financing necessary for the development projects in the developing countries. Its primary focus is placed on the sectors of transportation and communication, social infrastructure, agriculture, energy and industry and mining. Since the Fund began its loan activities in the mid-seventies to the end of 2017, the number of development projects and programs financed in the transportation and communication sector reached 216. The social infrastructure came in the second place with 204 development projects and programs. The agriculture sector came in next place with 92 projects and programs, followed by the energy sector with 70 projects and programs. In the same way, the Fund contributed to the financing of 35 projects and programs in other sectors. The Fund financed 18 projects and programs in the industry and mining sector, as illustrated in the following table:

Table No. (2-1) (SR. Million)

Sector	Total		% of the Total
	No. of Projects and Programs	Amount	
A. Transportation and Communication	216	16754.26	30.43
1. Transportation	210	16477.64	29.93

Geographical Distribution of Total Number and Amount of Transportation and Communication Projects

In light of its belief in the importance of the transportation and communication sector in the economy of the developing countries, this sector received the greatest share from among the beneficiary sectors benefiting from the Fund's loans. The Fund perceived the key role which this sector plays as it links and develops the various social and economic sectors for the achievement of comprehensive development. The number of development projects and programs financed by the Fund in this sector totaled 216, representing 34.02% of the total number of loans offered by the Fund, with a total amount of SR. 16754.26 million. African countries received the major share of assistance where the Fund financed 129 development projects and programs, followed by Asia with 79, and another 8 in Other Regions worldwide, as illustrated in the following table:

Table No. (2-3)

(SR. Million)

Region	Transportation								Communications		Total	
	Roads		Railways		Sea Ports		Airports		No. of Projects & Programs	Amount	No. of Projects & Programs	Amount

Geographical Distribution of Total Number and Amount of Social Infrastructure Projects

The Social Infrastructure sector includes water and sewer, education, health, housing and urban development projects. As this sector is closely related to the increase of human production efficiency and the improvement of living conditions and health, the number of development projects and programs financed by the Fund totaled 204, representing 32.13% of the total number of projects and programs financed by the Fund, with a total amount of SR. 15271.96 million, of which African countries received 107 development projects and programs, followed by Asia with 88, and another 9 in Other Regions worldwide, as illustrated in the following table:

Table No. (2-4)

(SR. Million)

Region	Social Infrastructure								Total	
	Water and Sewer		Education		Health		Housing and Urban & Development		No. of Projects & Programs	Amount
	No. of Projects & Programs	Amount	No. of Projects & Programs	Amount	No. of Projects & Programs	Amount	No. of Projects & Programs	Amount		
Africa	26	2448.08	40	2235.88	25	1624.18	16	1786.93	107	8095.07

Geographical Distribution of Total Number and Amount of Projects in Other Sectors

The Fund allocated part of its contributions to support the productive economic sectors represented in the agriculture, energy, industry and mining sectors as well as a number of other sectors. Accordingly, the Fund financed 92 development projects and programs in the agricultural sector, representing 14.49% of the total number of SFD projects and programs, with a total amount of SR. 7511.85 million, 72 of which were in Africa and 20 in Asia. The Fund financed 70 development projects and programs in the energy sector, representing 11.02% of the total number of SFD projects and programs, with a total amount of SR. 11183.67 million, 30 of which were in Africa, 39 in Asia and 1 in the Other Regions worldwide.

In the industry and mining sector, the Fund financed 18 development projects and programs, representing 2.83% of the total number of SFD projects and programs, with a total amount of SR. 1942.60 million, 12 of which in Africa and 6 in Asia. Other sectors received the financing necessary for the execution of 35 development projects and programs, representing 5.51% of the total number of SFD projects and programs, with a total amount of SR. 2383.60 million, with 23 in Africa, 10 in Asia and 2 in the Other Regions worldwide, as illustrated in the following table:

Table No. (2-5)

(SR. Million)

Region	Agriculture		Energy		Industry and Mining		Other Sectors	
	No. of Projects & Programs	Amount	No. of Projects & Programs	Amount	No. of Projects & Programs	Amount	No. of Projects & Programs	Amount
Africa	72	5784.04	30	4617.55	12	1277.21	23	939.09
Asia	20	1727.81	39	6455.06	6	665.39	10	1309.51
Other Regions	-	-	1	111.06	-	-	2	135.00
Total	92	7511.85	70	11183.67	18	1942.60	35	2383.60

