## Foreword

It gives me great pleasure to introduce the SFD's annual report for the fiscal year 2023, that witnessed the SFD's continues pursuit to fulfill the objectives adopted by the government of the Custodian of the Two Holy Mosques and HRH the Crown Prince, Prime Minister - May Allah protect them - to deepen development cooperation with various countries of the world and back the international efforts aiming at overcoming the challenges confronting brotherly and friendly countries and uplifting their level of comprehensive development.

The year of the report had experienced a growth in SFD's lending operations and an expansion of its development activity to include financing new (9) countries that SFD lends them for the first time, with (13) agreements. During the fiscal year, SFD signed (40) development loan agreements with (29) developing countries, including the new countries, with total obligations of SR 7,661 million. That had raised the number of countries financed by SFD since the inception of its activity and up to the end of the fiscal year 2023 to (93) developing countries around the world. Also, the number of loan agreements signed had reached (779) development financing agreements, that made SFD's total financial obligations reaching to SR 77,856 million. By these development projects that it finances, SFD has contributed to maximizing the development impact and strengthening the infrastructure in various sectors to achieve its development goals. SFD has also contributed to deepening the integration of the Saudi economy into both

the regional and global system by giving the chance to the expertise of the Saudi private sector to participate in the execution of the projects it finances.

In conclusion, I emphasize that SFD will continue, God willing, to fulfill its mission entrusted to it as a major supporter in strengthening the Kingdom's role in its development cooperation with the governments and peoples of brotherly and friendly countries in order to accomplish its sustainable development and economic goals.

May Allah give success

**Ahmed bin Aqeel Al-Khateeb**  
Chairman of Board of Directors

Headquarters of SFD in Riyadh

# Overview of the Saudi Fund for Development (SFD)

## Foundation

The Saudi Fund for Development (SFD) was founded by virtue of Royal Decree No. M/48, issued on 14/08/1394 H, corresponding to 01/09/1974. It commenced operations on 18/02/1395 H, corresponding to 01/03/1975.

## Vision

SFD seeks to be a comprehensive and possible strategic partner for sustainable economic development in countries in need.

## Message

SFD supports stable economic development by providing financial, technical and human resources leveraging the strengths of the Kingdom of Saudi Arabia to meet the needs of its partners.

## Objectives

As defined in its Law, SFD main objective is to contribute to financing development projects in developing countries through granting them the necessary loans and technical aids needed for financing studies and institutional support.

## Management & Organization

SFD is a general institution and legal entity of an independent financial status. It is managed by the Board of Directors composed of eleven members. SFD CEO assumes the executive authority and is responsible for the implementation of the Board's decisions.

## Capital

SFD commenced its activity with a capital of ten thousand million Saudi Riyals provided by the Saudi government. This capital then been increased over three phases to reach thirty-one thousand million Riyals.

## Scope of Activity

### Financing Development Projects

The main activity of SFD is to provide soft loans to the governments of developing countries with unlimited territorial scope. SFD deals directly with the governments of developing countries financing priority development projects, with financing priority to the least developed and low-income countries.

- SFD's Law includes the basic rules for providing development loans.
- Development loans for financing development projects.
- The following conditions have to be met to obtain SFD loans:

1. The project to be financed in the recipient country shall be proved economically or socially feasible.
2. The finance of the entire project for which the loan is provided shall be available.
3. The loan must be paid and repaid in Saudi Riyals.
4. The loan amount granted to any project shall not exceed 5% of SFD's capital.
5. The total loan amounts granted to any country in one time shall not exceed 10% of SFD capital.

**H.E. Chairman of the Board of SFD, Mr. Ahmed bin Aqeel Al-Khateeb, signed two development agreements with H.E. Minister of Finance of Saint Vincent and the Grenadines, Mr. Camillo Gonsalves**

H.E. The Honourable Aqeel bin Khateeb  
Chairman of the Board  
SFD

H.E. The Honourable Camillo Gonsalves  
Minister of Finance  
Saint Vincent and the Grenadines

# Trends of Loans Provided by SFD

## 01 Geographical

Most of SFD Activity is in Africa and Asia and the Pacific.

Assisting Developing Countries that are Unable to Achieve Global Development Goals.

Supporting Developing Countries with Limited Economic and Financial Resources, which are:

In Need of Fundamental Development Assistance

Less Developed

Facing Economic and Social Challenges, Such as Lack of Natural Resources and High Population Growth Rates

Landlocked and Non-Coastal

Heavily Poor

SFD Loans are Directed Toward:

## 02 Sectorial

Focusing on Economic and Social Sectors of Priority for Development Countries.

Preserving the Environment and Public Health

Ensuring Food and Water Security

Strengthening Protection Against Diseases and Epidemics by Supporting the Health Sector

Providing Adequate housing for Low - Income Groups

Developing Industry and Mining Business

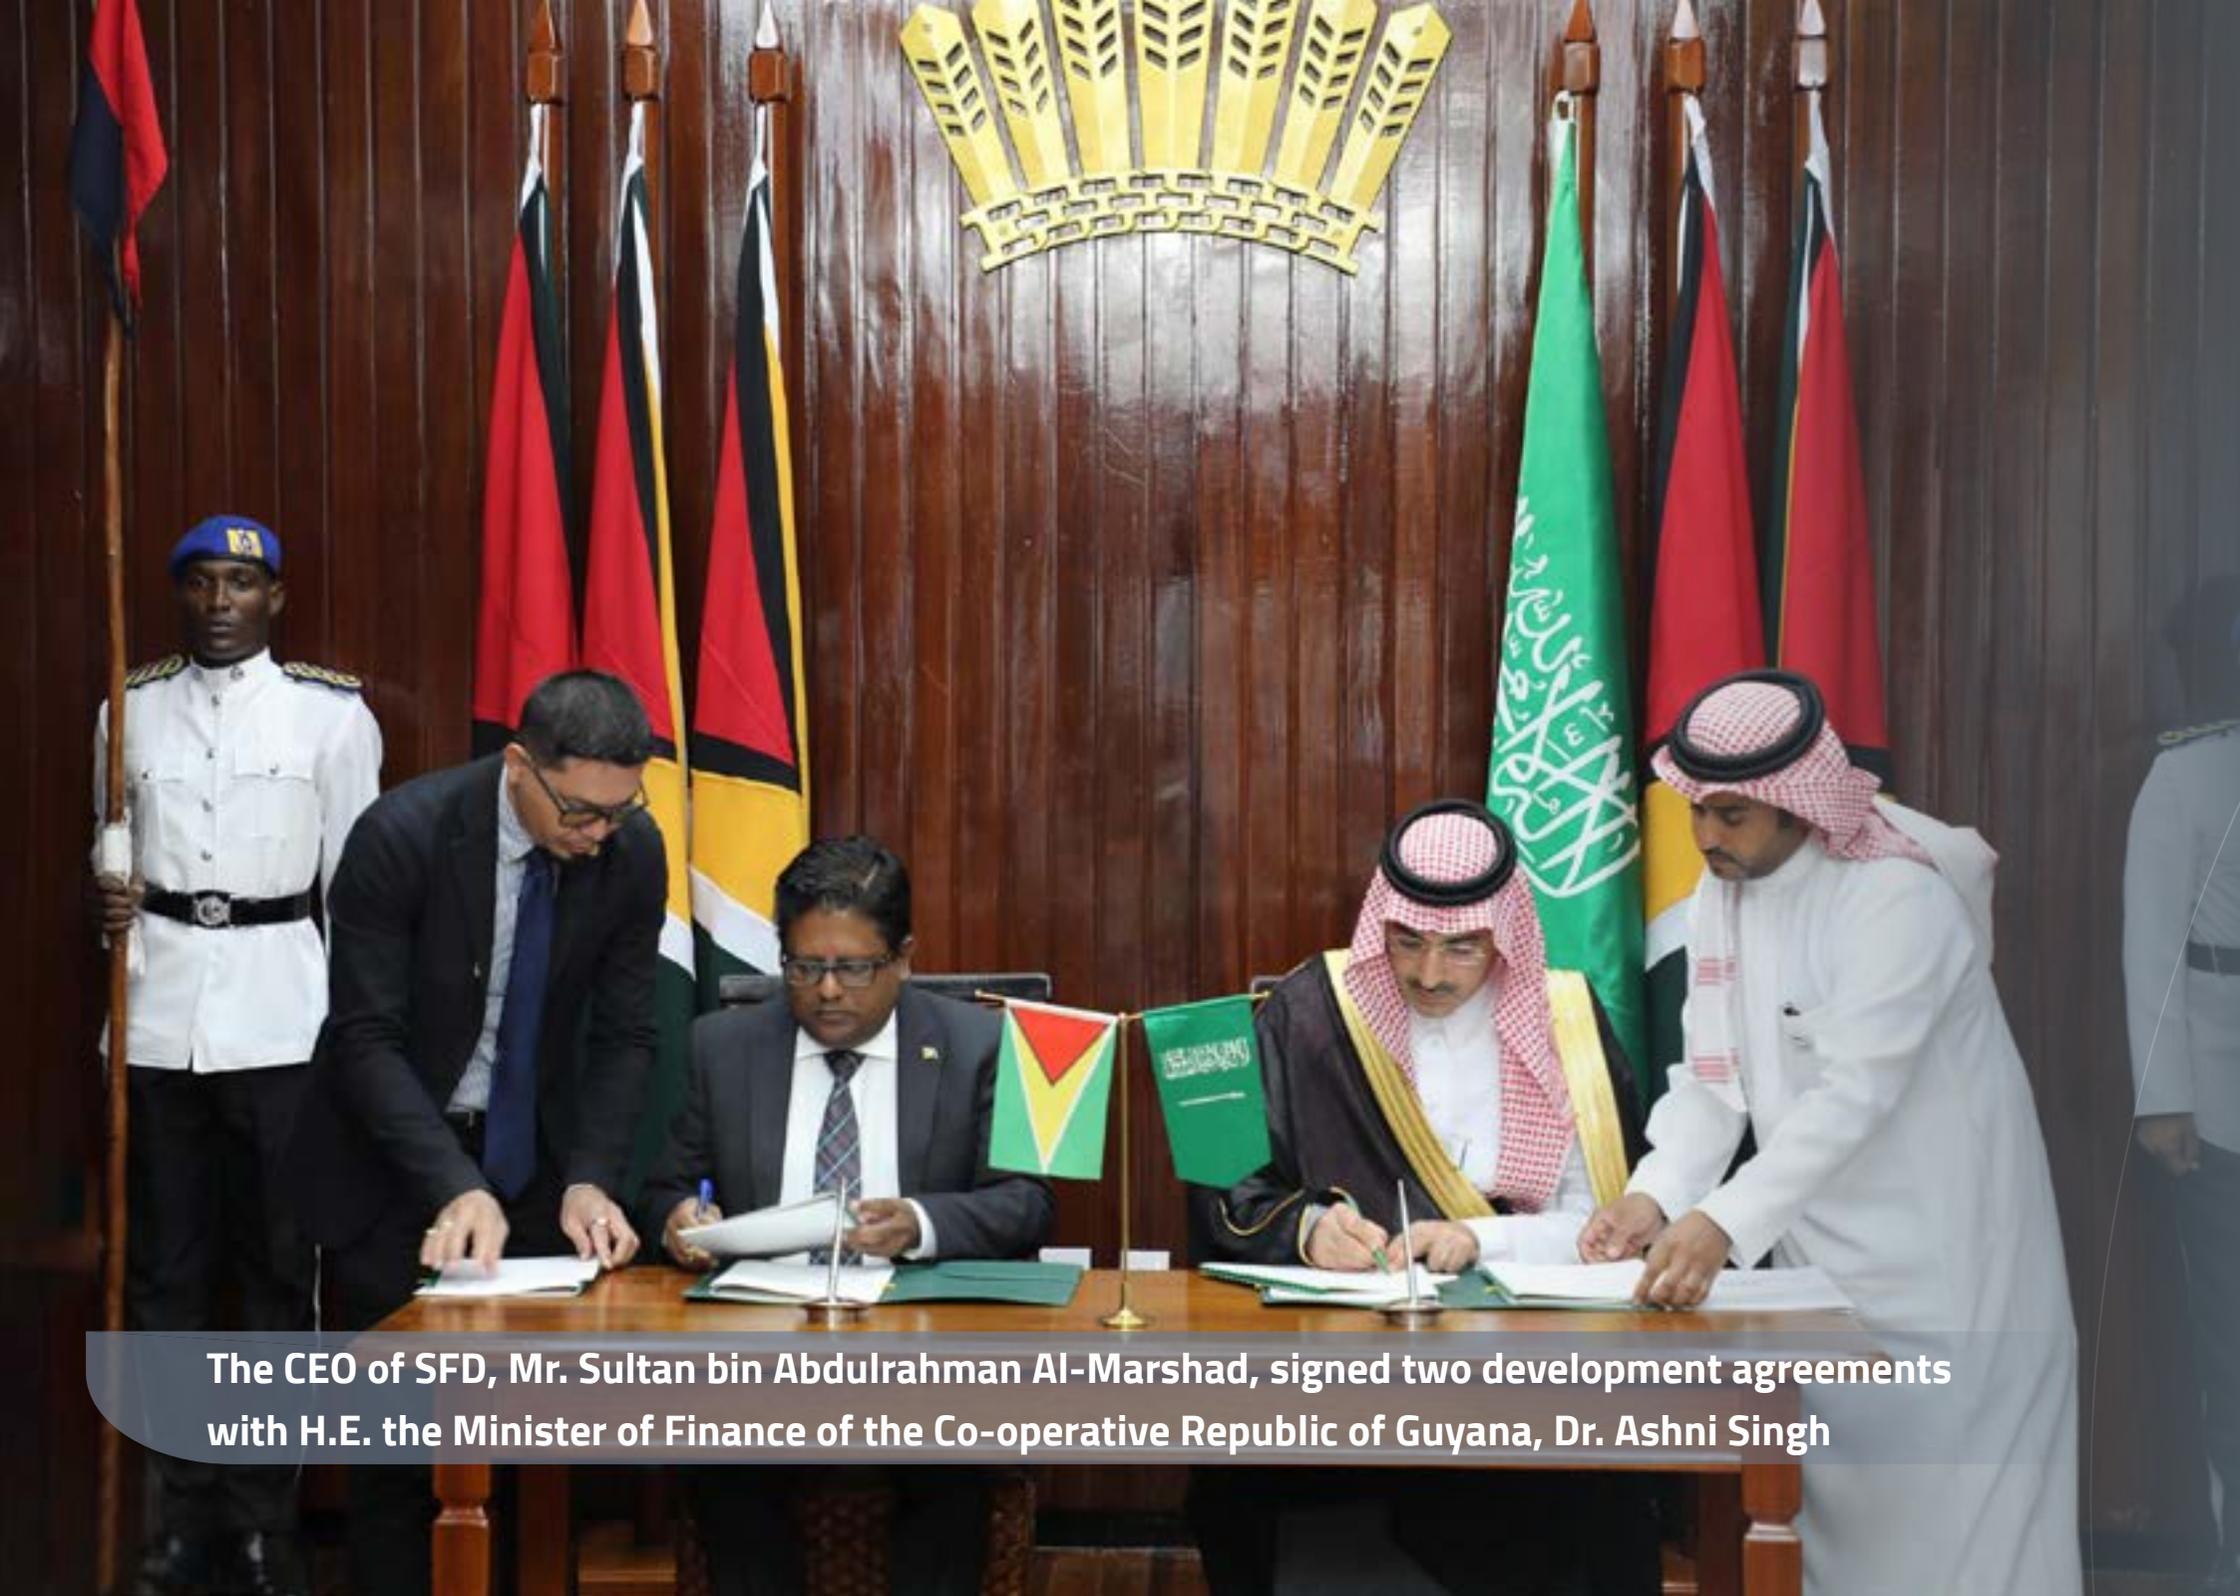

Developing Basic Infrastructure by Expanding Transport and Communication Networks