Cumulative Co-financing

The significance of co-financing - which literally means that the Fund participates with more than one financing body in the financing of a particular project - lies in its ability to provide the financing necessary for the achievement of mega-projects which most probably cannot be executed by the exclusive efforts of only one financing body or a beneficiary country. Currently, project co-financing helps to execute the various projects within the expected timeline. Since the beginning of its activities, the Fund concentrated on such projects - particularly mega-projects in which all relevant parties had an interest - in cooperation with other national, regional and international financing institutions. Until the end of 2017, the total number of loans agreements accomplished within the framework of co-financing projects with other development institutions were 400 loans agreements - from the total signed loans agreements - which totaled SR. 32952.65 million, representing 59.86% of the total amounts of the signed loans agreements, as illustrated in the following table:

Table No. (2-6)

(SR. Million)

Region	Signed Loans		Co-Financed Loans		Percentage of Co-Financed Loans Amount of the Total Signed Loans for Each Region
	No.	Amount	No.	Amount	
Africa	392	28849.45	267	18607.73	64.50
Asia	253	24641.68	124	13706.07	55.62
Other Regions	20	1556.81	9	638.85	41.03
Total	665	55047.94	400	32952.65	59.86

Cumulative Disbursements

The “Cumulative Disbursement” represents the total amounts withdrawn from the allocations for the signed loans. Accordingly, the Fund seeks a balance between the projects’ actual needs and the amounts allocated for them, in terms of timing. The Fund ensures that disbursements from the loans agreed to occur in accordance with the planned schedules in order to guarantee project completion on schedule. The total cumulative disbursements from the loans agreed presented by the Fund from its inception up to the end of 2017 came to SR. 39200.47 million, representing 71.21% of the total signed cumulative loan amounts, as illustrated in the following table:

Table No. (2-7)

(SR. Million)

Region	No. of Countries	Signed Loans		Disbursements		Percentage of Disbursement of the Total Signed Loans for Each Region
		No.	Amount	No.	Amount	
Africa	46	392	28849.46	357	20907.62	72.47
Asia	29	253	24641.67	226	17345.92	70.39

Project in Focus

SFD Efforts to Lift Isolation of Some Landlocked African Countries

INTRODUCTION

There are several countries in Africa suffer from isolation because of their geographical location. They are not connected to the outside world, because they have no seaports connecting them to the other countries. The nature of the landlocked geographical location imposes economic and social challenges, because they are far from the major world markets. In turn, this remoteness increases cost of trade and transportation. It leads to isolate and prevent them from reaping the benefits of globalization. Consequently, their exports are less competitive and their imports are very expensive. Some studies indicate that transport costs in the landlocked African countries are about 77% of the value of their exports. The landlocked African countries face another challenge representing in the long distance between cities and regions within and outside the country. In addition, these countries suffer from the high cost of land transport within their territories. The landlocked African countries do not only suffer from remoteness, but also they suffer from other challenges resulting from their reliance on transit passage to neighboring countries that have poor infrastructure and face a shortage in this area, because they are developing countries. Another challenge facing the landlocked African countries is the long period of transport and access to the seaports of the neighboring countries.

The delay period may be 34 to 40 days, which hinders trade in perishable products and crops.

In this context the road projects play a vital role in lifting the isolation of these countries, strengthening the transport process within the landlocked countries, linking them to the neighboring countries overlooking the seaports, linking the production areas with consumption areas to enhance trade exchange and to achieve comprehensive and sustainable economic development and facilitating access to all social services.

To support the landlocked African countries in lifting their isolation and strengthening their efforts in the economic and social development, the Fund has contributed to the financing of a number of internal and external road projects in Burkina Faso, Niger, Mali and Chad and linking them to seaports in the Republics of Ghana and Mauritania. These projects have helped lift the isolation of those countries. Below, we highlight the efforts of the Fund in support of road projects in those countries.