Providing Energy for All

Developing Human Resources

The CEO of SFD, Mr. Sultan bin Abdulrahman Al-Marshad, signed two development agreements with H.E. the Minister of Finance of the Co-operative Republic of Guyana, Dr. Ashni Singh

# Chapter One

## Development Activity during Fiscal Year (2023)

First: Signed Loan Agreements

Second: Sectorial Distribution of Signed Loan Agreements

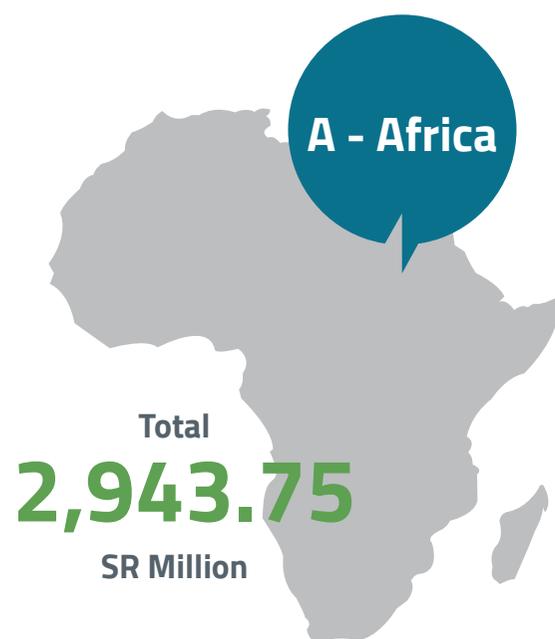

Third: Signed Projects

Fuorth: Co-Financing of Signed Loan Agreements

Fifth: Loans Approved by the Board of Directors

## First: Signed Loan Agreements

During the fiscal year 2023, SFD continued its lending activity financing priority economic and social development projects in developing countries and signing 40 loan agreements, including additional loans with 29 developing countries, totaling SR 7,661.26 million. Among these projects were 21 projects in Africa with a total amount of SR 2,943.75 million, 5 projects in Asia and the Pacific with a total amount of SR 1,838.75 million, and 14 projects in the Latin American and Caribbean continent with a total amount of SR 2,878.76 million. It is noteworthy that SFD expanded its lending activity during the fiscal year 2023 to cover 9 new countries (Angola, Antigua and Barbuda, Saint Vincent and Grenadines, Belize, Guyana, the Bahamas, Saint Lucia, Grenada, and Argentina) as shown in the below table:

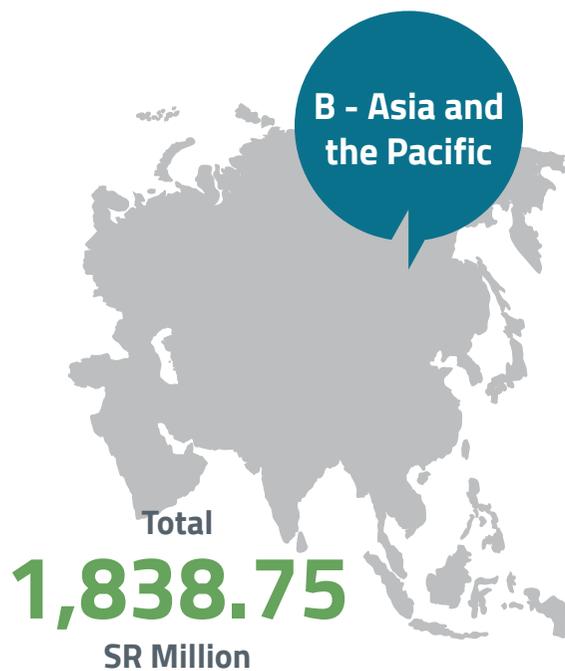

(SR Million)

A - Africa	Project Name	Loan Amount	Date of Signing Agreement
Rwanda	Delivering Electricity to Some Areas	75.00	11/07/2023
	Expansion of Water Transmission and Distribution Systems in the East of the Capital, Kigali	75.00	09/11/2023
Uganda	Building and Equipping a Cardiac Center	112.50	06/09/2023

<b>Total (A + B + C)</b>	<b>7,661.26</b>
--------------------------	-----------------

## Second: Sectorial Distribution of Signed Loan Agreements

During 2023, SFD financed a number of development projects in several vital sectors, including the social infrastructure, transportation and communication, energy, agriculture, and other sectors. Among these projects, 27 projects were financed in the social infrastructure sector, representing 64.89% of the total finance, followed by the energy sector, with 5 projects finances representing 22.04%, and 5 projects in the transportation and communications sector representing 10.77%, in addition to financing two projects in other sectors representing 1.47%, and one project in the agricultural sector representing 0.83% of the total finance, as shown in the table below :

(SR Million)

Sector	Number of Projects	Amount	Percentage of Total Finance
Social Infrastructure	27	4,971.26	64.89
1. Water and Sewage	7	1,442.51	18.83
2. Education	6	817.50	10.67
3. Health	9	1,492.50	19.48
4. Housing and Urban Development	5	1,218.75	15.91
Energy	5	1,688.75	22.04
Transportation and Communications	5	825.00	10.77
1. Roads	4	562.50	7.34
2. Airports	1	262.50	3.43
Other Sectors	2	112.50	1.47
Agriculture	1	63.75	0.83
Total	40	7,661.26	100.00

## Third: Signed Projects

### Project Name

Delivering Electricity to Some Areas

#### Expected Date of Completion

December 2028

#### Executing Agency

Energy Development  
Company Limited

#### SFD Contribution

75  
(SR Million)

#### Date of Signing Agreement

11/07/2023

#### Total Costs of the Project

154.50  
(SR Million)

## Rwanda

### Objectives and Description of Project

The project aims to deliver electricity to some areas in the Republic of Rwanda to promote economic and social development. The implementation of this project comes within the framework of the National Strategy for Transformation (NST1), which aims to deliver electricity to beneficiaries close to the current network in the three most needy areas, namely: Muhanga, Kamunya, and Jakinka. This project contributes to delivering electricity to homes and social and government facilities at an affordable prices and in a highly reliable manner, thus enhancing economic, agricultural and industrial activities, and leading to increased job opportunities, and increasing income and improving living conditions of the population. More than 60 thousand people will benefit from this project.

## Project Name

Expansion of Water Transmission and Distribution Systems in the East of the Capital, Kigali

### Expected Date of Completion

December 2027

### Executing Agency

Water and Sanitation Corporation (WASAC)

### SFD Contribution

75  
(SR Million)

### Date of Signing Agreement

09/11/2023

### Total Costs of the Project

416.25  
(SR Million)

## Rwanda

### Objectives and Description of Project

This project aims to provide potable water and increase its production in the Kigali and Rwamagana areas of Rwanda. This will be achieved by expanding existing water transmission systems, laying new pipelines, and increasing water storage capacity by building new reservoirs in several areas east of the capital Kigali. The project will also expand water distribution networks in some areas and improve existing networks. More than 500,000 people will benefit from the project after its completion.

## Project Name

Building and Equipping a Cardiac Center

### Expected Date of Completion

December 2026

### Executing Agency

Ministry of Health

### SFD Contribution

112.50  
(SR Million)

### Date of Signing Agreement

06/09/2023

### Total Costs of the Project

273.75  
(SR Million)

## Uganda

### Objectives and Description of Project

The project aims to develop the health sector in the Republic of Uganda, and increase the capacity of cardiovascular medical centers, thus reducing the number of cases receiving treatment abroad. This project will lead to improving healthcare services provided at Uganda Heart Institute, and increasing people's awareness of cardiovascular diseases, increasing the number of skilled and qualified medical personnel in the field of cardiovascular diseases, and training those personnel through specialized courses and workshops.

## Project Name

Construction of the Desangel River Dam

### Expected Date of Completion

December 2028

### Executing Agency

Ministry of Energy  
and Public Utilities

### SFD Contribution

262.50  
(SR Million)

### Date of Signing Agreement

27/09/2023

### Total Costs of the Project

740.62  
(SR Million)

## Mauritius

### Objectives and Description of Project

This project aims to secure a sustainable supply of drinking water in the Republic of Mauritius, to satisfy the high demand for water in the southern part of the country. This project will contribute to enhancing economic, social, commercial and agricultural development, and stimulating the tourism sector by providing adequate supplies of drinking water to resorts and hotels to be constructed in the future in the southern region. After completion, the project will harness additional water resources to meet the current and future water demand for various sectors in southern Mauritius and part of the southeast and southwest regions.

## Project Name

### Social Housing

#### Expected Date of Completion

December 2025

#### Executing Agency

Ministry of Lands, Housing & Infrastructure Agency

#### SFD Contribution

**56.25**  
(SR Million)

#### Date of Signing Agreement

29/09/2023

#### Total Costs of the Project

**56.25**  
(SR Million)

## Seychelles

### Objectives and Description of Project

This project aims to support the housing sector in the Republic of Seychelles, providing housing units at affordable prices to low-income families. The project will include construction of 3-floor and 4-floor buildings in different locations in the country. Each building will contain 8 apartments with areas ranging from 70 - 85 m<sup>2</sup>. The project also includes the construction of public service utilities, rainwater drainage and sewage works. This project will improve the quality of life and living conditions of the population, and will enhance equality and cohesion among society members.

## Project Name

### Reconstruction of La Digue School

#### Expected Date of Completion

December 2026

#### Executing Agency

Ministry of Education & Infrastructure Agency

#### SFD Contribution

**37.50**  
(SR Million)

#### Date of Signing Agreement

29/09/2023

#### Total Costs of the Project

**42.37**  
(SR Million)

## Seychelles

### Objectives and Description of Project

The project aims to support the education sector in the Republic of Seychelles providing a modern educational environment by reconstructing La Digue School and adding new facilities to it. This includes creating a multi-purpose play court for various sports, a children's playground, an open stadium, and areas for parking bicycles. After its completion, this project will provide a sophisticated educational infrastructure for students on La Digue Island contributing to improving the educational process.

## Project Name

Completion of a Number of Projects  
Within the Reconstruction Program  
(Additional Loan)

### Expected Date of Completion

December 2027

### Executing Agency

Ministry of Economy, Planning and  
International Cooperation

### SFD Contribution

**75**  
(SR Million)

### Date of Signing Agreement

1/10/2023

### Total Costs of the Project

**75**  
(SR Million)

## Central Africa

### Objectives and Description of Project

This project aims to complete the runway works at the Bangui M'Poko International Airport in the state's capital. The project will contribute to improving navigation, promoting economic and social development, and creating job opportunities in the air transport sector. The project will also include constructing and equipping a hospital with a capacity of 250 beds in the capital to support the health system and improve the quality of healthcare services provided to the population, ensuring good access to such services, in addition to meeting the country's needs for advanced health services for women and children to reduce maternal, infant and newborn mortality.

## Project Name

Manga Regional Hospital (Phase II)

### Expected Date of Completion

January 2025

### Executing Agency

Ministry of Economy,  
Finance and Development

### SFD Contribution

63.75  
(SR Million)

### Date of Signing Agreement

09/11/2023

### Total Costs of the Project

70.40  
(SR Million)

## Burkina Faso

### Objectives and Description of Project

The project aims to enhance the quality of healthcare services in the Republic of Burkina Faso by constructing and equipping Manga Regional Hospital and converting the same from a regional hospital (CHR) to a regional university hospital (CHUR). This will be achieved through the construction of 25 facilities on an area of 17,000 sq. m, and the establishment of an auditorium for training that can accommodate up to 200 trainees. This project will contribute to improving the efficiency of university training for future physicians and enhancing and developing the process of scientific research in the field of healthcare services.

## Project Name

Rehabilitation of King Khalid  
Hospital in Bujumbura

### Expected Date of Completion

December 2029

### Executing Agency

Ministry of Higher Education and  
Scientific Research

### SFD Contribution

**187.50**  
(SR Million)

### Date of Signing Agreement

09/11/2023

### Total Costs of the Project

**331.87**  
(SR Million)

## Burundi

### Objectives and Description of Project

This project aims to improve the quality of healthcare services in Burundi and meet the growing demand for these services. This will be achieved by renovating and expanding the existing three-story hospital building and constructing a new three-story building on an area of approximately 7,000 sq. m. The new building will include outpatient clinics, hospital administration, radiology department, sterilization department, emergency department, pediatrics and maternity clinic, technical department, surgery and hospitalization department. The project will contribute to reducing maternal, infant, and neonatal mortality, lowering the mortality rate from communicable diseases, combating chronic and NCDs, strengthening the health system by improving the quality and accessibility of healthcare for the population, and increasing the capacity for training healthcare professionals.

**Project Name**  
Building and Equipping Secondary Boarding  
Schools for Girls in Several Regions

**Expected Date of Completion**

December 2027

**Executing Agency**

Department of School  
Infrastructure and Equipment

**SFD Contribution**

**105**  
(SR Million)

**Date of Signing Agreement**

09/11/2023

**Total Costs of the Project**

**105**  
(SR Million)

**Niger**

**Objectives and Description of Project**

This project aims to increase the percentage of girls enrolled in secondary schools in rural areas of Niger and improve the quality of education and gender equality in access to education. This will be achieved by constructing and equipping boarding secondary schools for girls in several areas. The project includes the construction of buildings for 40 girls' secondary schools located in suitable areas that are centrally located between rural areas and villages to facilitate access to educational facilities. The project works will include the construction of dormitories for students, administrative staff, guards, a kitchen, and a restaurant, and equipping them with furniture and toilets. A fence will also be built around these schools to turn them into girls' boarding schools. All schools will be equipped with solar energy.

## Project Name

Electricity Transmission line Between the Cities of Benaco and Kyaka

### Expected Date of Completion

December 2027

### Executing Agency

Tanzania Electric Supply Company Limited (TANESCO)

### SFD Contribution

**48.75**  
(SR Million)

### Date of Signing Agreement

09/11/2023

### Total Costs of the Project

**396**  
(SR Million)

## Tanzania

### Objectives and Description of Project

This project aims to improve the infrastructure of the electricity grid in Tanzania and increase the efficiency and effectiveness of the services provided to citizens. The project will contribute to strengthening the competitiveness of the agricultural, commercial, and industrial sectors by improving the energy supply and increasing its efficiency and reliability in the Northern Lake Zone. In addition, the project seeks to provide electricity to the cities of Benaco and Kyaka and other cities along the 166 km transmission line. Moreover, this project will effectively contribute to creating new job opportunities and enhancing the human resources in the energy sector to meet both current and future sectoral needs.

## Project Name

Establishing and Equipping the Riyadh Reference Hospital

### Expected Date of Completion

December 2025

### Executing Agency

Medical Engineering Sector and Civil Works Sector of Sierra Leone Ministry of Health and Sanitation

### SFD Contribution

187.50  
(SR Million)

### Date of Signing Agreement

09/11/2023

### Total Costs of the Project

187.50  
(SR Million)

## Sierra Leone

### Objectives and Description of Project

This project aims to develop the health sector in Sierra Leone and improve the quality of healthcare services provided to citizens. This will be achieved through the construction and equipment of a new 150-bed referral hospital to serve over 300,000 patients annually. The hospital will consist of basic care units such as general surgery unit, operating room (OR), accident and emergency (A&E) department, pediatrics, internal medicine, gynecology and obstetrics, nursery, and technical and administrative support units. Furthermore, this project aims to support the efforts of the Government of Sierra Leone in its quest to achieve SDG 3 on "Good Health and Well-being," ensuring that everyone enjoys a healthy and disease-free life.