1. Road Projects in the Republic of Burkina Faso

• Bobo Dioulasso - Mali Border Road (The Integrated Development for the Southern Regions):

The project mainly aims to open up the isolated southwestern region in the Republic of Burkina Faso through the construction of a paved road with a length of 130.8 km and a width of 7 meters to reach Bobo Dioulasso city in Burkina Faso bordering the Republic of Mali through the Orodara. It also aims to increase the capacities of production and agricultural marketing and complete the Trans-Sahelian Highway West Africa between Dakar, Senegal, in the west and N`Djamena, Chad. The total cost of the project is SR. 126 million. The SFD contribution to this project is SR. 30 million.

• Pa - Dano - Border of Cote d'Ivoire Road:

The project mainly aims to open up the isolated southwestern regions of the Republic of Burkina Faso to support economic and social development in the country. The project meets the current and future demand for land transport and promotes the efficient and safe use of roads throughout the year

by constructing a 232 km paved road between Pa village, south-west of the country, and the northern border of the Republic of Côte d'Ivoire, formerly "Ivory Coast" which has sea port. The total cost of this project is SR. 203 million. The SFD contribution to this project is SR. 37.50 million.

- **Yegueresso - Diebouyou Road:**

The project mainly aims to facilitate the transport of goods and movement of vehicles to and from the southern and western regions of the Republic of Burkina Faso. It also aims to facilitate access to Ghana Ports, develop its cities and villages, economically and socially develop these regions, contribute to the promotion and development of trade between Burkina Faso and neighboring countries, in particular Ghana and Mali, by constructing and paving a 125 km long road, including the Hamili road link estimated at 6 km long and 7 meters wide with shoulders of 1 meter wide on each side and establishing water drainage facilities. The total cost of the project is SR. 225 million. The SFD contribution to this project is SR. 37.50 million.

- **Koudougou - Dedougou Road:**

The project mainly aims to open up the isolated mid-western regions of the Republic of Burkina Faso, facilitate transport of goods and movement of vehicles, develop the cities and villages in these regions, economically and socially develop these regions and contribute to the development of trade between Burkina Faso and Mali by connecting "Koudougou - Dedougou Road" with another axis linking Burkina Faso and the Mali borders. The project includes establishing and paving a 130 km long road of a width of 7 meters and with shoulders of 1.5 meters wide each side, constructing three bridges, establishing drainage facilities, safety signs and traffic signals, and implementing the complementary works. The total cost of the project is SR. 244.20 million. The SFD contribution to this project is SR. 45 million.

- **Construction of Ouahigouya - Djibo Road:**

The project mainly aims to support and enhance the transport network in the northern regions of the Republic of Burkina Faso and connect them to the international road network adjacent to the borders of the Republic of Mali. This project is a part of the national strategy for the development of the transport sector and enhancement of road infrastructure. It also aims to lift the isolation of the regions that have significant potential in terms of agricultural and pastoral production, mineral wealth and mines, promote tourism sector and provide good structure for the national road network enabling it to fully play its role in the development of the country and trade with the regions of Burkina Faso and abroad. In addition to reducing the costs of vehicles use, goods and people transportation, raising the road security level for users, securing administrative access to the main centers of the administrative areas and facilitating the movement from villages to urban centers. The project consists of the construction of a 115 km asphalt road starting from Ouahigouya, passing through Titao and ending at Djibo. The road has two tracks with 7 meters wide, with shoulders of 1.5 meters wide in each direction in the open areas, and 8 meters wide with shoulders of 2 meters wide in the cities through which the road passes. The total cost of the project is about SR. 306.60 million. The total SFD contribution to this project is SR. 138.75 million.

2. Road Projects in the Republic of Niger:

- **Niamey - Baleyara - Fillingue Road:**

The project mainly aims to support the transportation sector in the southwestern regions in Niger and contribute to lift their isolation by constructing a 180.40 km paved road from Niamey to Fillingue. The project consists of two sections. The first section connects between Niamey and Baleyara with length of 97.8 km. The second section connects between Baleyara and Fillingue with length of 82.6 km and 7 meters wide. It has shoulders of 1.5 meters wide each side. The total cost of the project is SR. 142 million. The SFD contribution to this project is SR. 71 million.