## Project Name

Construction and Rehabilitation of  
Mangochi-Makanjira Road

### Expected Date of Completion

December 2028

### Executing Agency

Malawi Roads Authority

### SFD Contribution

**75**  
(SR Million)

### Date of Signing Agreement

09/11/2023

### Total Costs of the Project

**75**  
(SR Million)

## Malawi

### Objectives and Description of Project

This project aims to develop the transportation sector in the Republic of Malawi to facilitate mobility, trade, and tourism in support of sustainable economic growth and regional integration. This will be achieved through the construction and rehabilitation of the 101 km Mangochi-Makanjira Road located in the southeast of the country. The project will lead to increased trade and regional exchange, and enhance Malawi's competitiveness. Improved road conditions will also lead to an overall reduction in transportation costs and travel time.

**Project Name**  
Rehabilitation and Upgrade of  
Two Parts of National Road No. (1)

**Expected Date of Completion**

January 2029

**Executing Agency**

National Road  
Administration (ANE)

**SFD Contribution**

**187.50**  
(SR Million)

**Date of Signing Agreement**

09/11/2023

**Total Costs of the Project**

(SR Million)

## Mozambique

### Objectives and Description of Project

This project aims to develop Mozambique's transportation sector by rehabilitating and upgrading two sections of National Road No. (1) to connect the southern and northern regions. This will have a positive impact on supporting the government's future plan to develop the northern region and raise its development level through the implementation of development and investment projects. The project will directly contribute to promoting economic and social development and increasing investment opportunities, in addition to reducing transportation costs and minimizing traffic accidents.

### Project Name

Establishing and Equipping Five Hospitals in Different Regions

## Mozambique

### Objectives and Description of Project

This project aims to improve the healthcare services provided to citizens in Mozambique, especially in remote areas. This will be achieved by building five hospitals in several areas and equipping them with modern medical equipment and supplies. These hospitals will add a total bed capacity of 300 beds to the healthcare system, which will have a positive impact on strengthening healthcare at the national level and contributing to reducing disease and mortality rates. In addition, the project aims to facilitate access for citizens from remote areas to hospitals to benefit from essential healthcare services.

## Mozambique

### Objectives and Description of Project

This project aims to provide potable water to Mozambique's populace through the construction of a 3.36 MCM, 15-meter-tall concrete dam for water collection and storage. Additionally, it will include the installation of a dam gate, basin, and spillway for managing excess water. This will ensure access to safe and clean water for all residents in the Mueda region, fostering equitable and sustainable water provision while enhancing the economic viability of water infrastructure.

## Project Name

Establishment of the Higher College for Teachers and the Scientific Secondary School

### Expected Date of Completion

December 2026

### Executing Agency

Agency for Professional Development and Education

### SFD Contribution

150  
(SR Million)

## Benin

### Objectives and Description of Project

This project aims to develop secondary education in Benin and improve teacher performance and educational infrastructure. This will be achieved by establishing the Higher College for Teacher Training and the Scientific High School. This will contribute to creating job and economic opportunities for citizens and companies, with a particular focus on youth and women. This will be achieved by improving the quality and relevance of technical and vocational education and training services to develop educational skills to meet the needs of the labor market in priority economic sectors and improve the level of knowledge and skills among employees.

## Project Name

Reclamation and Rehabilitation of Water Reservoirs on the Islands of Santiago, Santo Antao and Boavista

### Expected Date of Completion

December 2026

### Executing Agency

Ministry of Agriculture and Environment, represented by General Directorate for Agriculture, Forestry and Livestock

### SFD Contribution

63.75  
(SR Million)

### Date of Signing Agreement

09/11/2023

(SR Million)

## Cape Verde

### Objectives and Description of Project

This project aims to develop the agricultural sector in Cape Verde, aiming to enhance food security, alleviate poverty, create job opportunities, and enhance the living standards of local residents. This will be achieved by reclaiming and developing irrigation water basins and expanding irrigated agricultural areas. The project will also develop and maintain the sustainability of agricultural land by constructing soil erosion protection facilities and adapting agricultural activities to climate change by intensifying awareness and guidance campaigns and training beneficiaries on modern agricultural techniques.

## Project Name

Development of the Catumbela Industrial Park in Benguela Province (Phase I)

### Expected Date of Completion

December 2027

### Executing Agency

Ministry of Industry and Trade

### SFD Contribution

375  
(SR Million)

### Date of Signing Agreement

09/11/2023

### Total Costs of the Project

393.75  
(SR Million)

## Angola

### Objectives and Description of Project

This project aims to promote sustainable social and economic development in Angola by developing and equipping the Catumbela Industrial Zone on an area of 1.9 million square meters. This aims to attract global companies to relocate their factories to manufacture, process, and export products and materials. Additionally, the project aims to boost the country's economy, create job opportunities, and increase investments. The project includes infrastructure development, including road surface, provision of electricity, water, and sewage networks, and fire systems. It also includes paving pedestrian pathways, establishing parks, and protected areas.

## Project Name

Establishing and Equipping a Reference Hospital for Mothers and Children

### Expected Date of Completion

December 2025

### Executing Agency

General Directorate of Public and Private Health Facilities at Ministry of Health

### SFD Contribution

281.25  
(SR Million)

### Date of Signing Agreement

09/11/2023

### Total Costs of the Project

281.25  
(SR Million)

## Guinea

### Objectives and Description of Project

The project aims to develop the healthcare sector in the Republic of Guinea to meet the growing demand for healthcare services. This will be achieved by establishing and equipping a specialized referral hospital for maternal and child care with a capacity of 200 beds. The hospital will be located in the Kénendé region, situated 40 km east of the capital city, Conakry. This project will ensure that women and children have access to high-quality healthcare services to reduce maternal, infant, and neonatal mortality rates

## Project Name

Establishing and Equipping  
Specialized Institutes in Vital Fields

300  
(SR Million)

## Antigua and Barbuda

### Objectives and Description of Project

The project aims to upgrade higher education and promote scientific innovation in the Republic of Antigua and Barbuda, for a positive transformation of the Caribbean region in the field of education, through the expansion of the University of the West Indies by adding new educational facilities, thus contributing to increasing the university's capacity from 600 to 5000 students, who will benefit from the educational services provided in these facilities.

## Project Name

Rehabilitation and Completion of the Water, Sewage, and Rainwater Drainage Ssystem in the Center and West of Havana Region

### Expected Date of Completion

December 2025

### Executing Agency

National Institute of Water Resources

### SFD Contribution

131.25  
(SR Million)

### Date of Signing Agreement

19/05/2023

### Total Costs of the Project

273.37  
(SR Million)

## Cuba

### Objectives and Description of Project

The project aims to provide water and Sewage services to the residents of Havana city in the Republic of Cuba, through the construction and rehabilitation of a main water line network with a total length of 30 km, and the construction and rehabilitation of a water distribution network with a total length of 172.4 km, in addition to the construction and rehabilitation of sewage networks with a length of 26.6 km. This project also includes the establishment of a main submarine pipeline to transport water with a capacity of 900 liters per second, and channels 6 km long to drain floods and rainwater. This project will contribute directly to supporting economic and social development, enhancing the quality of life and public health of the city's residents, and improving the level of services provided to them.

## Project Name

Rehabilitation of Water, Sewage and Rainwater Systems in the City of Jatibonico in Sancti Spiritus Region

### Expected Date of Completion

December 2025

### Executing Agency

National Institute of Water Resources

### SFD Contribution

**36.26**  
(SR Million)

### Date of Signing Agreement

19/05/2023

### Total Costs of the Project

**100.87**  
(SR Million)

## Cuba

### Objectives and Description of Project

The project aims to support social development and improve the quality of water and sewage services in Jatibonico city in Sancti Spiritus region to meet the high demand for drinking water and sewage services, by rehabilitating and developing water supplies and sewage systems, and replacing existing water pumping plants with new ones powered with renewable energy. The project also includes rehabilitation of 12 km of main water supply pipes and replacement of the water withdrawal pipe that takes water from the dam. This project aims to enhance and promote hygiene and public health for the city's residents, and back the government efforts towards achieving its goal, namely to achieve universal and equitable access to safe and affordable drinking water for all by 2023.

## Project Name

Establishing a Cultural Center and a Market for Craft and Agricultural Products in BelleVue

### Expected Date of Completion

December 2025

### Executing Agency

Ministry of Tourism

### SFD Contribution

37.50  
(SR Million)

### Date of Signing Agreement

26/05/2023

### Total Costs of the Project

(SR Million)

## Saint Vincent and the Grenadines

### Objectives and Description of Project

The project aims to support and promote the crafts and handicraft industries of the Republic of Saint Vincent and the Grenadines, and to contribute to the economic growth and development of the country, by establishing a facility to exhibit the cultural performances and craft products to citizens and tourists. This will create new and sustainable job opportunities for the local population, and contributes to present and exhibit the popular and cultural heritage of the state. The project also includes building a cultural center for the arts and a market for craft, cultural and agricultural products, for exhibiting the social and cultural activities and improving the community livelihoods. It also includes a building for performing arts, a market for craft, cultural and agricultural products to display craft and agricultural products, and markets for handicrafts. The project also includes a cafeteria, lounge, administrative area, and parking lot.

## Project Name

Establishment of a Healthcare Facility  
in South Rivers

### Expected Date of Completion

December 2025

### Executing Agency

Ministry of Health, Wellness and  
Environment

### SFD Contribution

22.50  
(SR Million)

### Date of Signing Agreement

26/05/2023

### Total Costs of the Project

26.55  
(SR Million)

## Saint Vincent and the Grenadines

### Objectives and Description of Project

The project aims to develop health services in the Republic of Saint Vincent and the Grenadines, improve the quality of the health system infrastructure and provide modern medical equipment, through the establishment of a primary care facility in South Rivers city with a total estimated area of 460 m<sup>2</sup>, consisting of three floors with a capacity of up to 10 beds. The facility contains a dental clinic, an HIV follow-up clinic, a non-communicable diseases clinic, a family planning clinic, physical therapy and psychological care. The project includes supply of electrical and mechanical systems, equipment and medical devices, in addition to office furniture.

## Project Name

Tertiary Hospital in the Capital, Belmopan

### Expected Date of Completion

December 2028

### Executing Agency

Ministry of Economic Development

### SFD Contribution

(SR Million)

## Belize

### Objectives and Description of Project

The project aims to develop health services in the Republic of Belize, by strengthening the health infrastructure in the city of Belmopan, providing cutting-edge medical equipment, and training health personnel and students at the University of Belize to provide integrated health services to citizens. The project will contribute to easing the burden on Karl Heusner Hospital by establishing a Tertiary hospital, with a capacity ranging between 150-200 beds. The project also includes supply of medical equipment, furnishing, and installing electrical and mechanical systems for the hospital building, in addition to training medical personnel on using the equipment and health system. The hospital is expected to serve about 200,000 citizens per year.

## Project Name

Establishment of a Solar Power Station

### Expected Date of Completion

December 2026

### Executing Agency

Ministry of Economic Development

### SFD Contribution

**288.75**  
(SR Million)

### Date of Signing Agreement

04/08/2023

### Total Costs of the Project

**300**  
(SR Million)

## Belize

### Objectives and Description of Project

This project aims to support and promote green energy in the Republic of Belize, through the establishment of solar energy plants with a total capacity of no less than 60 megawatts, and the supply and installation of solar panels. Through the improvement of production and consumption efficiency to reach at least 100 Gwh/year, this project will contribute to reducing CO2 emissions by 60 thousand tons of co2 equivalent per year. . The project will also add at least 60 megawatts of green energy to the national electricity grid, which would result in improved reliability of electricity grid and reduced cost of electricity, as well as promoting the energy sector in a way that contributes to economic development, enabling economic diversification, enhancing the country's competitiveness, and reducing reliance on importing energy from neighboring countries. The project will also limit the outflow of foreign exchange by paying for energy in Belize dollar.

# Chapter Two

## Cumulative Development Activity Up to the End of the Fiscal Year (2023)

- SFD's Cumulative Contributions
- Geographical Distribution of the Total Number and Amount of SFD's Projects and Programs
- Sectorial Distribution of the Total Number and Amount of SFD's Projects and Programs
- Sectorial and Geographical Distribution of the Total Number and Amount of SFD projects and programs
- Geographical Distribution of the Total Number and Amount of Social Infrastructure Projects and Programs
- Geographical Distribution of the Total Number and Amount of Transportation and Communications Projects and Programs
- Geographical Distribution of the Total Number and Amount of Projects and Programs in the Remaining Sectors
- Cumulative Co-financing
- Cumulative Disbursements
- Development Grants Projects That the SFD Pays from its Own Resources on Behalf of the Kingdom's Government

# SFD's Cumulative Contributions

Since the beginning of its lending activity back in (1975) until the end of the fiscal year (2023), SFD financed a total of 779 development loans to finance 739 development projects and programs with a total of SR 76,951.31 million in 93 developing countries in various regions of the world. In addition to signing 2 financing agreements with the International Development Association (IDA) for a total of SR 904.94 million, thus, the total provided by SFD reach SR 77,856.25 million, as shown in the following figures:

(SR Million)

International Organizations  
International Development  
Association (IDA)

Total Number of Projects and  
Programs and International  
Organizations Agreements

\*The reason that the number of signed loan agreements exceeds that of projects and programs is that some projects received more than one loan.

## Geographical Distribution of the Total Number and Amount of SFD's Projects and Programs

In the geographical distribution of its assistance, SFD focuses on financing development projects in developing countries around the world without exception. It focuses on the least developed and the poorest countries. In this context, SFD has directed most of its assistance towards Africa and Asia and the Pacific due to their low level of economic and social development, and their urgent need to develop the basic infrastructure necessary to provide services and develop human capacities; thus, contributing to achieving sustainable development. As such, SFD has financed 433 development projects and programs in 47 African countries with a total of SR 43,057.56 million and contributed to the financing of 271 development projects and programs in 31 Asia and the Pacific countries with a total of SR 29,192.86 million. It also financed 14 development projects and programs in 4 European countries with a total of SR 1,136.17 million. In addition, SFD financed 21 development projects in Latin America and the Caribbean with a total amount of SR 3,564.72 million, benefiting 11 countries. It should be noted that SFD signed 2 financing agreements with the International Development Association (IDA) for a total of SR 904.94 million.

## Sectorial Distribution of the Total Number and Amount of SFD's Projects and Programs

SFD contributed to supporting development projects in various infrastructure sectors identified within the framework of its development activity, including the infrastructure and production sectors, such as transportation and communications, social infrastructure, agriculture, energy, and industry and mining. The social infrastructure sector ranked first among the sectors financed by SFD, with 254 development projects and programs. Ranking second is the transportation and communications sector with 234 development projects and programs. Furthermore, the agriculture sector ranked third with 98 funded development projects and programs. Also, the energy sector ranked fourth with a total of 82 SFD-funded development projects and programs. In other sectors, SFD funded 55 development projects and programs. As for the industry and mining sector, SFD funded 16 development projects and programs. Lastly, SFD also signed 2 financing agreements with international organizations.

(SR Million)

## Sectorial and Geographical Distribution of the Total Number and Amount of SFD Projects and Programs

Since the start of its development activity until the end of 2023, SFD has contributed to the financing of 739 development projects and programs. The finance included social infrastructure, transportation and communications, agriculture, energy, industry, mining and other sectors. Many countries in Africa, Asia and the Pacific, Europe and Latin America and the Caribbean benefited from this finance. It included 433 development projects and programs in Africa with a total of SR 43,057.56 million; 271 development projects and programs in Asia and the Pacific with a total of SR 29,192.86 million; 14 development projects and programs in Europe with a total of SR 1,136.17 million, and 21 development projects and programs in Latin America and the Caribbean with a total of SR 3,564.72 million. SFD also signed two loan agreements with international organizations for a total of SR 904.94 million.