- **Margou - Falmey - Koulou - Gaya Road:**

This project mainly aims to strengthen the road network in the Republic of Niger by constructing a 190 km road with 5 meters wide, and it has side shoulders of 1 meter wide. It connects between Margou - Falmey - Koulou - Gaya. The project includes the construction of two subways to Bumba and Tera. The total cost of the project is SR. 51.76 million. The SFD contribution to this project is SR. 25.88 million.

- **Zinder - Agades Road:**

This project mainly aims to lift the isolation of Republic of Niger and link it to ports and international roads in the neighboring countries by constructing a new paved road " instead of the current road which has become almost useless ". The road connects between Zinder, the commercial capital located in the south of the country, and Agades, the pastoral center in halfway between Zinder and the Algerian borders. The new Road is about 424 km long and 7 meters wide, and it has side shoulders of 1.5 meters wide each. This road is part of the International Trans-Sahara Highway starting from the port of Algiers and ending at the port of Lagos in Nigeria. This project has played a role in linking a large number of villages and pastoral areas to the national road network, facilitating trade in goods, enhancing trade between pastoral areas and agricultural areas and strengthening economic relations with the northern regions of Nigeria. The total cost of the project is estimated at SR. 375 million. The SFD contribution to this project is SR. 35 million.

3. Road Projects in the Republic of Mali:

- **Sevare - Gao Road:**

The project mainly aims to lift the isolation of Gao, Kidal and Tombouctou, reduce migration to urban areas, improve the living conditions of the residents and facilitates the transfer of agricultural crops. This road is the strategic link of the infrastructure of the Republic of Mali. It is the international road to the north and northeast of the country. The project includes the construction of a 570 km asphalt road and 6 meters wide, it has shoulders of 1.5 meters wide

each side. The project also includes the construction of three concrete bridges. The first and second bridges are 30 meters long each. The third bridge is 45 meters long. The total cost of the project is SR. 435.75 million. The Fund has contributed two loans to this project. The first loan amount is SR. 33.35 million, and the second loan amount is SR. 16.58 million.

- **Second Bridge in Bamako:**

The project mainly aims to build a second bridge crossing the Niger River which divides the city into two parts at the capital, Bamako, to facilitate the movement of people and goods. This bridge is constructed due to inefficiency of the current bridge, which no longer meets the needs of the city residents who suffer a severe problem when crossing the river, especially in the peak hours and if there are accidents on the bridge or in the roads leading to it. The new bridge is 770 meters long and 24 meters wide. It serves traffic in both directions. Each direction consists of a track for cars, a track for bicycle and a third track for pedestrians. The total costs of the project is SR. 140 million. The SFD contribution to this project is SR. 67.37 million.

- **Internal Linking Roads in Bamako Area:**

This project mainly aims to improve the condition of the internal road network in Bamako in the Republic of Mali and solve the acute traffic crises that occur during peak hours when crossing from one side of the area to the other. This is achieved through re-paving, re-asphalting and improving some main linking roads. The project consists of the civil works related to the construction of 6 road links with a total length of 39 km. The total cost of this project is SR. 144.40 million. The SFD contribution to this project is SR. 50.51 million.

- **Kayes - Bafoulabe Road:**

The project mainly aims to open up the isolated southwestern region of the country, facilitate the transport of agricultural products and minerals produced by the region and encourage local and regional trade with neighboring countries. It also aims to support, strengthen and integrate the road network in the Republic of Mali. The project consists of civil works and engineering and advisory services necessary for the construction of an asphalt road connecting Kayes to Bafoulabe through Diema. The road is 150 km long and 7 meters wide, and it has shoulders of 1.5 meters wide each side. The road consists of two directions and uses the same existing trail. The project includes the supply of safety signs and construction of water drainage facilities. It also includes the construction of a new bridge for crossing the Senegal River in Bafoulabe city. The bridge is 800 meters long. The total cost of the project is SR. 184 million. The SFD contribution to this project is SR. 35 million.