# Project in the Spotlight

- SFD's Efforts to Enhance Water Security in Developing Countries
- The Contribution of the Private Sector in the Kingdom of Saudi Arabia to the Implementation of Projects Financed by SFD

## SFD's Efforts to Enhance Water Security in Developing Countries

Water is the source of life on planet earth. It is the key driver of all economic and social activities of mankind to manage their daily affairs and provide a decent living. The issue of water security and access to clean and safe water is of particular importance in international development. It is closely linked to public health, food and energy provision, livelihood promotion, environmental protection, and the eradication of hunger and poverty. Ensuring water security leads to the protection of fragile water systems in developing countries, mitigating the effects of water-related hazards such as floods and droughts, empowering everyone to benefit from water and related services, and managing water resources in an integrated, fair, and sustainable manner.

Ensuring access to safe and sustainable water sources is a major challenge for developing countries. Limited and scarce water resources due to depletion, drought, and pollution exacerbate this issue. Concerted and intensified international efforts are needed to provide water and facilitate access to it for all uses. Raising awareness of water security's importance in the international development agenda is crucial for achieving sustainable development. The United Nations' adoption of Goal 6 of the Sustainable Development Goals reflects this. This goal stipulates "Ensure availability and sustainable management of water and sanitation for all" and managing them sustainably for human health, the environment, and water resource sustainability. Achieving water security, as embodied in Goal 6, contributes to achieving other water-related international development goals such as food security, energy security, and promoting public health for all. In this aspect, the world celebrates two international events related to water and sanitation every year. These are: World Water Day on March 22, and World Toilet Day on November 19. These two events aim to raise global awareness of water-related issues. They also draw people's attention to the slogan of the event to inspire development action globally.

The events further stimulate international efforts related to enhancing water security. In this context, the International Decade for Action on «Water for Sustainable Development», began on World Water Day, 22 March 2018. It will end on World Water Day, 22 March 2028. The decade's aim is to accelerate international efforts towards addressing water-related challenges. These challenges include limited access to safe water and sanitation facilities. They also include increasing pressure on water resources and water systems. Reducing the risk of drought and climate change is another important goal.

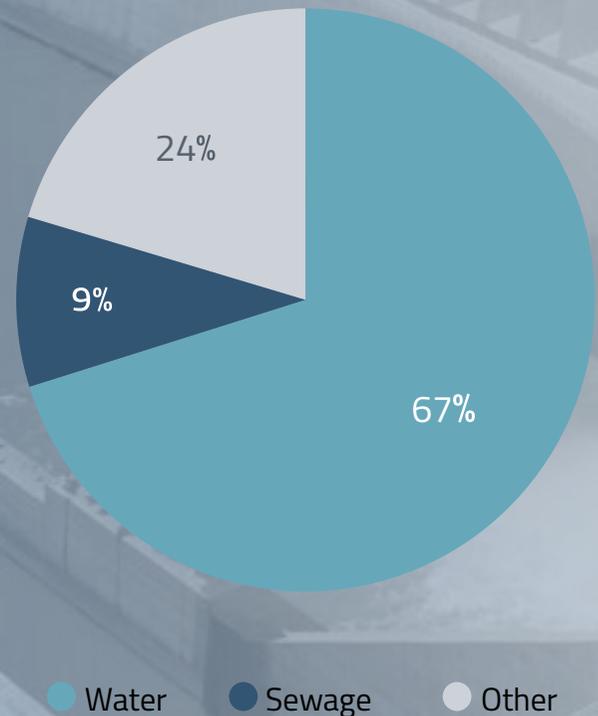

Sustainable development projects for water, both surface and groundwater, are essential for achieving water security. These projects meet development needs for water use in various sectors: agriculture, industry, energy, homes, buildings, hospitals, schools, and more. The need for water projects in developing countries is growing due to increasing scarcity of surface and groundwater. This scarcity is caused by several factors: pollution, rising collection costs due to climate change, and increased demand from a growing population. This pressure on water resources leads to depletion. SFD recognizes the importance of financing water security projects in developing countries. These projects ensure sufficient water supplies for drinking, irrigation, clean energy generation, food production, and public health, promoting sustainable development in its entirety. This section highlights the Fund's efforts in supporting water, sanitation, and related development projects. These efforts aim to support and enhance water security in developing countries.

## **SFD's activity in financing projects in the water, sanitation and water-related sectors:**

Since its inception, SFD has played a prominent role in supporting water and sanitation projects, as well as water-related sub-development projects. This commitment continues today. SFD prioritizes these projects because they are crucial for advancing economic and social development, especially in developing countries facing water scarcity and environmental challenges. Water resources, in all their forms and uses, are essential in this context. SFD dedicates a significant portion of its contributions to the social infrastructure sector. Here, it prioritizes projects that provide safe drinking water and improve sanitation systems. These projects play a vital role in improving public health in developing countries by eliminating water-borne diseases that endanger millions of lives. Recognizing water's importance for sectors like agriculture and energy, SFD has also financed irrigation and wastewater projects. Additionally, it has supported agricultural projects involving dams, irrigation canals, and hydroelectric dams. These projects contribute to developing countries' efforts in achieving food security and clean energy security. In total, SFD has financed 129 development projects in the water, sanitation, and water-related sectors. These projects represent a cumulative investment of SR 14,895.65 million.

## First: Projects of Potable Water and Sanitation

As part of its efforts to enhance water security in developing countries, finding sustainable sources of clean drinking water, building wastewater networks to reduce water pollution and fight the spread of water-borne diseases to ultimately improves public health and fosters the development of healthy and safe communities and to contribute to economic and social development, SFD has funded 60 projects in this field with a total value exceeding 6,624.09 SR million. The breakdown of these projects is as follows: 40 projects focus on providing drinking water. 5 projects concentrate on building wastewater networks. The remaining 15 projects address other water and sanitation-related needs. A diagram further illustrates this project breakdown (as shown below).

## Potable Water

No.	Project Name	Country	Region	Main Sector	Sub-sector	Micro Sub-sector	Amount (SR Million)

## Second: Water Projects for Agricultural Purposes

SFD is dedicated to support water projects aimed at providing water for agricultural purposes in developing countries throughout its great developmental journey. This comes in recognition of the importance of water in enhancing agriculture, increasing agricultural production, and achieving food security in light of the severe shortage faced by the developing countries in this field. In this regard, SFD has also funded 55 development projects in order to provide water for agriculture, with a total value of SR 5,520.51. SFD's projects have diversified among construction of agricultural dams, which reached (31 projects), irrigation channels (17 projects), and irrigation and drainage (7 projects), as shown in the following diagram.

## Agricultural Dams

No.	Project Name	Country	Region	Main Sector	Sub-sector	Micro Sub-sector	Amount (SR Million)
1	Selenji Dam	Mali	Africa	Agriculture	Agriculture	Agricultural Dams	50.29
2	Sidi Saad Dam	Tunisia	Africa	Agriculture	Agriculture	Agricultural Dams	219.36
3	Tarbela Dam Repair	Pakistan	Asia and the Pacific	Agriculture	Agriculture	Agricultural Dams	172.28
4	Gargoyle Agricultural Valley	Mauritania	Africa	Agriculture	Agriculture	Agricultural Dams	33.50

17	Reclamation and Rehabilitation of Water Basins in Santiago, Sant Antao and Boa Vista Islands	Cape Verde	Africa	Agriculture	Agriculture	Irrigation Channels	63.75
<b>Total</b>							<b>1,170.50</b>

## Irrigation and Drainage

No.	Project Name	Country	Region	Main Sector	Sub-sector	Micro Sub-sector	Amount (SR Million)
1	Southern Jordan Valley Irrigation (Fifa and Khanzera)	Jordan	Asia and the Pacific	Agriculture	Agriculture	Irrigation and Drainage	12.70
2	Iracundo Jumbo Eye for Irrigation and Flood Control	Indonesia	Asia and the Pacific	Agriculture	Agriculture	Irrigation and Drainage	120.96
3	Irrigation and Drainage for Lands Located on Indus River Banks (Phase I)	Pakistan	Asia and the Pacific	Agriculture	Agriculture	Irrigation and Drainage	231.52
4	Al - Jazira Rehabilitation (Second Loan)	Sudan	Africa	Agriculture	Agriculture	Irrigation and Drainage	70.90
5	Irrigation and Drainage Pumping Stations	Egypt	Africa	Agriculture	Agriculture	Irrigation and Drainage	300.00
6	Rehabilitation of Irrigation Water Lifting System Pumps in Qarshi (Phase II)	Uzbekistan	Asia and the Pacific	Agriculture	Agriculture	Irrigation and Drainage	162.00
7	Development of Water and Irrigation Sources in Khatlon	Tajikistan	Asia and the Pacific	Agriculture	Agriculture	Irrigation and Drainage	93.75
<b>Total</b>							<b>991.83</b>