4. Road Projects in the Republic of Chad:

- **Massakori - N’Gouri - Bol - Niger Border Road (Part: N’Gouri - Bol):**

The project mainly aims to lift the isolation of the northern regions in general, and the villages and communities adjacent to Lake Chad in particular, and contribute to develop the regional economic integration through the international Trans-Sahara Highway linking four countries (Chad, Niger, Mali and Nigeria) with countries in North Africa. The project includes constructing the road connecting between N’Gouri and Bol. This road is a part of the road connecting between the Massakori in the middle of the country and the borders of the Republic of Niger which is 416 Km long. This road is also one of the main pillars of developing the national road network in the country. N’Gouri - Bol Road is 60 Km long. It is the first part of N’Gouri - Bol - Nigeria Border Road, which is 99 Km long. The Government of the Republic of Chad will finance the second part “Bol - Nigeria Border Road” which is 39 Km long. The total cost of this project is estimated at SR. 297.60 million. The SFD contribution to this project is SR. 93.75 million.

Chapter Three

Saudi Export Program Activities

Saudi Export Program Activities in 2017

The Saudi Export Program (SEP) essentially aims to diversify and develop national non-oil exports, increase its competitiveness, make the Saudi exporters feel more confident to enter new markets and to deal with the national commercial banks by offering credit facilities and guarantees to Saudi exporters and national products. In achieving these targets, the SEP offers financing and guarantee services for national products. This part of the report covers the activities of the SEP throughout 2017 in the financing and guarantee of national exports, demonstrates how the program markets its services and gives the Saudi exporter a better idea about them.

1. Export Financing Activities

Export Finance Service mainly aims to secure the necessary finance for exporters and importers of Saudi-made national goods and services. The SEP received a number of finance applications for the export transactions of national goods during the year 2017. In this regard, the Fund approved 6 export transactions of non-crude oil goods for a total value of almost SR. 1330 million. Thus, the total finance transactions approved by the Fund since the inception of the SEP reached 244 transactions which totaled almost SR. 31310 million, 169 of which received direct financing of a total of SR. 27060 million plus 75 credit lines with a total amount of SR. 4250 million. After canceling and reducing the amounts of 80 financing transactions totaling SR. 2610 million for various reasons, the total number of approved export finance applications reached 168 with a total value of SR. 28700 million, of which SR. 25100 million to finance 116 direct transactions and SR. 3600 million to open 52 credit lines in 14 countries.

The approved transactions included exporting fertilizers, urea fertilizers, petrochemicals, pipes and miscellaneous materials to Tunisia, Turkmenistan and Argentina. Approved transactions also included opening 2 lines of credit to export national goods and services with foreign banks in Turkey and Zambia.

Director General of SEP signs a national export financing agreement for Tunisia

Approved Financing Transactions during 2017

2. Export Guarantee Service

The Export Guarantee Service aims to protect the rights of Saudi exporters from the risk of not being paid for their exports. This target is achieved by covering the political and commercial non-payment risks and issuing whole or specific guarantee policies.

A. Whole Turnover Policy: It covers an unlimited number of export transactions for the policyholder to an unlimited number of importers. The policy covers 90% of the losses arising from commercial or political risks. The validity period of this policy is one year and is automatically renewed annually provided that all parties of relevance agree.

B. Specific Transactions Policy: This policy covers one export transaction for one exporter and one importer. It covers 90% of the losses due to commercial or political risks. This kind of policy is of a specified validity and expires at the end of the policy period, which is usual.

C. Cooperation Agreement with Local Banks: This is an agreement concluded between the Fund and one of the local banks, and it aims to enhance the open credit lines for importing Saudi commodities or services and to provide pre- and post-shipment financing guarantees, in addition to cooperation with banks in the exchange of credit information.

The number of guarantee policies approved by the SEP since the launch of guarantee in September 2003 until the end of 2017 came to 64 with a total value of SR. 27500 million, of which 42 guarantee policies amounted to almost SR. 18100 million, 16 specific guarantee policies (open account and credit lines) with a value of about SR. 589 million and 6 guarantee policies enhancing credit lines in favor of local banks with a value of approximately SR. 8850 million. The real exports covered by such policies came to exceed SR. 23080 million, with an increase of 1670 million, representing 7.2% compared to 2016. The coverage includes rotation-operating ceilings, a matter which allowed the reuse of such ceilings.

During the second half of 2017, a comprehensive guarantee policy in an amount of SR. 22.5 million was signed. In addition, 14 export guarantee policies have been renewed (whole turnover guarantee policies and guarantee policies supporting credit lines) with a total amount exceeding to SR. 2800 million. Accordingly, the number of credit lines supported by such policies reached 844 with a total value of SR. 971 million.

Receiving a delegation from the Republic of Bangladesh to see the service provided by SEP

3. Marketing Activities

Introduction:

The Marketing and Information Department introduces the functions of SEP and the finance and guarantee facilities which the SEP offers to exporters and importers of national goods. It also communicates with them in order to achieve the goals that SEP seeks to attain through developing and diverting the national non-oil exports.

The Marketing and Information Department functions are essentially to participate in exhibitions, conferences and various local and international events in order to introduce the SEP. In addition, the Department represents the Fund in the Saudi joint committees as well as business councils supervised by the Council of Saudi Chambers. The Department also coordinates with the Saudi Export Development Authority and the local and foreign chambers of commerce to organize seminars to introduce the SEP services. The Marketing Department also visits the national companies and factories to introduce the financing and guarantee facilities offered by the SEP. These visits give them confidence to enter new markets by reducing non-payment risks.

The Department also handles the registration of exporters and responses to queries received by the SEP. The Department issues various publications of the SEP (Finance Guide, Guarantee Guide, Export Program Guide and Export Program Bulletin issued periodically). The Marketing and Information Department supervise the SEP's website on the internet www.sep.gov.sa.

Activities during 2017:

In pursuit of its introduction of services and facilities to the exporters and importers of national goods, the Program carried out a number of marketing activities, both internally and externally with the aim to achieve its objectives, which included the following:

Issuance of Quarterly Bulletins:

During 2017, SEP issued 4 Export Program Bulletins addressing the news about the activities and facilities provided by the Saudi Export Program during the period, as well as articles and studies related to the national exports and growth.

In-house activities:

• Receiving National and International Teams:

The SEP received, at its headquarter, number of official delegations from China, Italy, Sudan, Bosnia and Herzegovina, Philippines, Sri Lanka, Brazil, Bangladesh and other countries, in addition to representatives of companies and visitors who wish to take advantage of the SEP services. During such visits, they were briefed on the Program's services and facilitations, and means of cooperation between those entities and the Program were also discussed.

External activities:

• Workshops to Introduce Program Services:

In cooperation with the Export Development Authority, the Program participated in 3 workshops in Abha, Dammam and Yanbu, in the presence of representatives from the national companies and factories interested in exporting their products. The workshops included introductory presentations of the Program and its services. Participants were given manuals stating the requirements for obtaining the facilities granted to the exporters of national goods.

• Exhibitions and Conferences:

The Program seeks to participate in exhibitions and conferences related to its fields of business which contributes in introducing the Program and its services. The most important events in which the Program participated are as follows:

- SEP participated in the First Saudi-Sudanese Trade Forum held in Khartoum.
- SEP participated in the Arab-African Economic Forum under the title "Roadmap and Available Funding for Successful Investments" held in Jordan.
- SEP participated in Azerbaijan - GCC Strategic Forum, organized by the Federation of Chambers of the Gulf Cooperation Council (GCC) and the General Secretariat of the Gulf Cooperation Council in Baku, Republic of Azerbaijan.
- SEP participated in Tunisia Investment Forum 2017.

• Committees & Business Councils:

During 2017, the Program participated in a number of business councils and joint committees between the Kingdom and some Arab, Islamic and friendly countries, held inside and outside Saudi Arabia. They are as follows:

- Saudi-Tunisian Committee.
- Saudi-Swedish Committee.
- Saudi-Korean Committee.
- Saudi-Russian Committee.
- Saudi - Turkmen Committee.
- Saudi - Swedish Business Council.
- Saudi - Belgian Business Council.

SEP signs an export guarantee policy with Al Obeikan Glass

By financing projects of the education sector, SFD seeks to contribute to providing qualified and trained capacities in various African countries