### Third: Water Projects for Clean-Energy Generation Purposes

SFD has allocated a portion of SFD contributions to fund water projects aimed at providing clean energy in the developing countries. This is through funding hydroelectric dam projects in order to generate clean energy. SFD has also funded 14 development projects in this field, with a total value of SR 2,751.05, as shown in the following diagram:

● Hydroelectric Dams

## Dams - Hydroelectric

No.	Project Name	Country	Region	Main Sector	Sub-sector	Micro Sub-sector	Amount (SR Million)
1	Kpong Hydroelectric Power Station	Ghana	Africa	Energy	Dams	Hydroelectric	114.70
2	Song Loulou Hydroelectric Power Station	Cameroon	Africa	Energy	Dams	Hydroelectric	105.90
3	Al Massira Dam	Morocco	Africa	Energy	Dams	Hydroelectric	120.00
4	Andekaleka Hydroelectric Plant	Madagascar	Africa	Energy	Dams	Hydroelectric	42.40
5	Kiambere Hydroelectric Power Station	Kenya	Africa	Energy	Dams	Hydroelectric	39.96
6	Kompienga Dam	Burkina Faso	Africa	Energy	Dams	Hydroelectric	40.00
7	Marsyangdi Hydropower Station	Nepal	Asia and the Pacific	Energy	Dams	Hydroelectric	45.39

No.	Project Name	Country	Region	Main Sector	Sub-sector	Micro Sub-sector	Amount (SR Million)
8	Al Ghubrah Desalination Plant (Phase III)	Oman	Asia and the Pacific	Energy	Dams	Hydroelectric	68.45
9	Garafiri Dam for Hydroelectric Power Generation	Guinea Conakry	Africa	Energy	Dams	Hydroelectric	74.00
10	Garafiri Dam for Hydroelectric Power Generation (Second Loan)	Guinea Conakry	Africa	Energy	Dams	Hydroelectric	36.00
11	Merowe Dam	Sudan	Africa	Energy	Dams	Hydroelectric	563.00
12	Merowe Dam (Additional Loan)	Sudan	Africa	Energy	Dams	Hydroelectric	225.00
13	Mohmand Dam Hydropower	Pakistan	Asia and the Pacific	Energy	Dams	Hydroelectric	901.25
14	Rogun Hydropower Station	Tajikistan	Asia and the Pacific	Energy	Dams	Hydroelectric	375.00
<b>Total</b>							<b>2,751.05</b>

## Fourth: Development Projects Granting for Water and Water-Related Sectors

Project Name	Country	Region	Sub-sector	Amount (SR Million)
Providing Potable Water "(12) Thousand Surface Wells and (4) Thousand Deep Wells"	Bangladesh	Asia and the Pacific	Water and Sanitation	19.05
Implementation and Rehabilitation of Water Supply and Sanitation Networks	Jordan	Asia and the Pacific	Water and Sanitation	516.37
Construction of Pumping Stations and Rehabilitation of Sewerage Network in Zarqa Governorate	Jordan	Asia and the Pacific	Water and Sanitation	86.25
Development of Water Transportation Network	Bahrain	Asia and the Pacific	Water and Sanitation	141.75
TUBLI Wastewater Treatment Plant (Phase III)	Bahrain	Asia and the Pacific	Water and Sanitation	348.75
Providing Capital (Moroni) and its Neighboring Villages with Potable Water	Comoros	Africa	Water and Sanitation	18.75
Flood Damage Repair	Djibouti	Africa	Dams	20.00
Saday Dam Construction	Djibouti	Africa	Dams	5.62
Providing Abukh Governorate with Potable Water from Psidoro Region	Djibouti	Africa	Water and Sanitation	37.50
Supplying Villages in Akkar District with Well Water	Lebanon	Asia and the Pacific	Water and Sanitation	14.61

Project Name	Country	Region	Sub-sector	Amount (SR Million)
Funding Supplement of Equipment and Devices Required for Water Projects by the Kingdom	Lebanon	Asia and the Pacific	Water and Sanitation	32.36
Feeding New Cities on the Red Sea with the Nile Water	Egypt	Africa	Water and Sanitation	143.02
Irrigation Related to the Dar Khroufa Dam in Larache Province	Morocco	Africa	Agriculture and livestock	540.00
Kaddosa Dam in Errachidia Province	Morocco	Africa	Dams	150.00
Construction and Preparation of Four Medium and Small Dams	Morocco	Africa	Dams	75.00
Improvement of Water Supply and Sanitation Networks	Gambia	Africa	Water and Sanitation	84.37
Water Supply and Sanitation in Urban Cities	Yemen	Asia and the Pacific	Water and Sanitation	150.00
Treatment of the Sewage System in the City of Al Hudaydah	Yemen	Asia and the Pacific	Water and Sanitation	37.50
<b>Total</b>				<b>2,420.90</b>

## Fifth: Saudi Program for Digging Wells and Rural Development in Africa

The Kingdom has launched this Program in 1981 in response to the needs of African countries. The first phase of implementation began in 1982 with the aim of digging and preparing drinking-water wells for rural populations. This is for direct contribution in order to mitigate the impact of drought on African countries in various rural areas. The implementation of this Program continued in five phases, with a total allocation of SR1,237.50, to drill and prepare 8,800 wells that will benefit over 4.5 million people across the African continent.

### Contributions and Implementation Phases Value:

## The Water Points Implemented Include Three Types:

1. Wells equipped with manual pumps.
2. Deep wells equipped with solar-powered pumping systems, water tanks and distribution networks.
3. Traditional open wells.

Country	Allocated Amount (US Million)
Mauritania	28.7
Mali	38
Chad	34.9
Senegal	31
Niger	35.7
Guinea	24.5
Burkina Faso	31.2
Gambia	19.6
Cape Verde	13.1
Guinea Bissau	16.3
Djibouti	7

Country	Allocated Amount (US Million)
Togo	8
Benin	8
Uganda	3
Tanzania	4
Sierra Leone	5
Cote d'Ivoire	6
Kenya	5
Mozambique	3
Guinea Conakry	8
<b>Total</b>	<b>330</b>

## The Contribution of the Private Sector in the Kingdom of Saudi Arabia to the Implementation of Projects Financed by SFD

SFD contributes to supporting the developing countries in order to implement their development projects funded by SFD. This is through providing the Kingdom's accumulated expertise and competitive advantages in sectors of consulting, contracting, and materials supply sectors, which have contributed to comprehensive development within the Kingdom. SFD harnesses these capabilities for the beneficiary countries receiving SFD loans by encouraging Saudi companies to participate in the international competitions in order to implement these projects. The following provides an overview of the private sector's contribution to the implementation of some SFD projects until the end of the fiscal year 2023:

In the fiscal year 2023, the Saudi Private Sector participated in implementing some of the projects that SFD contributed to funding them, as the number of Saudi contracts reached 9 contracts, representing 26% of the total contracts, with an amount exceeding SR198.52 million, representing 36% of the total contract amounts. As shown in the following table:

Contracts Details	Saudi	Foreign	Total
Contracts Number	9	26	35
Contracts Percentage	26%	74%	100%
Total Contract Amounts Funded by SFD	198,520,444.80	348,753,770.07	547,274,214.87
Percentage of Contract Amounts with Local Content Over Total Contracts (Saudi - Foreign)	36%	64%	100%

**Following Up on the Progress of the Reconstruction and Rehabilitation Project of the North-South Road (Balykchy-Jalal-Abad) in the Kyrgyz Republic**
